☞ It is said that the proprietors of the New York Hotel closed their doors against a carriage load of the rescued ladies of the Central America on Sunday, on the ground that "the house was full." If the statement be true, the sooner the house is empty the better. We have the same authority for stating that the doors of the Metropolitan, Astor and St. Nicholas Hotels were opened wide, and that the hackmen refused to receive pay from the women.

SINGULAR DEATH.—Mr. T. A. Green, a young lawyer, wrote a piece of poetry for the Decatur Gazette, Missouri, which the editor, Mr. Davis saw fit to "cut up" severely. A quarrel ensued and the belligerents came to blows. Mr. Charles Shepherd, a witness in the affray, was called upon to testify in relation to it, and being a nervous man, the excitement of the occasion overcame him, and after giving his testimony he fell down and immediately expired.

☞ R. Wright publishes a card in the N. Y. Tribune, in which he says he is informed by one of the men employed to repair and fit the Central America for sea, that there was not a pump in working order on the vessel; that, nevertheless, the owners hurried her to sea, and gave them no time to put her in order, and make her safe and seaworthy.

☞ The Newburyport Herald says that Amesbury is beginning to brighten again. The hum of spindles and the noise of looms are once more sounding by the waterfalls of the Powow. The factories are being gradually put in operation, and we notice almost every day, that wool is passing through this city in that direction.

DISCHARGED.—Dr. William Young, of Deerfield, N. H., who was arrested in Portland, last week, for an alleged felonious assault upon Miss Emerson, has been examined before Justice Moulton, of Exeter, and discharged, the evidence not sustaining the charge.

☞ A correspondent of the Boston Post, noticing the contemplated closing of the factories at Lowell, says that during the last month, more than seven hundred of the Irish population have purchased return tickets to Liverpool, attracted by the improved and improving state of agricultural interests in the Emerald Isle.

At the Meredith, N. H., Baptist Association, two weeks ago, says the Era, Rev. J. K. Chase preached from Luke 13: 24. Subject: "The proportional number of the finally saved." Resolutions against slavery and in favor of the vital principle of the Maine law were passed.

George Knight, convicted of the murder of his wife in Maine, was on Tuesday sentenced to be hung. According to the statute, he must remain in the State Prison for one year, and then it is optional with the Governor to issue a warrant for his execution or suffer him to continue at hard labor in the prison.

Helley Dow, pastor of the African church, Augusta, Georgia, was originally a slave, but his people bought him some years ago; and as Zion's Advocate says, "he is their servant pecuniarily as well as spiritually." They allow him a salary of from $800 to $1000 per annum.

☞ Last Tuesday being the fiftieth anniversary of the ordination of Rev. Samuel Willard, over the Congregational Church at Deerfield, Mass. [his society got up a celebration, which passed off in fine style.

☞ A letter from Dewitt, Clinton county, Iowa, states that wheat was sold there *at two shillings* per bushel. Clinton county borders on the Mississippi, and Dewitt is only thirty miles west of that river, lying on a railroad. The wheat sold was a good article of the spring wheat.

☞ The contract for the United States sloop-of-war has been awarded to Jacob A. Westervelt of New York.

☞ Fourteen of the women saved from the Central America had husbands on board, of whom only four survived.

Ice Carrier's Notice.

THE SUBSCRIBER regrets exceedingly that he has been unable to supply his numerous customers with Ice since the 15th of September; and wishes to offer a word of explanation for his discontinuance of the delivery of Ice a fortnight sooner than he intended. Wishing to furnish the best article to be had, I made arrangements for a supply, as I might need, with the Rockingham Ice Co.; but have dealt my Ice home for the past two winters. This quantity I deemed sufficient to carry me through the season; but my list of customers increased so much as to exhaust my stock—and the Company declined to open their house to supply me, as I had expected them to do. While thankfully acknowledging the liberal patronage bestowed upon me, the past two seasons; I will state that I shall make more complete arrangements to serve those who may favor me another year. GEORGE L. SICKELL.

Vulcanized Gutta Percha Clothing.
MOSES & DOWNIE,

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear

These fabrics, since their first introduction to the public, almost three years since, have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unit for sea service.

SPECIAL NOTICES.

FITS! FITS!—The Princess Charlotte of Wales was destroyed by fits! acrid matter in the stomach and bowels, green stools, &c., &c., are some of the causes. The celebrated Carminative will regulate the system.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

☞ We are happy to announce that the best of cheese may be had at 12 1-2 cents per pound. Molasses for 40 cents per gallon; sugars at reduced prices, the best kind of crushed sugar at 12 1-2 cts.; potatoes very cheap, and all family groceries at uncommonly low prices for cash, at the store of F. W. ROGERS, on the corner of Vaughan and Congress streets,—where Fancy Soaps of various kinds, and many other articles may be found, but no spirits except Camphene and Burning Fluid. au18 tf

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 3w

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

LOCAL.

☞ For about two months past, citizens residing in the outskirts of the city have been frequently annoyed by midnight visits from a band of rascals, who pull down stone walls, unhang gates, take away field bars; besides committing numerous thefts, such as robbing orchards, gardens, &c.—These marauders have become such a nuisance as to cause the injured parties to try some means to put a stop to such proceedings. Accordingly, a petition was sent to the Board of Aldermen on Thursday evening, and Daniel H. Spinney, Esq., was appointed to act as special police in that district, for sixty days; as we stated in our municipal report on Friday morning.

The depredations are confined principally to stealing and exposing crops, which will probably be all gathered in two months; therefore his administration was limited to the above number of days.

We trust he will succeed in arresting these villains, and bring them to justice, that they may suffer the extreme penalty of the law. REPORTER.

ROCKINGHAM COUNTY FAIR.

All Ladies of this city who are desirous of assisting in decorating the Halls for the reception of fruit and flowers, are requested to meet at Congress Hall, on Monday morning at 9 o'clock. Per order.

J. H. Head, C. H. Hayes, G. F. Melcher, F. F. Hastings, H. Chamberlain, J. S. Rand, J. H. Hoyt, Committee.

The examination of the application for admission to the Boys' High School, was commenced on Friday morning at 8 o'cl'k, and closed at 6 in the evening. We are informed that the examination proved highly satisfactory, and that the pupils showed a decided advance as compared with previous classes. Twenty eight out of thirty applicants were admitted.

NAVAL.—A Washington letter says that in accordance with the new regulation of the Navy, diminishing the cruise of national vessels from three to two years, the sloop-of-war St. Louis has been ordered from the coast of Africa, and the John Adams from the Pacific, to Portsmouth, N. H.

☞ The sch. El Dorado, arrived at Boston from Galveston, reports herself as speaking the Central America not long before she went down. The El Dorado had no boats but one little thing that could not live in such a violent and stormy sea. She lay off and on all night, but saw nobody. She was the foro and aft schooner seen by some on the wreck. This removes the last hope that Capt. Herndon might have escaped.

LOOK OUT FOR PICKPOCKETS!—Uncle Toby has seen some scoundrels round lately and has heard of others. Some of the sailors here, have been swindled by them; and as there is to be a cattle show at Newburyport on Tuesday and Wednesday—and another here on Thursday and Friday the citizens and visitors must look to their pockets.—The rascals are vigilant.—Our policemen are few, and poorly paid.

☞ A letter writer from Lexington, Ill., says:—"You may judge of the scarcity of money when I tell you that even wheat is purchased by the merchants on a promise of after payment, and I am told that it is offered here to-day at 30 to 35 cents cash."

☞ It is estimated that there are four millions of female snuff takers in the United States, using on an average two pounds each per annum, or eight millions of pounds, at an expense of two millions of dollars.

☞ Horse property is very uncertain wealth. Col. Goldsby, owner of the famous racer Brown Dick, lately refused $12,000 for him; and now Brown Dick is ruined as a racer by the strain of his ancles.

☞ Mr. James Ward, who owns a large number of tenements in Chicago, has, in view of the hard times, visited all his tenants, and reduced their rent twenty per cent. each.

☞ One day last week, a lady residing at St. Mary's, on the Ohio, below Wheeling, Va., gave birth to four bouncing babies. They were all doing "as well as could be expected."

☞ The steam flour mills at Atlanta, Ga., turn out daily 280 barrels of flour.—Until within a few years, Georgia was a large importer of flour; now she is a large exporter.

☞ The Boston papers report that the failure of Emmons, Danforth & Scudder, for nearly a half million dollars, was caused by operations in sugar and molasses.

S. J. COURT, N. H.

Hillsboro' County., Sept. 22.

The following sentences were passed:

Oliver K. Bradford, of Nashua, burglary, two counts, sixty days solitary and six years in State Prison.

Edward Fitzgerald, of Manchester, burglary, eighteen months in State Prison.

Frederick Willett, of Manchester, burglary, one year in State Prison.

Bridget Holland, of Manchester, stealing a $20 bill, two years in State Prison.

William La Point, of Nashua, larceny of money, six months in jail, $10 fine, and pay to owner treble value of goods stolen and costs, $43,80.

James Gould, of Mount Vernon, for stealing a watch, six months in jail, $10 fine, $57 costs and treble value of property taken.

William H. Hill, of Manchester, stealing cloth, same fine, and imprisonment as above, costs and treble value, $58,50.

Edward R. Brown, of Manchester, fornication, two months in jail, $25 fine and costs, and recognize in $100 for six months.

Alonzo Blanchard, adultery, two months in jail, $50 fine and costs.

Ira R. Holt, adultery, same as above.

Samuel O. and Martha J. Higgins, of Manchester, for keeping a disorderly house each three months in jail.

Cornelius Foley, of Manchester, disorderly house, two months in jail.

Margaret McKew, of Manchester, fornication, forty days in jail and costs.

Frances Lover, of Manchester, lewdness, two months in jail, $25 fine and costs, and recognize in $100 with sureties, to be of good behavior.

Susan Knowlton, of Nashua, adultery, two months in jail, and fined $50 and costs.

Ann Lawlin, stealing, six months in jail, fined $10 and costs, and pay $53,79, treble value of property stolen.

The trial of Mrs. Nancy K. Lewis, of Manchester, for abortion, which occupied the Court, for a week past, was given to the jury this morning, who, after an absence of six hours, returned a verdict of *not guilty.—Mirror.*

In the case of Samuel Scripture, for liquor selling, on four indictments, the respondent was fined on each, $50 and costs of prosecution, and to stand committed till paid.—*Amer.*

WASHINGTON, Sept. 24.—Recent advices from our minister at Madrid speak of the display of very marked indignity towards him. It has been suggested that Mr. Dodge may have incautiously approached the Ministry on the subject of the purchase of Cuba.

The Quartermaster General received a dispatch to-day from New Orleans, stating that two companies of artillery had arrived there from Florida, en route for Kansas.

BREACH OF PROMISE CASE.—We learn from the Concord (N. H.) Patriot, that Miss Ellen M. Shaw has commenced a suit against Jonas B. Aiken, of Franklin, for $10,000, for breach of promise of marriage. Aiken and a Mrs. Sophia C. Thompson, of Holderness, have been arrested to answer to the charge of causing an illegal operation to be performed on the person of Miss Shaw, whom Aikin had betrayed under a promise of marriage.

A BORDER RUFFIAN ON CHAPLAINS.—The "border ruffian" constitutional convention of Kansas elected a *Catholic priest* for chaplain, on the principle, we suppose, of the "right man in the right place." Sheriff Jones who advocated the motion said, "If you don't want to hear prayers you needn't. Just stay out till after prayers are over; but I hope you will vote for it. It will have a *fine effect on the country.*"

☞ The New York Independent reports 100 failures last week.

THE MOST SKEPTICAL PEOPLE Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of quackery life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

DEATH FROM USING CHLOROFORM.—A young woman of the name of Packard stepped into the office of Dr. Severance at Salmon Falls on Tuesday afternoon, to have a tooth extracted, and requested to have chloroform applied. The Doctor set the phial on a table and stepped into another room, and when he returned found she had used the chloroform and was dying. She belonged somewhere in Maine and was about 21 years of age.—*Dover Enquirer.*

The decadence of good poetry has been attributed, not to a decline in imagination, but to the abandonment of *goose-quills.* The *quills* may have been abandoned but those who look into a large share of modern poetry will rather conclude that the *goose* has been retained to drive the steel pen.—*Bath Organ.*

MR. SPURGEON IN DANGER.—The Christian Era says:

We have been reading the last volume of Spurgeon's Sermons, with the deepening conviction that his friends are spoiling him.

A Western gent, at the St. Nicholas, the other day, having taken possession of his room, locked it up to go out into the city, and leaving the key at the bar, told the clerk with great simplicity "not to wait dinner for him.

☞ The fresh notoriety which Gen. Pillow if seeking through his revelations touching the Mexican war, brings to mind an old camp song in which one of his military exploits was celebrated:

"I hang my harp upon the willow,
Whenever I think of General Pillow,
The man who dug for Polk and Marcy,
His ditch and breast-work vice *curcy.*"

CONSOLIDATION
—OF—
EMERSON'S MAGAZINE
—AND—
PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

GET THE OCTOBER NO. AS A SPECIMEN.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is conducted in honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in Maryland, and a lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published the following morning, one hour in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Star, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders from any part of Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before Friday, will be in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $10; quarters, $5.50. No tickets sent unless money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prices vary from $40 to $50,000; every package of tickets and remit of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full, no percentage deducted from prices as in other lotteries.

All communications strictly confidential. m13ly

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment in the way of health, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and should be always there; it will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

China Ware

OF the Newest Styles,—just received and for sale at low prices, by JOHN SISE,

sept19 5 Market Square.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced me the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because it is a beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative you left with my brother-in-law, your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has in my family—first, by my wife, restored her hair to its original color, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

CARLILE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, premature gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, and is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market now four years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHERF IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Earth scale Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as some of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to overcome obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, he Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would have no to cause a miscarriage. Are warranted purely Vegetable, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1836.)

No. 70 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty-one years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and assiduity. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: removes congestion, by having a strength to give its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is controlled, by it, as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is the potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.

PATENTED Nov. 31, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are a conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are now considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced in the United States.

MONDAY, SEPTEMBER 28, 1857.

BANK PANIC IN PHILADELPHIA.—*Philadelphia, Sept.* 25.—The Girard Bank only is paying specie for fives and tens, large notes and checks being refused.

The Commercial and other banks are taking the same course, promising to resume to-morrow.

The excitement is intense. The Pennsylvenia Bank has the State funds, and the Girard Bank those of the city.

LATEST.—The Girard and Commercial Banks have stopped.

10 P. M.—A general conference of the Presidents of all the Banks was held this afternoon, and after carefully canvassing all the circumstances of the pressure, and their resources, resolved on a temporary suspension of specie payments on checks, and also on bills exceeding $10, to go into effect to-morrow. There was a heavy run on all the banks to-day, but the Girard and some others shielded themselves in the above manner. All reports of total failures of any of our banks are to be discredited. Brokers and others are highly excited, and circulate monstrous reports.

11 P. M.—It is now understood that the Bank Presidents have unanimously resolved to recommend to the several boards of directors a total suspension of specie payments, to take effect to-morrow. According to the law of 1850, this action will entail the forfeiture of the charters of the banks incorporated since that time.

Sept. 26.—Every bank has suspended, except the Bank of North America, Mechanics Bank and Farmers and Mechanics. There is a terrible excitement, and it is expected that the Governor will call an extra session of the Legislature.

The Traveller says of this panic, it "is quite inexplicable. It is but a few days since the Philadelphia papers were indulging in congratulations that they did not feel the severity of the pressure, and that their business men stood on a firm foundation. Philadelphia is, however, the great retail shop for the West; and we shall probably find she is more intimately connected with the extensive land and railroad speculations in the Western States, than is generally supposed. It is said that even the wealthy Pennsylvania farmers have entered largely into Western speculations."

N. H. STATE FAIR.—The Concord Statesman says, "some complaints being made regarding the price of Tickets for admission to the State Fair, we have had an interview with a portion of the Executive Board, who request us to say that much imposition in other years, was practised upon the Society—several people often obtaining admission to the Fair Grounds, upon presentation of the same badges. The usage of admitting in that mode is abandoned, and the ticket system adopted. To this conclusion the Board came after maturely considering the subject. The ticket system is the only one one by which to prevent imposition, and secure sufficient means by which to sustain the heavy expenses of a State Fair. We are authorized to say that packages of tickets will be sold at a price with which the public cannot properly find fault."

"TITUS" TURNED UP AGAIN.—At St. Louis, on the evening of Tuesday, Oct. 15, Col. Titus, of Kansas and Nicaragua notoriety, got into a fracas at the Planters' Hotel, and was taken to the police station house. It seems that he was in the bar room of the hotel, talking in a violent and excited manner, thumping the counter with his fists, and swearing roundly, when a drunken person, attracted by the noise, approached him and made some offensive remarks. The Colonel knocked him down, beat him with a cane, and cut his ear.—The porter of the hotel, seeing the poor fellow all bleeding, and ascertaining the cause of it, took up his quarrel, saying that no gentleman would act as Titus had. The Colonel and the porter got into a fight, when the former drew a revolver and fired it, but fortunately no damage was done, as some one knocked down the hand which held it, so that the Colonel narrowly escaped shooting his own foot. Both belligerents were taken to the watch-house.

A JOHN DEAN AFFAIR IN VIRGINIA.—Some gossip was created at Petersburg, Va., a few days ago, by the rumored appearance on the streets of a lady from the wealthy circles of Norfolk, in company with a smart Irish lad with whom she had slipped off to Weldon, where their fates were duly united by the very accommodating hymeneal agent at that place. The circumstances connected with this romantic match are said to form a parallel with the late Johnny Dean "affair" in New York. It is reported that the fair one is sole heiress to $100,000; and her papa is a *liquor* merchant.

☞ Eber C. Freeman, Esq., of York, Me., raised the present season 30 stalks of wheat, which contained 1410 kernels, from only one kernel sown.

A PLEASURE TRIP OUT WEST.

NO. III.

MILWAUKIE, Sept. 22.

Messrs. Editors:—Thanks to our perseverance, and not to the La Crosse Railroad, we are again in the haunts of civilization. Rusticating is very fine—to read about, but when it comes to the real article,—sleeping four in a bed, in a log hut, where the wind doesn't wait for you to get into bed before it blows the light out; eating pigeons for breakfast, pigeons for dinner, and for supper pigeons; the next day, by way of variety, wild ducks three times, and so on, for a week or ten days,—one soon gets disgusted with the rural felicity, consequent upon a residence in the Great Western wilds.

Our strenuous endeavors to reach this place, and the sufferings we underwent, place us on a par with Bunyan's "Pilgrim." Just five minutes late for the mail stage, we walked three miles farther, to the Railroad station, when we had the pleasure to see the cars start when within five rods of it. Then we received the gratifying intelligence that we must wait eight and a quarter hours, unless we chose to walk five miles down the road, where we could get on the freight train; which alternative we accepted, reaching there one hour before the train, which went by without stopping, leaving us to wait there seven hours. All things must have an end, however, and so did our stop, at last, but it came near being the end of me also.

Having the good luck to meet with three Portsmouth boys here, we have to-day made up for our yesterday's suffering. They have here a hotel, which has been in operation about three weeks, not excelled, probably, in the United States—the Newhall House, named after its builder, one of the first settlers here, and the owner of the finest private residence in the city; in fact, I should say, the John M. Wood of Milwaukie. The new Custom House and Post Office, now being erected here, of white marble and iron, will probably take the shine off from even *the* new Custom House. Here, as in most western cities, the bricks are yellow, and the only red brick store in the city is painted. Here is as fine an opportunity to study German character as can be found the other side of the water, as two-thirds of the inhabitants are German.

And now, I wish to enter a complaint against the most crying nuisance that ever infested our stages, cars, steamboats, places of public worship or amusement,—to wit, *Babies!*

All the way have these brats, for whose conveyance nothing is paid, kept up an incessant squalling, to the entire ruination of the comfort of the passengers who do pay. The remedy, they should be charged double fare, and be sent in the baggage car, or a box cattle car, all infringements to be punished by instantaneous death.

Your murderously inclined friend,

CYPHAX.

All bosh, says Uncle Toby. Don't believe he'd kill a mouse; much less a baby.

☞ The Concord Democrat announces the death of Peter Ayer, at the Shaker village, Canterbury, on the 14th of September. He was 97 years and two days old. He was one of the founders of the Society of Shakers, having been a member of that fraternity upwards of seventy years. He was a most powerful, athletic man, and one of the few survivors who took part in the American Revolution.

THE VERMONT ELECTION.—The official returns of the election in Vermont are given in the Vermont papers. For Governor, Ryland Fletcher, Republican, had 25,675 votes; Henry Keyes, Democrat, 12,014; scattering, 220;—majority for Fletcher, 13,441. The Senate, consisting of 30 members, is unanimously Republican. The House of Representatives stands, Republicans, 189; opposition, 38.

☞ Mrs. Partington says she "ain't very incredible," and "believes as much as any rationable person ought to,"—including the story of a man climbing a pole and pulling it up after him, and of the actor holding himself out at arm's length; but it is "beyond her belief that a cargo of molasses could 'change hands.'"

The old lady, who has been troubled for some time, as she says, with a guitar in the head, was seen on Friday, in State street, endeavoring to experience some of the "better feeling" which she understood was "existing" there.

☞ A singular pair of fatalities occurred at a hotel in Canton, Pa., last week. W. H. Greenman, a lawyer, committed suicide, while under the influence of delirium tremens; and Mr. Spalding, proprietor of the house, fell in a fit upon seeing the corpse, and died immediately.

A RIVER ON FIRE.—The whiskey rectifying establishment of Henry W. Blunt, Georgetown, Md., was destroyed by fire on Saturday night. The bursting of 350 barrels of whiskey, and the running of the blazing fluid into the water, was a sight to behold. The surface of the water was covered with a blue flame, and the Potomac looked on fire. A Boston packet, lying close by, had to push out into the stream, for fear of being surrounded by the devouring element.

NOTHING TO SMOKE.—The whole number of cigars exported from Havana up to the 15th of August, the present year was 94,785,000, of which 29,681,000 were cleared for this country, 16,300,000 to Great Britain, 17,733,000 to Hamburg and Bremen, 9,628,000 to France, and 8,130,000 to Spain. The exports of tobacco amounted to 1,180,345 pounds, of which 528,536 pounds were cleared for this country.

SOUTHERN WHEAT.—The Charleston correspondent of the Memphis Bulletin writes: "It is estimated that the wheat crop of Tennessee, Georgia, North and South Carolina, will amount to four and a half million bushels, and that of this amount Charleston is likely to receive 250,000 barrels of flour and 1,500,000 bushels of wheat. For the last nine months there have been exported to Spain from this city 60,000 barrels of flour. There are now in Georgia and Tennessee twenty large merchant mills, with the capacity of 200 barrels each per day, besides a large number of smaller capacity. There are also several large mills in North and South Carolina, and a great many smaller ones, so that Charleston may now be termed a flour and grain market."

☞ A watch worth 175, was stolen from the store of I. H. Weston, in Lewiston, Me., 10th inst. It was traced to the possession of James Miller, a farmer of Lisbon, who confessed that he stole it, and plead drunkenness in extenuation. He was committed to jail.

☞ Marcellus N. C. Sheppard and Mehitable Doughty were arrested in Topsham, Me., last week, and examined on charge of robbing and setting fire to the store of Uriah Grant in that town, about a year ago. They were bound over for trial, and for want of bail were committed to Wiscasset jail.

☞ The price of molasses has declined so much, that the Portland Sugar house (which has been closed for some weeks,) have re-stocked their house, and have commenced making sugar from molasses.

THE NEW SLOOP OF WAR.—A Washington dispatch of the 22d reported that the contract for the new sloop of war had been awarded to Mr. Westervelt, of New York. This statement is contradicted by a dispatch of the 23d.

The Abington Standard says it is reported that Tirrell & Hersey of South Weymouth, who also have a house in New Orleans, have failed, their liabilities being $75,000 or $100,000. They have asked for an extension.

A free colored girl, named Virginia F. Gracon, was lately taken from Washington city to Richmond and sold as a slave for $1,250. The authorities have taken measures for her recovery and the punishment of the offenders.

☞ Judge Russell, of New York, has sentenced a burglar named Hannegan to *forty* years in the State prison. This long sentence was for knocking a man down and robbing him of $5!

☞ The Portland Advertiser says it is twenty-four years since a criminal was legally executed in that State, yet crime has not increased in consequence,—and the people generally are satisfied with the law as it is.

It is now twenty-four years since there was a case of capital punishment in this State. Since that time there have been not over four or five capital convictions, showing conclusively two facts; first that our State does not suffer in comparison with any other of its population in the number of capital crimes, and second, that the virtual abolition of the death penalty has not been followed by an increase of offence.—*Bath, Me., Organ.*

☞ It is said the loss of specie by the Central America is the largest which has taken place in nearly two hundred years, by a single disaster.

☞ An Edinburgh paper says that Madeline Smith, who dismissed an unworthy lover with a love potion that took him out of the world, has had ten offers of marriage.

NEW YORK, Sept. 25.—Bangs Brothers, the book auctioneers, failed yesterday.

Also, the Medina Bank, Medina, N. Y.

NEW YORK, Sept. 26.—Half of the Baltimore Banks have suspended. Wall street is wild with excitement, but there is no run on the banks yet.

GARDINER (ME.), Sept. 25.—At the cattle show of the south Kennebec Agricultural Society, the floor of the building fell, with a large number of people. Four persons were badly injured. Two ladies had their legs broken. Mrs. Libby, of Gardiner, met with a severe injury of the brain. Mrs. David Brown, of Richmond, had her back broken: All these were on the floor beneath that which fell.

The Rev. Mr. P——, in his sermon, on Sunday last, told about a minister who took his sermons from his library and his prayers from his icehouse.

LOCAL.

ROCKINGHAM COUNTY FAIR.

Arrangements are progressing finely, for the best show ever made in old Rockingham County.

The field, on Middle street, is fenced round; and fifty good Pens provided for stock; and plenty of other arrangements for securing working oxen, &c. The location is excellent—sufficiently level for all practical purposes, yet with a little rise and fall of land, so as to afford a better view of the whole field from any portion of it.

As we have already announced, both Jefferson and Congress Halls will be occupied; and all Ladies of this city who are willing to assist in decorating the Halls for the reception of fruit and flowers, are requested to meet at Congress Hall, this (Monday) morning at 9 o'clock.

The Procession, which to many will be the chief attraction, will be a long one. We hear of several fine Town Teams to be brought into the line—from Rye, Greenland, Newington, and Exeter; and even old Nottingham—twenty-five miles off, will be represented by a rural omnibus, got up by much labor, and no small expense. That's right—bring 'em along. but if our Portsmouth farmers fail to do something of the sort, we shall feel ashamed for them. We would suggest that some sort of a water-craft be rigged up in good style; and twenty-five yoke of the handsomest cattle in town be hitched to it. Who says aye? let them report to either Charles Hayes, Ebenezer Haines, or D. H. Spinney,—let us do our share at home, ere we call on farmers abroad to come here and make a show. We trust, also, that Stratham and Hampton will be heard from, and especially Hampton Falls,—as well as every other town in the county.

For a Plowing Match, a lot on the west side of Auburn street has been selected—in the field with the slaughter-house. An acre is divided into eight parts; and though the soil is a little heavy, it will be found a good place—the best that could be procured within a long distance.

We understand that there will be at least two ships launched during the continuance of the Fair.

In reply to repeated inquiries whether there is to be any trotting of horses at the Fair—we would state that there is to be none under direction of the Society; but if any body wishes to get up a match, there is plenty of room a little out of the city, and it would doubtless be easier to raise subscriptions for a decent purse for this object than to *win* it.

At a regular meeting of the Portsmouth Mercantile Library Association, on Friday evening last, the following resolutions were unanimously adopted:

Resolved, that we learn with deep sadness the death of a brother member of this Association, Mr. Horatio Parker.

Resolved, that as an officer of the Association for a number of years, he endeavored by every means in his power to advance our interests, and establish us on a firm basis, and make the M. L. A. an honor to the city and a lasting benefit to the young men who may in all time be connected with the same.

Resolved, that as Librarian of the Association, and as a committee on the selection of books for the Library, he has left a name in the annals of our Society which will ever be remembered.

Resolved, that in his connection with us, in his daily walks in life, outside the Association, he has endeared himself to us all by his amiable and gentlemanly qualities.

Resolved, that we deeply sympathize with his afflicted family for their great loss as a son and brother, a true christian and loved friend.

J. W. TUCKERMAN, Secretary.

☞ Wm. H. Rollins, Esq., of this city, has been appointed, by the Governor and Council, Associate Police Justice.

FUN.—The Bath Organ says of the Maine election:—

The "back towns" have come in, and we give up beat. We shall give our enemies "Jessie," next time, however. The Bangor Union claims three Democratic Senators, and in addition, the Argus at one time claimed one from York, but it turns out that we have elected but one in all—in Washington. Something like the boys' snakes. He killed *fifty*; if not fifty, *twenty*; if not twenty, *ten*; if not ten, *one darned great one!* If we have not elected three Senators, we have at least secured *one good one*.

A little friend of ours, aged two years, was afraid of going into a dark room, always protesting that there were "tigers" in it. His mother, who wished to cure him of his fear, told him that tigers did not live in houses, but in a country far away. Some days after, the child's nurse left town for the summer.

"Mamma," said the little one, "where is Jane?"

"Jane has gone far away into the country," said his mother.

"Tigers 'll get her," said the child.—*Peterson's Lady's Book.*

☞ Liverpool, a city nearly as large as New York, is without a daily paper.

EXECUTIVE APPOINTMENTS.

SEPT. SESSION, 1857.

CIVIL.—*School Commissioners.*—Thomas J. W. Pray, of Dover, in place of Charles F. Elliot resigned; John H. Merrill, Tamworth, in place of Edward R. Perkins resigned.

Associate Police Justices.—William H. Rollins, of Portsmouth, after October 8; Stephen C. Badger, Concord, in place of David Pillsbury, appointed Special Justice.

Police Justice.—David Pillsbury, of Concord, in place of John Whipple, deceased.

MILITARY.—*Major Generals.*—First Division, Charles A. Nason, Hampton Falls; Second Division, Luther McCutcheon, New London; Third Division, George S. Towle, Lebanon.

Brigadier Generals.—Frist Brigade, Richard J. Sandborn, Deerfield; Second Brigade, Nathaniel Hubard, Tamworth; Third Brigade, George Stark, Nashua; Fourth Brigade, Robert N. Corning, Concord; Fifth Brigade, Nelson Converse, Marlborough: Sixth Brigade, Jacob Benton, Lancaster.

VALUE OF THE DOG.—Although nothing can be said in favor of the dog while in a state of nature, still, after he has received an education from man, the whole world will bear testimony to his immense value. Volumes would not suffice to contain instances of his services to the human race. A man and his dog may almost be considered as component parts, each working for the other, whether in heat or in cold, in tempests or in calms. The blind confide in him, the lame have his support, the rich are proud of him, and too often the poor man has nothing but his dog to give him consolation.—*Waterton's Essays.*

It is better to love a person you cannot marry, than to marry a person you cannot love. This is a short text for a long sermon, which human experience will continue to preach until the last syllable of recorded time.

CHARLESTON, Sept. 25.—The suspension of the Pennsylvania Bank, and refusal of the Girard and other banks to make specie payments for checks and bills over $10, excited surprise in our commercial circles.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

Vulcanized Gutta Percha Clothing.

MOSES & DOWNIE,

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear.

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

Ice Carrier's Notice.

THE SUBSCRIBER regrets exceedingly that he has been unable to supply his numerous customers with Ice since the 15th of September; and wishes to offer a word of explanation for his discontinuance of the delivery of Ice a fortnight sooner than he intended. Wishing to furnish the best article to be had, I made arrangements for a supply, as I might need, with the Rockingham Ice Co.; who have filled my ice house for the past two winters. This quantity I deemed sufficient to carry me through the season; but my list of customers increased so much as to exhaust my stock—and the Company declined to open their house to supply me, as I had expected them to do. While thankfully acknowledging the liberal patronage bestowed upon me, the past two seasons; I will state that I shall make more complete arrangements to serve those who may favor me another year. EMERSON'S MAGAZINE

—AND—

PUTNAM'S MONTHLY.

40.000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

A Visit to the Navy Yard.

Having a few leisure moments, and induced by a curiosity to see the most formidable war vessel ever built in this country, we lately paid a visit to the Portsmouth Navy Yard, and took a look at the "Franklin." The Franklin seventy-four gun ship was built in Philadelphia in the year 1815, and was ordered to this yard with the view of testing the capacity of the dry dock, and afterwards taken up in the yard for repairs. But finding the frame too rotten to warrant repairing at a reasonable expense, she was taken to pieces, and the keel of the present steam frigate Franklin was laid in 1854, and the sound timbers of the old Franklin were used in the construction of the new ship. The dimensions of the steamer Franklin are as follows, viz:

Length over all,	311 feet.
Beam,	54 " 4 inches.
Depth from under side of keel to top of gun deck,	39 "
Tonnage,	4168 tons.

She has four docks,—two of them being for guns. We viewed the ship over, both out and inside, as we had done when the frame was just put up without spot or blemish, with its massive iron braces closely fitted, and strongly bolted before the planks were wrought upon the sides, and we do not hesitate to pronounce her the best ship we ever saw. The frame, deadwood, and keelson are of live oak, and the spaces between the frames are fitted in with live oak up as high as the turn of the bilge, and above that, the planking is jogged over the timbers to prevent any working whatever. In addition to this, the timbers of the frame are all caulked together, and bolted with six bolts in each timber, in diameter 1 1-2 inches. The beams and knees and framing of the decks are all very large, and strongly bolted. The beams of the lower gun deck are 16 by 18 inches, yet the symmetry is so complete that their enormous size is not realized until a rule is applied. The planking is secured with copper bolts below the water line, and iron above—there being two bolts in each plank through each timber, and riveted on the inside; no treenails are used. She has a boat of Franklin for an ornament to the head, and an eagle and other designs for the stern,—all very elegantly carved. The carpenter's work being done, nothing remains to do but the caulking, which will take about fifty days, when she could be launched.

We are informed by Wm. L. Hanscom, Esq. the Naval Constructor, by whom this splendid ship was built, that her armament will consist of 28 9-inch guns, 20 8-inch, and 2 10-inch guns—making 50 in all—being ten more than the Merrimack, Wabash and Minnesota.

The work throughout the ship is done in the best manner—the joints being like those in furniture, we know where they are, but we cannot see them. The fastenings are large and abundant, as though there were some to spare, and merely put in for safe keeping. The ship's form is excellent—sharp at the ends—and if an engine of proper size is put in, we predict that the Franklin will be the fastest war vessel in the world. It will be a pity if she is to be kept in the house to rot down, while we have rotten vessels returning prematurely from foreign stations in distress. We are in hopes yet to see the Franklin take her place among those vessels which have been the subject of so much just praise, the Merrimac, Wabash, &c., when we know that our mechanics will receive the credit and honor due them.—*Gazette.*

☞ The U. S. sloop-of-war Falmouth, was taken into the dry dock at the Navy Yard on Monday. On Tuesday morning the crew were granted 48 hours leave of absence, and for the two days our streets presented an unusual display of blue jackets. The officers of the ship dined with ex-President Pierce, at the Rockingham House, on Tuesday.

On examination of the Falmouth, it was found that very little work was required upon her, the extent of her injury being the loss of a small portion of her copper. She has been taken out of the dock, and will return to the Brazil station with her present crew, immediately.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, in which R. Frances & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. Lotteries are drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the order is received, if the tickets are on hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. B. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets in Georgia, and the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and so simple that none need fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize is drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, and the amount each prize is entitled to, will be published after every drawing in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, New York *Sunday Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full, percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13ly

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruption, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

Ann Arbor, November 5th, 1856.

Prof. O. J. Wood—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because it is a beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and conscientiously recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
Solomon Mann.

Friend Wood: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative you gave me in order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you stated, and to young persons who would have the hair beautiful and glossy.

Solomon Mann.

Carlyle, Ill., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. Breese, ex-Senator, U. S.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, and is now prepared to furnish them to customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

Open Parlors in great variety for wood or coal. Sheet Iron Stoves of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth-acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those who use and furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,

For Offices and Stores as well as the Parlor.

The inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then having fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance they have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and sickly countenance changed for a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that must always arise from the interruption of nature; and whenever that is the case, he Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. THEESMAN, Box 76 Post Office, New York City, can have them sent to their respective addresses by return of mail.

ROCKINGHAM FAIR.

THE FIFTH ANNUAL EXHIBITION of this Society will be held AT PORTSMOUTH, N. H. *THURSDAY & FRIDAY, Oct. 1st & 2d.*

BEN: PERLEY POORE, Esq., of West Newbury, Mass., has been invited to deliver the Address.

COMMITTEE OF ARRANGEMENTS.
Joshua W. Peirce,
A. W. Haven, Robert Morrison,
Wm. R. Preston, Charles Hayes,
Ebenezer Haines, John M. Currier,
Geo. N. Carleton, Dan'l H. Spinney,
Jas. F. Shores, Jr. Geo. W. Pendexter.
CHIEF MARSHAL—James W. Odlin, of Exeter.

On THURSDAY, at 10 o'clock—GRAND PROCESSION of Town Teams, &c.
At 3 o'clock, DRAWING MATCH.
On FRIDAY, at half-past 9 o'clock—PLOWING MATCH.
At 11 o'clock, ADDRESS, at the Field.

A Good Band of Music will be in attendance.

ADMISSION.—Members of the Society will have one free admittance to the Field and Hall. All others will be charged an admission fee.
Single Tickets, admitting to the Hall, 10 cents;
Do. do. to the Field, 10 cents.
Premiums will not be paid until 30 days after the exhibition.

Pens will be provided on the Field, for the exhibition of the Stock; and posts to which working oxen may be attached, and the owners are requested to bring chains for that purpose. Owners of Bulls must be provided with rings and chains.

Stock will be numbered, and the same numbers will be put on tickets, which will be delivered to those who enter Stock at any time between the time of entry and 9 o'clock on the day of the show.

No person will be allowed to put his stock into any pen except that designated on his ticket.

All competitors for premiums who are not members of the Society, will be required to pay $1 at the time of entry—except for Plowing, which will be $5.

Two days' previous notice being given to the Secretary, provision will be made for keeping the night previous to the show, animals which may be driven or transported more than five miles—reckoning from the residence of the owner to the place of exhibition.

Hay will be provided for the animals through the exhibition.

The Field will be enclosed by a fence.

No article to which has been awarded a premium, will be afterwards entitled to the same or a lower premium; and no gratuity will be awarded in any case where a premium is offered.

No highest premium will be awarded in any case, unless the article is of superior quality; and no premium will be awarded merely for want of competition.

Notice should be given as soon as possible to the Secretary, of entries for premiums. No entries can be made after 9 o'clock on the first day of the Fair.

☞ The Ladies of the County are invited to contribute to the Exhibition, articles of home manufacture—Specimens of Needlework, Painting, Drawing, Flowers, and the like.

A special Committee has been appointed, with authority to award $25 in Premiums for such objects.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or assertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY to REPEAT it is thought it has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, besides being an extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, under him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who succeeded it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SUNDRY INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does it?* Answer by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what is equal to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

THE BEST
Planing, Tonguing & Grooving Machine

IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 20 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

For further information, address the Patentee,
JAMES WOODY,
1 Scollay's Building, Court street, Boston, Mass. Jan. 3, 1857.—1 yr

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to any heretofore made spike of common English iron, and inferior only to nothing of the kind yet introduced to the public.

For particulars and samples, apply to

TUESDAY, SEPTEMBER 29, 1857.

KANSAS.—A Lawrence correspondent of the Cincinnati Gazette says:

The free State men are doing all they can to bring out a strong vote at the October election. Politicians are stumping the territory. Gov. Robinson is on a tour in Southern Kansas.

A great many will not vote; they are opposed to a recognition of the Territorial Legislature in any manner whatever. They will either stay away from the polls, or have their protest entered against the proceedings.

The Lawrence Herald of Freedom, speaking of Gov. Walker's visit to Fort Leavenworth, says:

He learned on his arrival that the President had consented to allow Gen. Harney to continue in command of the military forces in Kansas, and the detachment of 1500 troops to Utah to escort Governor Cummings to his post would go out immediately, under Colonel Johnston, Colonel Cooke being second in command. The six companies of dragoons around Lawrence were detailed for the Utah expedition, while others to the number of 2000, are on their way from other localities, to resume their position. Whether they are to be located again in this immediate vicinity we are not advised, but we judge they are, from a casual expression of the Governor's.

The Herald of Freedom is very severe in its comments upon the President's late letter on Kansas affairs to the Connecticut memorialists.

The Herald of Freedom, which recently stated on the authority of a Rev. Mr. Stewart, that the Missourians were preparing for another invasion of Kansas, is now convinced that it is *not* the intention of the pro-slavery party in Missouri to interfere to "any considerable extent in the affairs of the territory hereafter."

A new military company, called the Lawrence Light Cavalry, has been formed at Lawrence. It numbers sixty-five members.

Sugar cane appears to flourish in Kansas. The Herald of Freedom says:

We hear of large fields of sugar cane in Kansas, and are informed that the climate seems especially adapted to its growth. A friend of ours assures us that he has two acres, which will average twelve feet in height. He is confident of his ability to make several hundred gallons of molasses from his present crop. Some already made proved to be better flavored than golden syrup, so highly prized in the southwest.

A meeting of "Henry Clay Whigs" was held at Leavenworth recently, and a Whig organization completed, being the first in Kansas. The Whigs had hitherto acted with the pro-slavery party, but as that party had constituted themselves the Democracy, they could no longer affiliate.—The Kansas Free State says this movement is creating quite a panic in the Democratic ranks.

PARTY NAMES.—A correspondent of the Portland Advertiser, writing from Rumford, says:—

I see by your paper, an account of an aged patriot who went to the polls and voted the Republican ticket. It calls to my mind a case in this town. Samuel Akely, a Revolutionary pensioner, aged ninety-six years, went to the polls and voted for Lot M. Morrill and the Republican ticket; he did the same last year, riding in a wagon the distance of nearly five miles. This old gentleman voted for Washington, and always voted the Whig ticket till the formation of the Republican party, when he was one of the first to embrace its principles

That the old veteran should have voted the whig ticket always, is simply impossible,—because there *was no such ticket* from 1796 to 1830. He might have voted for Federal, Republican, or other tickets, but not for Whig in all those years. There are no very old parties in the country. Those writers who claim antiquity for any of them, are either ignorant or false.

NEW ENGLAND HORSE FAIR.—The Horse Exhibition at Chelsea last week, seems to have been little else than a local exhibition,—few but Massachusetts horses being present. On Friday, a trot, mile heats, best two in three, was won in the slow time of 3:15, 3:17. A running mare, "Kate Kearney," of Boston, won $100 by running a mile in 2 minutes. The premiums were all awarded to horses in Massachusetts. A silver cup, for pacing horses, mile heats, best two in three, was won in 2:44, 2:40, by "Whaleman," of Boston. "White Eye" won a silver cup, by running two mile-heats. A purse of $100, for best three in five, mile-heats, to wagons, was won by "Harry Walton," of South Danvers, in 2:43, 2:39, 2:40. Harry also won $100, in the same time, mile heats, to wagons, best two in three.

THE Suspension of the Banks in Pennsylvania, Maryland, and Washington, is general, and we suppose must be universal, in those States and district.

PLEASURE TRIP OUT WEST.

NO. IV.

PITTSBURG, Penn., Sept. 24.

Messrs. Editors:—Your correspondent, after passing through various perils and trials, is at last in the *coaled* regions of the key-stone State,—and dreadfully cold he found himself, on his arrival here, after riding all night in a car with no fire. We left Milwaukie night before last, in the steamer Traveller, for Chicago; and had a very fine night of it, though there was a little chop outside of Walker's Point.—Looking back over the lake, we had a splendid view of a fire in Milwaukie. Arrived in Chicago, the fiendish clerk awoke us at 4 A. M., pounding on the door and demanding our tickets, since which time I have n't slept a wink; therefore, if this letter is too prosy, burn it.

From Chicago to Laporte is a mixture of cow-lilies, mud, stagnant water, and cornfields; beyond the latter place are most splendid fields of corn for some miles, which suddenly change to the primeval forest, and this you see until you get to Crestline, Ohio, where it becomes too dark to see anything—so you hunch yourself into all sorts of uncomfortable positions, but it is no go—sleep will not visit your eyelids.—Just as you think you will catch a nap, the train stops, the engine whistles, you back, wait, and then go ahead again; and before you recover from this shock, another occurs.

About 5 o'clock A. M. we reached New Brighton, and here we saw a long train filled with cattle, sheep and swine. A gentleman who sat opposite us in the cars had with him a young wild cat, which attracted a good deal of attention, and played quite willingly with the passengers. From New Brighton to Pittsburg we ought to have had a view of the Ohio River, but the morning was so cold that it appeared to be nothing but a steam-box.

I feel better now, however, for we have had breakfast and been out to take a view of the city. First as we left the Monongahela House, we noticed forty-five steamboats laying side by side, below the bridge. The Duquesne (freight) Depot of the Penn. Central R. R. attracted our attention from its size and convenient arrangements. Following the track up the street, we observed a magnificent stone building, which we were informed was the First Presbyterian Church. Just as we reached the passenger depot, we noticed a large crowd jamming into the cars; and on discovering that it was the train to the Alleghany County Fair, we added to the number.

On the ground we saw many fine horses,—some slender and graceful, some large and full of life, some ponderous with herculean muscles; in trials of speed there was some good trotting shown. In cattle there were some very nice breed bulls, and the sheep were, without an exception, all No. 1. In the horticultural line I think old Rockingham could *best* them, though there was a show of peaches that came very near tempting me to break the injunction to keep "hands off;" and some splendid varieties of apples, and the finest lot of sweet potatoes that I ever saw. Among the outside shows was the Fat Girl, who has been 17 ever since I can remember going to circuses and the like, and *she* has got to be no older.

Returning, we noticed the Court House, a building much in the same style as the Boston Custom House, only it stands a great deal higher. Many very fine churches were passed, as also some good public buildings.

The distinctive feature of Pittsburg is its smoke. Bituminous coal being used so freely, and iron manufacturies so numerous, (from whence it is known as the "Iron City,") a constant cloud of smoke envelopes the place, giving a slight idea of the dark day.

Dinner, sirs—yes, sir! Now who would stop to write after that? Not I—I'm off.

CYPHAX.

PEDESTRIANISM.—At the Union Course, Long Island, Sept. 24, P. Buckley, "the champion runner," of Lynn, ran five miles in 29 minutes and 21 seconds—rather more than ten miles an hour. John Grindell ran two miles in 11 minutes and 6 seconds.

At Rochester, N. Y., Sept. 10th, Charles Curtis, a great pedestrian, was matched to walk one mile while one or two horses trotted three. Curtis *walked* his mile (and won the money) in 8 minutes 42½ seconds—at the rate of more than seven miles an hour; two horses trotted their three miles in 8:44.

FIRE IN SACO.—A distressing fire took place in Saco, on Sunday evening, totally destroying a large stable, with sixteen horses, harnesses, carriages, and furniture.—The Irish hostler, who slept in the stable, was burnt to death.

EXETERIANA.

EXETER, Monday, Sept. 28.

Dear Chronicle:—We find the following printed "Notice," posted up about Exeter. We give it *verbatim et literatim et punctuatim*, for the benefit of those whom it may, or may not concern:—

NOTICE.

I hereby forbid all persons from interfering with certain Bounds that I have erected round Keinnins' Brook (so called) near A. Merrill and Sons Hat Store, the same Bounds or Rocks have a number of times been thrown into the brook, and all persons are strictly *forbidden not to interfere* with the same,—and all persons found or caught in so doing will be dealt with to the extent of the Law. And I will pay to any person or person *Five Dollars Reward* who will bring sufficient proof that will lead to the conviction of the same.

In justice to the owner of the land, we would state that he was not the author of the above, but a lawyer of this town, as we hear. Will an appreciating public refrain in future, from not interfering with the property of the injured man?

Of course a large number of our citizens, besides the Fountain Engine Company, and perhaps the Band, will attend the Fair this week. The contributions from this town, it is to be expected, will not be so large as that of preceding years, yet some will undoubtedly be made. The young folks of Nottingham will send a Town team, decorated with evergreen and appropriate products of the field, and drawn by ten yoke of oxen. We hope, while so many of our citizens are in Portsmouth, they will call in and procure your autograph, attached to a year's subscription for your valuable paper. We are happy to learn that the number of Daily Chronicles taken here, has doubled since the first of August; we suppose you are as accommodating as a 'bus driver, and can find room for "a few more."

There is very little building here this season.—We are sorry to make the statement, yet it is true, that more than a dozen of those who are considered our best citizens, (or have been heretofore,) are at present in jail. We can neither learn the nature of the crime they have committed, nor whether they are considered guilty; but the general impression seems to be that they will be discharged before winter.

One hundred dollars was obtained at the Fair lately held here, for the purpose of increasing the Sunday School Library of the 1st Cong. Church. We hear that still another Promenade Concert for the benefit of the Band is shortly to be given. Would that we might say "only this and nothing more."

Mr. Charles Stevens, of this town, who has devoted much attention to the cultivation of the Chinese Sugar Cane, exhibits a quart of syrup—the product of 40 stalks for six years.——Town's Progressive Readers have been introduced into our town schools, in place of Sargent's series.——Exeter, according to the enlarged plan of the new Rockingham County map, has 36 streets.

Yours, F. O.

YELLOW FEVER.—The barque Amelia, Capt. Rera, arrived at New York on Friday from Havana, on her way to Cadiz, Spain, having put in, in distress, laden with sugar, cigars, rum and molasses. The Amelia had on board 106 Spanish soldiers, who were a part of 1700 sent out by the Spanish Government to Havana, to aid in quelling any fillibustering demonstrations that might appear in that quarter. Of those seventeen hundred, one thousand were carried off by the yellow fever in Havana.

The Tallahasse Sentinel of the 22d, reports yellow fever at Key West. Many cases had occurred, and one death. Dr. Jackson Maxwell, his lady and child, were lying very low. The origin of the disease is attributed to admitting seamen from Aspinwall to the Hospital.

☞ Isaac N. Robertson, of Charlotte county, Va., who died a few days since, emancipated all his negroes, numbering 100. He also divided his remaining property among them, for their removal to Liberia or a free State. This is the third case of wholesale emancipation in that State that has been announced within two months. In one instance 92 were set free, and in the other 75.

☞ The Hartford Evening Press says some of the Catholics of Norwich, Ct., publish a card, addressed to their pastor, Rev. Daniel Kelly, in which they respectfully ask him to try to abstain from the use of profane and immoral expressions in the presence of their children. They quote certain phrases, which are certainly unbecoming in a Christian priest.

POSTMASTER AT DOVER, N. H.—*Patrick H. Burns* (not Francis H.) has been appointed Postmaster at Dover, N. H., from 31st October next.

COL. BENTON'S HEALTH.—We are glad to find in the National Intelligencer of Friday, that Col. Benton's case "wears a very favorable appearance, and that there is now every reason to anticipate a steady improvement and early recovery."

LOCAL.

THE FAIR.

We learn from the Committee of Arrangements, that Hon. Josiah Quincy, jr., is to deliver the Address, at the Rockingham County Fair, in this city, on Friday next—Maj. Poore having been absent from home too much to respond to the invitation. Mr. Quincy is a very attractive and entertaining speaker; and will not fail to have something to say that is new and worth hearing.

Out doors and in, the arrangements are being rapidly pushed forward. The Field is nearly ready for the reception of the animals; and Jefferson and Congress Halls are in good hands to be tastefully arranged. Let every one do something to add interest to the occasion—so that the metropolis of the county may make fitting show to visitors from abroad.

☞ Grazing in the Streets, is forbidden by the Police Regulations, yet we have a great many little patches of it round door steps, among the pavements, and almost every where. People that are neat and tasty don't like it; they think it looks slovenly,—and one old gentleman puts Uncle Toby in mind of the fact, that when "the Sons" were coming home, the Fathers pulled up all the grass that grew where it hadn't ought to. He suggests that it ought to come up now, and be swept away before the Cattle Show. But Uncle T. remarked that it would be a good thing to "bait" the cattle with, if we let it stand. Indeed, rejoined the old gentleman; but it would be better if they would pull it up and dry it. A word to the wise, &c.

The staging was taken down from outside the new Rockingham Bank, on Monday afternoon—revealing the handsomest building in New Hampshire; and there are not many more truly beautiful anywhere. The interior is not yet completed, but will probably be ready for occupancy in a few weeks.

Next adjoining, stands (or rather *squats*) the *homeliest* building in this or any other State (of civilization)—the old Brick Market; we won't insult Jefferson by attaching *his* name to it. That is, the old hulk *was* there, last night; but we should think it would be frightened by a comparison of itself with its new neighbors, and "leave." We wish it might.

We hope that the traders about town, are preparing to make the most of trade, this week. There will be a large number of people at the Cattle Show; and let money be as scarce as it will, all the men and women will want something to carry home; and they ought to know, and we trust they will, when they have gone home, that they can obtain the articles needed, as well in Portsmouth, as in Boston, or elsewhere.

We understand that certain lewd fellows of the baser sort, visited the Indian camp at the west end of this city on Sunday afternoon; one of the fellows offered some insult to a squaw; Indians pitched in, a small fight ensued, and crowd gathered. City Marshal cleared out the rabble, not without some effort.

NEWCASTLE.—The fishing vessels from this place, in Portsmouth harbor, have all returned from their first cruise, with good fares, and without the loss of a man.

Elder S. Coffin (Freewill Baptist) will preach at the Temple on Sunday next, at the usual hours, day and evening; also, is expected to preach two or three succeeding sabbaths, at the same place.

☞ The Funeral of Samuel Badger, Esq., we understand will be this (Tuesday) afternoon at 2 o'clock, from his late residence.

FIVE DAYS LATER FROM EUROPE.

St. JOHNS, N. B., Sept. 28.—The steamer Jura, from Cork 17th inst., arrived here this forenoon.

NEW YORK, Sept. 28.—S. H. & C. W. Foster, auctioneers, failed yesterday.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES
it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.
These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N B.—81 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. E. PRESTON, Portsmouth, and by Druggists in every town in the United States.

MARRIED.

In Concord, Mr. George W. Drew, to Miss Amanda Webster, daughter of Albert Webster, Esq., of Concord.

DIED.

In Newburyport, Thomas B. Currier, son of Thomas and Mary M. Currier, aged 21 years.
In Concord, of consumption, Mr. Leonard Clark, aged 29.

MARINE CHRONICLE.
PORT OF PORTSMOUTH.

MONDAY, Sept. 28.
Arr sch Agnes, Spinney, Cod Fishery.

Brig Matanzas, McLeod, Georgetown, S. C., for Boston, arr at Holmes Hole 24th.

A FIRE WHICH WAS ALL SMOKE.—The alarm of fire in Roxbury, Mass., on Sunday morning about church time, was caused in this wise. A woman residing in a house on Prentiss street, set her pot upon the stove betimes, and filled it with water and vinats, intending to have a boiled dinner. Then anxious to enjoy the pleasant air and sunshine, she went out, putting lots of coal in the stove, so that it should last a goodly hour. The fire raged in the stove furiously, the water was evaporated, and the pot became red hot.—Of course the burning meat gave forth clouds of smoke, which, as it issued from the windows startled the neighbors with the belief that the house was on fire, but their alarm changed to merriment when after great excitement and noise, they discovered that their fancied fire was only the burning of a Sunday dinner.—*Trav.*

THE CONSOLIDATED MONTHLY. — Emerson's Magazine and Putnam's Monthly, for October, contains 22 articles, the first being Up the Mississippi, profusely illustrated; the second, Life of Washington; the third, a Lager Bier Story. It is received by A. Williams & Co., Boston, and by C. C. Harvey, Portsmouth. A lively, spirited magazine.

WASHINGTON, Sept. 26.—A private letter received here to-day, from Gen. Houston, flatly contradicts the statement that he is or has been implicated in any contemplated expedition. He intends to return to Washington and take his seat in the next Congress.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.
sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

THE MOST SKEPTICAL PEOPLE
Can be convinced by trial that all the family medicines are not humbug, and that among the thousands of butterfly lifeless nostrums a few of great merit and undoubted worth. Of those, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

EMERSON'S MAGAZINE
—AND—
PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$2 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fairfax & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings of the Grand Consolidated Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.

Address T. H. HUBBARD & CO.,
No. 39 Fayette st., or box No. 40,
ja31y Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything is conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $80,000. Schemes of drawings, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in New York, a percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

MARRIAGE GUIDE,
BY DR. W. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, The POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M.D. It is written in plain language, for the general reader, and is illustrated with upwards of one hundred Engravings. OF the Newest Styles,—just received and for sale at low prices, by JOHN SISE,

sept19 5 Market Square.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and conscientiously recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of your Restorative. It has done all for her you promised me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLILE, ILL., June 23, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, and now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON Stoves of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,
SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth scite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the benefit of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, he Pills will invariably remedy all these evils. American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him the best qualified to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors of the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other diseases) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by equalizing the circulation between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRICE COST, $1, 50 per drachm—PRICE $2 per drachm.

HURRA FOR GARDNER.—Sometimes people wonder how the milk got into the cocoa-nut; and sometimes they see it so plain as to make no wonder at all. Here is a case of the latter kind. A Boston correspondent of the Eastern Argus says:

Mr. Bank's overthrow in this State, has been both predicted and decreed. There is already a big hole in the bobbin-boy's basket, and the spools are constantly dropping out. Though the election of Mr. Gardner will afford no great consolation to a democrat, yet as between him and the "little iron man" *alias* the Waltham "farmer" and "nurseryman," the former is by far the more acceptable. Hence, I shall hurra and "tiger," for Gardner.

That is, either Gardner or Beach must be a stool pigeon to the other—and as Beach *can't* be elected, this "democrat," as he calls himself, will *hurra* and *tiger* for Gardner. Exactly so; and if by all sorts of means, Banks could be defeated, the minions of slavery, of all stripes, would send up a yell of delight.

BALLOON ASCENSION.—Mr. Wise, the aeronaut, made his two hundred and tenth ascension from Bradford, Vt., at five minutes before three o'clock, P. M., on Saturday last, and landed at Great Falls, N. H., about six o'clock. Highest point reached, two and a quarter miles; distance 140 miles.

Mr. Wise, in a letter to the Boston Traveller of Tuesday, says:

"As I was sailing along I could not refrain from exclamations over the beautiful forms that God had given to the world; and it impressed upon my mind the conviction that a higher destiny awaits mankind than steamships and rail-cars can possibly supply—the perfection of the art of aerial travel."

THE FIRE AT SACO.—The Saco and Portland papers contain particulars of the fire at Saco, on Sunday evening, when the livery stable of Joseph Hardy was burnt, with all its contents, including thirteen horses and as many or more carriages and harnesses. Ten of the horses and most of carriages, together with the building, were the property of Mr. Hardy, whose loss is from $4,000 to $5,000,—with no insurance. E. R. Wiggin, Esq., Capt. W. F. Pike, and the Eastern Express Co., each lost a horse and carriage. The horse belonging to the Express Co. was a favorite and valuable animal. The fire is supposed to have originated from the hostler's pipe, and in twenty minutes after its discovery, the building was in ashes. Saddest of all, the hostler, whose name was James White, perished in the flames. He was an Irishman, and leaves a wife and child.—A horse had been out, and came in late. His driver or the hostler may have smoked pipes.

☞ The Portland Advertiser says, the old woman, Mary Regan, who stole $1800 from Mr. Libby at Lewiston, and her young husband, Dennis Monighan, have been arrested and lodged in the Androscoggin county jail. They were caught in Portland, on their return from Lowell, where they were married.—None of the money was recovered, she having managed in some way to dispose of the whole amount. She says she gave her brother in Portland $1200, with which he left town. He is supposed to have gone to the vicinity of Bangor, and the officers are in pursuit of him.

INCREASED DAMAGES—The verdict in the case of Mrs. Sarah E. Shaw against the Boston & Worcester Railroad Company, was opened in the Supreme Judicial Court in Boston, on Monday. The jury found for the plaintiff, and assessed damages at $18,000. It is now five years since the accident which was the primary cause of this action occurred. The case was tried before Judge Bigelow nearly two years ago, when the plaintiff obtained a verdict for $14,000. Exceptions were taken by the defendants, and at the law term of the Supreme Court, in March last, the verdict was set aside on the ground of misdirection by the presiding Justice, as to what constituted reasonable care on the part of the defendants. On the present trial new evidence has been introduced in regard to the management of the train, and as to statements made by plaintiff's witnesses out of court. The lapse of time has however tended to throw a degree of uncertainty over some parts of the evidence.

☞ The Free Will Baptist Anniversaries will be held this year at the Roger Williams Church in Providence, R. I., Oct. 6, continuing three days. The Benevolent Societies are 6, viz.: Anti-Slavery, Home Mission, Temperance, Female Mission, Sabbath School, Foreign Mission, Education.

From the Charlestown (Mass.) Advertiser.

UNCLE TOBY.

We are sorry to think that Uncle Toby, of the Portsmouth Chronicle, takes on so because we gave a certain "itinerant" a "first-rate notice;" we had hardly thought he would dim his venerable eyes with tears on the "subject" of our paragraph, and had never dreamed for a moment that he had given an "entertainment," and danced Jim Crow before the intelligent inhabitants of Portsmouth. But so it is, for in his own language is the tender confession. He says:—"We have known more than once how comforting it is to pocket a loss of fifty or a hundred dollars on a single evening's entertainment, where as much *gain* might reasonably have been expected."

But here is the old gent's sympathy with that "itinerant":—

"If a man in business of most any sort, chances to be unable to pay his creditors—or even wilfully cheats them of their just dues, each grins and bears it as best he can; and the public knows nothing of the matter, except as it happens to be talked about. But let a concert-giver or play-actor fail to pay his bills for a single night, and straightway the press is down upon him. Why this odds?"

We will tell you, Uncle Toby, at least so far as we are concerned; but in the first place, allow us to say, that it is neither a rule nor general practice for the press to be "straightway down" upon those concert-givers or play-actors who fail to pay their bills; it is more often an exception that such persons become the heroes of first rate notices—in this vicinity at least.—Persons who go about giving exhibitions are generally treated with great leniency by the press; they always expect more of the editor for their money than regular local customers, and they are generally possessed of sufficient tact and address to obtain all they demand; and do they fail to obtain such editorial notice as *they* desire, they seem to think themselves a very much abused class; and they rarely fail to dictate the price of such approbation, as though every editor in the land could be bought up to puff into notoriety exhibitions that are for the most part tasteless or demoralizing.

No, no, Uncle Toby, you are a little too fast; the remembrance of the past sways your reason; the dear associations of other days set your tender old heart thumping, and it overflows the fountains of your sympathy. Wipe away the sorrow from your cheeks, old boy, and let the natural sunshine of your heart once more illuminate your jolly countenance, for we are not such bad fellows as to abuse our kind thoughtlessly or with ill feeling. Did we for a moment turn aside from our manhood to abuse the position in which fortune has cast our lot, we should sensibly feel your gentle chidings. But it is not so, and the scores of delinquent "exhibitors" upon our books attest our truth. It is rare that we exercise the "first rate note" privilege always within our grasp; and what we say of ourselves we know to be true of the craft of this ilk—particularly in Boston.

But, dear Uncle Toby, to return to the instance that called forth your tender sympathy. It was to us a case of a very aggravated nature; the evil extended to Boston, and through its length and breadth; *was systematic*, and threw out its tendrils of deceit to the remote parts of our State; and now when you tell us that it reached New Hampshire, and made at least three victims in Portsmouth, we have not one word of apology to make or a regret to trouble us. We believe that we did the public a benefit in calling attention to a systematic and wide spread mode of defrauding every one with whom the party came in contact, and were you as well acquainted with the history of the man for the past two years as ourselves, we feel assured our opinions would be as a unit upon the propriety of checking the evil.

We copy the above article in full, to correct some misapprehension which seems to exist on the part of our friends of the Charlestown Advertiser,—as well as to set history right. In the first place, Uncle Toby had nothing to do or say about the article referred to,—which was intended, and to be signed "F." This puts quite a different face on affairs, we think. Further, Uncle Toby is responsible for *no* article which does not bear his name—"we" may or may not state his opinions.

As to the subject matter, generally, we don't see any reason to change our opinion or remarks. We certainly did not defend cheating play-actors, any more than other cheats—nor can we see why they should be denounced any stronger. We believe the proportion of those business men of any sort, who *intentionally* fail to come up to their obligations, is small. How far a man has any right to run *risk* for his creditors, is another question, concerning which we have said nothing; though we can't see the difference, in this regard, between concert-giving and any other fair occupation. All we asked for, in the first place, was consistency—treat all men alike.

As to ourselves, and the particular case which brought out our first remarks—we don't commonly give a stranger much chance to step on us; and though we lost three dollars and a half ($3.50) by the gent referred to, we didn't come "down on him," as we judged from his house, &c., he was as poor in funds as he proved in performance.

By the way, one of our city cotemporaries has twice charged us with "puffing" the said delinquent concert-giver. Wonder where he read anything of the sort? not in our columns, certainly; for we only stated the fact that such a man was to *give* such a concert. We will advertise for anybody, in our editorial columns, or elsewhere, for a consideration; but if any persons want us to publish opinions not our own, or statements we don't believe, they must attach their own signature, or find accommodation in our *advertising* columns.

As to our experience in concert-giving—the Advertiser says, "the remembrance of the past sways our reason." Not so—we always regarded it the same as our other business, and "asked no odds" of anybody; if we made money, we pocketed it—if we made a loss, we pocketed *that*. F.

FOUR DAYS LATER FROM EUROPE.

ST. JOHN, N. B., Sept. 28.—The steam-propeller Jura, from Cork, Thursday, 17th inst., arrived here this forenoon.—She brings London dates (telegraphic) of the 16th, and no papers except the Cork Examiner of the 16th inst.

A dispatch from Jassey, received from Vienna Tuesday, states that nine-tenths of the landed proprietors and clergy have taken part in the Moldavian elections, and that a majority voted in a sense favorable to the union.

A dispatch from Berlin announces the arrival in that city, of the Emperor Alexander, on Monday noon.

The cholera prevails extensively at Hamburg. Out of 239 persons attacked, 136 had died in eight days. At Apalan, more than 200 persons have died. The disease is also prevalant at Stockholm.

At the Liverpool Corn market on Tuesday, there was a good attendance, and a fair business done in wheat, at an advance in red of 3d per 70 lbs. Flour was also of better sale.

In Indian Corn and Oat there was only a limited trade, without any material change in the last quotations. Oat Meal rather easier.

INDIA.—*Bombay, Aug.* 14.—The news from Delhi is to July 29. Sorties had been repulsed on the 14th, 18th, and 23rd of July, with great loss on the part of the rebles. The British had 500 killed and wounded.

There had been no fighting since the 23rd.

Tranquility is restored in Central India. The 7th, 8th, and 40th regiments, which mutinied at Cawnpore July 23d, threatened Benares. The 12th irregular cavalry, also mutinied at the same time, murdering their commanding officer, Major Holmes, and his wife. The disarmed 26th Bengal native infantry, mutinied at Meean Meer the 30th of July, and murdered their commanding officer, Major Spencer.

(By telegraph to the Cork Constitution, from London, 17th inst.) Gen. Havelock's force for the reoccupation of Cawnpore had in eight days marched 126 miles, fought four actions with Nena Sahib's army, against overwhelming odds in points of numbers, and had taken 24 guns of light calibre, and that, too, in the month of July, in India. On the morning of July 17th, the force marched into Cawnpore. The soul-harrowing spectacle which there presented itself to them, beggars discription. A wholesale massacre had been perpetratad by the fiend Nena Sahib. Eight officers and 90 men of her majesty's 83th regiment, 70 ladies and 121 children of her majesty's 32d foot, and the whole European and Christian population of the place, including civilians, merchants, pensioners, and their families, to the number of 400 persons, were the victims of this satan. The courtyard in front of the assembly rooms, in which Nena Sahib had fixed his headquarters, and in which the women had been imprisoned, was swimming in blood.

A large number of women and children who had been cruelly spared, after the capitulation, for a worse fate than instant death, had been barbarously slaughtered on the previous morning—the former having been stripped naked, then beheaded and thrown into a well; the latter having been hurled down alive upon their butchered mothers, whose blood reeked on their mangled bodies.

Gen. Havelock, in a despatch to the governor-general, says that Nena Sahib has drowned himself, with his family.

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks New and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street, ALLEN & PAINE.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from month to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommended, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particular ly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and Diseases of Children.

LOCAL.

THE FAIR.

Pleasant weather seems now to be the only thing necessary to ensure a successful show.

We have already announced that Hon. Josiah Quincy, jr., is to deliver the Address; and a card from the Secretary of the Society (which we publish in another place) announces that Maj. Ben: Perley Poore will also be present,—and it is expected that both he and Mr. French will have something to offer appropriate to the occasion.

The Portsmouth and Manchester Cornet Bands will be on hand; and doubtless the Exeter Band—and perhaps another from Epping or Newmarket. "There'll be music," sure. Town Teams are coming from most everywhere; and it is hoped Portsmouth will be represented. This will be a great feature of the Procession.

ROCKINGHAM AGRICULTURAL SOC.

We publish below the Constitution of the Rockingham County Agricultural Society. "It is proposed to raise, by the admission of Life Members, (at $5 each) the sum of $5,000, as a permanent fund, to aid in the support of the Society. The farmers and mechanics of the County are invited to unite with us, and show that old Rockingham, though nearly the last, will not be least, in a good cause."

Portsmouth has as yet added very few members to the Society; and the whole of this section of the county has but few representatives on their roll-book. There is a new interest awakened here now, and we hope all who can afford it, will contribute to render the Society permanent.

CONSTITUTION.

Adopted Oct. 28, 1852.

1. This Society shall be styled "THE ROCKINGHAM FAIR."

2. Its object is the improvement of Agriculture, Horticulture, and the Mechanical arts in this County.

3. Its officers shall be a President, four Vice Presidents, a Secretary, Treasurer, and three Trustees; and a Collector for each town.

4. The President, Secretary and Trustees shall constitute the *Executive Board*, of which the President shall be Chairman; and the Secretary, Clerk. This Board shall, by a major vote, manage and control all the affairs of the Society, and adopt all such measures to promote its objects as they think proper; subject, however, to the direction of the Society, at any regular meeting, and to its by-laws.

5. The President, Secretary and Trustees, shall be elected by ballot at the annual meeting. All other officers shall be appointed by the Executive Board, except such as may be elected at the annual meeting, in such manner as the meeting shall direct.

6. The Secretary shall keep a fair record of all the transactions of the Society, and of the Executive Board. The Treasurer shall keep a correct account of all money received and expended, and shall give bonds as the Trustees shall direct. Their records shall be, at all times, open to the inspection of any member.

7. The annual meeting shall be held in the Autumn, at such time and place as shall be appointed by the Executive Board.

8. Members shall be admitted, on such terms as shall be, from time to time, prescribed, and the Society may assess the members not exceeding one dollar a year each.

9. Any member paying five dollars at one time to the Treasurer, shall be a *Life Member*, and shall not be liable to assessment for five years.

10. The foregoing articles may be altered, at any annual meeting, by a vote of two-thirds of the members present.

Rockingham Fair.

HON. JOSIAH QUINCY, JR.,
OF BOSTON,

WILL deliver the Annual Address before this Society, at Portsmouth, on Friday, the 2d day of October.

MAJOR BEN: PERLEY POORE will be present, but owing to other engagements is unwilling to give a formal Address.

WM. P. MOULTON, *Secretary.*

Elder S. Coffin (Freewill Baptist) will preach at the Temple on Sunday next, at the usual hours, day and evening; also, is expected to preach two or three succeeding sabbaths, at the same place.

PORTSMOUTH SHIPS.

The fine ship on the stocks at the yard of Messrs. George Raynes & Son, is named the "Mary Washington." She is of about 1000 tons burthen; and owned by Messrs. R. H. Tucker, R. H. Tucker jr., P. & W. P. Lennox, and Capt. Geo. W. Chapman, who is to command her. Those are all Maine men, we think—belonging to Wiscasset. The Messrs. Tucker are exceedingly enterprising, and evince a high regard for Portsmouth ships. The ship is of course A No. 1, and will not injure the exalted reputation of her builders. The name is patriotic, beautiful and appropriate, and we wonder it has never before been borne abroad by one of our gallant American ships.

The staunch and handsome ship at the yard of Messrs. Tobey & Littlefield, also belongs to an eastern company—Messrs. R. H. Tucker, R. H. Tucker jr., and D. Stone,—and is to be commanded by Capt. Joseph Tucker. She is a little less than 1000 tons burthen, and is named the "R. H. Tucker," whose bust has a place in the stern moulding. This craft is worthy to be enrolled in the list of Piscataqua Ships—which is honor enough.

The splendid ship at the yard of Messrs. Marcy & Pestigrow, at the South End, is named the "Sarah E. Pettigrew"—and carries on the stern moulding a bust of a lady, which will doubtless more resemble the original a score of years hence. This ship is of about 1500 tons, and will hail from New Orleans. Her owners are Messrs. Peter Marcy of New Orleans, and Marcy & Pettigrew, Peter Jenness, True W. Ball, and Washington Williams of this city.—Her builders are experienced men, and no labor or expense has been spared to render this one of the best vessels ever launched. Her superior will hardly be found afloat.

Besides these three ships, the ship "New Hampshire," on the stocks at the yard of Capt. Samuel Badger; and the new ship of about 1000 tons, launched some months since by the Portsmouth Ship Building Company, (and which we believe is for sale) comprise our list of new ships—except those Uncle Sam has at the Navy Yard. Portsmouth depends much upon the ship yards and the Navy Yard.

LAUNCHES.—The ship "Mary Washington" will be launched from the yard of George Raynes & Son, this (Wednesday) morning, at 9 o'clock.

The ship "R. H. Tucker" will be launched from the yard of Tobey & Littlefield, Noble's Island, this (Wednesday) morning, at 10 o'clock.

It is the intention of Messrs. Marcy & Pettigrew, to launch the ship "Sarah E. Pettigrew," from their new yard, near the South Mill, on Saturday next. As this is the first launch from this yard, and the ship is a large one, a good deal of interest is felt in the matter by our citizens, as well as by the "Sons" abroad—so there will be a crowd to witness that launch.

The ship "New Hampshire," at Capt. Samuel Badger's yard, is also about ready to be launched; and would also have been off this week, but for the death of her builder. She will probably be launched early next week.

This will clear all our yards (except the Navy Yard) of ships. We are glad to learn that Messrs. Marcy & Pettigrew will probably proceed forthwith to lay the keel of another ship.

THE CHRONICLE.—As we Chroniclers are all going to the Fair, we shall print no Daily on Saturday morning. On Friday morning, we shall give as full a report as practicable, of the procession, entries, &c.; and we shall publish the awards of Premiums, and at least a synopsis of the addresses, and all other matter of interest concerning the Fair, at the earliest moment possible.

The Weekly Chronicle (published on Saturday, only $1 a year, in advance,) will also contain all the above, as well as everything else of general interest; and now is a good opportunity for farmers visiting the city, to subscribe. It is sent by mail, free of postage, all over Rockingham County.

☞ The funeral of Capt. Samuel Badger, at Kittery, Navy Yard Village, will be attended *this* afternoon, at half past 2 o'clock; instead of yesterday, as was intended, and as we announced.

SOME beautiful patterns of Scotch PLAID SHAWLS found at ALBERT LAIGHTON'S.

Morning Chronicle.

NEW YORK CONVENTION.—A large meeting of Ministers, on the subject of temperance, was held at Poughkeepsie, Sept. 16 and 17. The Poughkeepsie Examiner says:

What a beautiful, heart-cheering scene was presented as the eye, running over the delegates in attendance, beheld Methodists, Baptists, Presbyterians, Reformed Dutch, Congregationalists, Christians, and Universalists, all occupying a common platform, and bending their energies to the attainment of a common end—the destruction of the traffic in intoxicating liquors. Heaven be thanked for this convocation, and grant that there may be many more such.

It was well attended; the debates were spirited;—and among the Resolutions passed were the following:

Resolved, That we consider it the duty of all the Ministers of the Gospel to give to the cause of Temperance a prominent place among the various topics of pulpit discussion, inasmuch as there is no greater obstacle to the conversion of men than the use of intoxicating liquors as a beverage.

Resolved, That we are decidedly opposed to licensing, in any way, the sale of intoxicating liquors as a beverage, and in favor of a law prohibiting such sale; and we will exert our influence to secure the passage of such a law, and the preparation of the public mind to sustain the law when it is passed.

Resolved, That we recommend the organization, in all our Churches and Sabbath Schools, of combined efforts for circulating the Temperance Pledge, and reviving the spirit of total abstinence.

Resolved, That a Committee of Nine be appointed to call another convention of the Ministers of this State, at Troy, or some other central place, and to make all the other necessary arrangements for the meeting.

Resolved, That as American Ministers of Christ, in Conference assembled, we have learned, with great pleasure and devout gratitude to God, of the holding of a Temperance Ministerial Conference, within the present year, in the city of Manchester, England, a body embracing in its ranks, nearly 500 of the Ministers of Great Britain, of seventeen different denominations, which remained in active session several days; took the highest ground of total abstinence and prohibition; caused the delivery of a series of powerful Temperance sermons, and in several ways produced a deep and lasting impression for good on the public mind of England; that we hereby extend to this band of brethren across the waters, the hand of fraternal feeling and good will, most heartily bidding them God speed in their kindest work of mercy, in the name of our common Lord and Saviour; and that a copy of this resolution, with the published proceedings of this Conference annexed, be forwarded to such of our transatlantic brethren, as should properly receive them.

A ZEALOUS OFFICER.—Early yesterday morning, one of the policemen of the Fourth Ward noticed a woman steal up the steps of a house on his beat and leave a basket against the door, after which she rang the pell and hurried away. He proceeded to make an investigation into the contents of the basket, whereupon a fine plump child of four months disclosed itself, and squalled lustily. With the baby in his arms, he rushed down Roosevelt street in pursuit of the unnatural mother. Half-a-dozed nightcaps emerged from the neighboring windows, and thought it was a case of abduction. Then the guardian of the public peace caught a brief glimpse of the mother disappearing into a baker's shop, two blocks off, and shouted after her strenuously. The juvenile breaker of the same peace added his voice to the hubbub, and three small boys, seeing an opening for their talents, cried "Fire." Coming up to the shop, the policeman and baby entered, and caught the unnatural mother in the act of buying a loaf of bread.—Unnatural mother looked startled. Baby made overtures to be taken into the maternal arms. Policeman invited the woman to come along. Necessarily she asked why? Policeman: "You'll see why! Ain't you ashamed of yourself to desert your infant in this here way? I rather think you'll be sent up for a few days; so come on!" Unnatural mother: "You're a fool! Hasn't a woman a right to leave her baby at her own door while she goes after bread? Get out with you." In rather an unsettled state of mind, the policeman went back with the mother and child to the steps aforesaid, and found the father at the door, in great agitation over the loss of his offspring. The mother was a night nurse, who took her baby with her, and used the basket to make him more portable. The policeman sloped, with a hearty malediction on children who stay all night, and henceforth, babies in his part of the Fourth Ward will receive no attention whatever.—*N. Y. Tribune.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, which I formerly had charge of as the managers, are chosen by the people of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a creditable honorable manner, and that the lists of prizes which reside in a drawer never well selected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a less chance to send orders for tickets to Maryland lottery, as they are legalized by special law in that State. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the commodities shall come to hand. The price of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (as in the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all such as immediately after it is over.

☞ The following numbers of the Maryland Lotteries are published by the State Commissioner in the following newspapers: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer, of the City of Washington, D.C.

Address T. H. BLEBARD & CO.,
No. 39 Fayette st., or box No. 40,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and the State Treasurer is charged with the same is done in a fair, honorable manner. They offer to the public a rare opportunity for investment, the interest of tickets is a dollar upon prices well published. Their new scheme is present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before that day, the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Prices are $20, $10, $5, $2½ quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000, every one being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel and the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Augusta *Chronicle*, and Savannah *Daily Seek*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Persons paid the amount of any prize demanded from prizes as in other lotteries.

BY DR. W. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M.D. It is written in plain language, for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to their wedded life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr WM. YOUNG, No. 152 SPRUCE street, below Fourth, Philadelphia.

China Ware

OF the Newest Styles,—just received and for sale at low prices, by JOHN SISE,
sept19 5 Market Square.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore, my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative you gave me as order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you stated it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLISLE, ILL., June 28, 1853.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, of late, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, and a good operator with him to fit them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and is warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to remove those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. Females may enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the female health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that must always arise from the interruption of nature; and whenever that is the case, he Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are prepared purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

SPEECH ON SCOLDING WIVES.—At a young men's debating society, somewhere in Indiana, the question for discussion was, "Which is the greatest evil, a scolding wife or a smoking chimney?" After the appointed disputants had concluded the debate, a spectator, now begged the privilege of making a few remarks on the occasion. Permission being granted, he delivered himself in this way:

Mr. President, I've been almost mad a listening to the debate of these ere youngsters. They don't know about the evils of a scolding wife? Wait till they have had one for twenty years, and have been hammered and jammed, and slammed all the while—wait till they have been scolded because the baby cried, because the oven was too hot, because the cow kicked over the milk, because it rained, because the sun shined, because the hens didn't lay, because the butter wouldn't come, because the old cat had kittens, because they came too soon for dinner, because they came one minute too late, because they tore their trowsers, because they invited a neighbor woman to call again, because they got sick, or because they did anything else, (no matter whether they couldn't help it or not,) before they talk about the evils of a scolding wife. Why Mr. President, I'd rather hear the clatter of hammers and stones, and twenty tin pans, and nine brass kettles, than the din, din, din of the tongue of a scolding wife. Yes, sir-ee, I would. To my mind, Mr. President, a smoking chimney is no more to be compared to a scolding woman, than a little negro to a dark night."

☞ Mr. John Long had just completed walling up a well at his residence near Macomb, Illinois, when he accidentally dropped his hammer into it. A boy was sent down to recover it, but when about ten feet down, fell to the bottom. Mr. Long then descended himself, but when a few feet down, gave an alarm that he was suffocating; but before aid was furnished, he too fell lifeless to the bottom.

☞ A man at Hartford, becoming alarmed at the failing condition of the banks, drew out his deposit of $100 in gold. Before he reached home, pickpockets relieved him of the coin.

A SAD SCENE.—Three young women in a state of intoxication, drove through the streets of Providence in a buggy last Tuesday.

☞ Rockingham Quarterly Meeting of Free Will Baptists, holds its next session at Stratham, Oct. 21, at 9 o'clock, A. M.

SUSPENSION IN PROVIDENCE.—*Providence, Sept.* 18.—The banks of Providence have resolved to suspend specie payment. At the meeting to-day, 31 banks voted to suspend, 9 voting against it. The liabilities of the banks to the public are not over 25 per cent. on their capitals.

An injunction was issued to-day upon the Hopkinton Bank, and Nathan F. Dixon was appointed Receiver. There can be no loss to the holders of the bills.

FINANCIAL MATTERS.—*New York, Sept.* 28.—The panic at the stock exchange this morning was severe, prices falling one to twelve per cent; Virginia sixes declined 11, New York Central bonds 12, do. stocks 7, and Reading 7. At the second Board, prices went up again, but there was little business done. Money tighter and rates unsettled; as high as 6 *per cent. per month* was paid in the street to-day, for ordinary first class papers.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by its power to establish a balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the surface of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 20 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvaying uniformity of size, and for the excellent quality of iron from which they are made, to which they are attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

THURSDAY, OCTOBER 1, 1857.

☞ The Manchester American says, if the money spent in that city in houses of prostitution, and for liquors and tobacco, during the past three years, were now in circulation for legitimate and business purposes, we should hear no complaint of hard times. The community is made to suffer for the evil deeds committed by the reckless and abandoned.

THE RECORD OF INTEMPERANCE.—Mrs. Hepsibah Class, wife of Abraham Class, poisoned herself at her residence in Salem, on Monday evening, by taking arsenic, and died on Tuesday morning. She had been an intemperate woman.—A woman named Caroline Quintal was found dead on the floor of her room at house No. 1 Holden place in Boston, on Thursday. She had been long addicted to intemperance, which was the principal cause of her death.—Joseph Allis, a cutter in the knitting factory at Waterbury, died suddenly in a saloon in that place, last Friday evening. Cause, excessive drinking.

FATAL ACCIDENT.—On Sunday afternoon, Edward York, a lad of about 10 year, of age, son of Mr. John York, residing in Garden street, Portland, while playing between decks of the new ship of Mr. Donnell, lying at Franklin Wharf, fell through the hatch, and when taken up was lifeless. His companions, two lads, missing him very suddenly, commenced a search for him, and it was a long time before they found him. The hatch of the upper deck was on, which made it dark between decks, so that the lad could not see that the hatchway was open. He had one of his legs broken, and was severely bruised about the head, the latter injuries probably causing his death.

MONEY MATTERS.—*New York, Sept.* 29. There has been scarcely any let-up in the money market to-day, although the rumors that our banks were considering the expediency of expanding their loans several millions had a favorable effect. There are no failures reported.

A meeting of Bank Presidents took place at 3 o'clock this afternoon After consultation, it was agreed to recommend to all the City Banks to extend their [discount line 3 per cent. during the coming week. This, in the aggregate, will amount to over $3,000,000. Forty out of forty-five banks were represented at the meeting.

A similar movement has been made in Boston, to discount 10 per cent.

BURNING OF THE DEPOT AT BRUNSWICK.—The Kennebec and Portland Railroad depot at Brunswick, was destroyed by fire about 1 o'clock, Tuesday morning, together with several cars which were in it, and a considerable quantity of wood in an adjoining shed. An engine which was in the depot was saved with much difficulty, and the apparatus of the Telegraph Company was also removed in safety. The total loss will reach $10,000, with no insurance.—The building was undoubtedly fired by an incendiary.

☞ The Tribune's Washington correspondent says, "the report that new diplomatic lists were making up has brought hosts of office-seekers to Washington.—Among the expectant patriots are Messrs. Burke of New Hampshire, Orville Clark, Ned Croswell, Comstock of the Albany Atlas, Dick Schell, F. J. Grund, and Governors Price of New Jersey and Porter of Pennsylvania."

☞ The Sumpter (S. C.) Watchman records the death of William Vaughn, the last in that district of the Revolutionary soldiers. Mr. Vaughn was born in May, 1764, and had, therefore, reached his ninety fourth year. He joined the army when in his 16th or 17th year, and was with Marion and Sumpter in several of their most severe engagements.

We regret to announce that the well-known publishing house of John P. Jewett & Co., Boston, have yielded to the pressure of the times, and stopped payment. Their liabilities are, we understand, about $100,000, with assets of about the same nominal value. This house met with heavy losses last fall and winter, but with their flourishing business, and their position, would have had but little difficulty in recovering themselves in ordinary times.—*Boston Trav.*

PORTLAND, Sept. 29.—Barque R. H. Knight, with the murderers from brig Albion Cooper, arrived here this morning, and they are now lodged in jail. The Irish lad, who was State's evidence, died of yellow fever on the passage.

ROCHESTER, MASS., Sept. 59.—The Sixpenny Savings Bank, of this city, has suspended.

Fanny Fern receives $5000 a year for her writings for the New York Ledger.

COUNTY FAIRS.—The Nashua Telegraph thinks that County Fairs are more useful than the State Fairs, for the reason that the schedule of prizes at the State Fairs is such that large farmers only can enter into competition.

The Manchester American says it has "for some time been of the opinion that the most profitable Agricultural Fairs could be got up by three or four contiguous towns, at which farmers of limited means, but possessing skill and enterprise, would have the same facilities for competition as the large farmers."

The Vermont Watchman says that at the Town Fair of Peacham, in that State, two hundred and fifty pairs of oxen, and other stock in proportion, were exhibited. We suspect there are few towns in New England which could exhibit so large a number of working cattle.

ARREST OF AN ARMED BURGLAR.—Mr. Ethan Allen of Worcester, Mass., the famous pistol manufacturer, had a conflict with a burglar at his residence in that city on Monday night, of which we learn the following particulars:—Mr. Allen was aroused from his slumbers by a noise in the house, and upon entering a room adjoining his own, found there a man in the act of extinguishing a light. As he went up, the man presented a pistol to Mr. Allen, and snapped it, but it fortunately missed fire. Mr. A. then seized the intruder, and gave him a severe castigation, after which he was handed over to the authorities. It appeared on examination that he had gathered up considerable plunder. He probably had two accomplices, who succeeded in making their escape from the premises, carrying with them some articles taken from the house.

The burglars who entered the house of Ethan Allen, Esq., in Worcester, on Tuesday morning, succeeded in carrying off jewelry and silver ware valued at $136. The fellow whom Mr. Allen caught and punished so severely gives his name as Edward Connor. He is an Irishman, about 20 years of age, and says he belongs in New York. He was examined on Wednesday afternoon in the Police Court, and committed without bail to await his trial. The pistol which he carried was found to be loaded nearly to the muzzle with powder and ball.—*Boston Journal.*

DESIROUS OF SERVING THE COUNTY.—A Hibernian named James McGrath, called upon City Marshal Richardson, on Saturday, at Cambridge, Mass, in a woful plight from his last night's debauch, and begged to be permitted to enter the House of Correction. In answer to the enquiries of the Marshal, McGrath said he had slept in the gutter in Charlestown, last night, was without any means of obtaining an honest livelihood, but would not acknowledge himself a drunkard, and had too much pride at first to plead guilty to being a vagabond. He finally owned to the charge, and a mitimus was made out for six months' imprisonment. An officer was about to accompany him to the House of Correction, but McGrath scorned his attentions, and with his mittimus in one hand, and his hat in the other, he bowed himself out of the presence of the functionaries of the law, and was next heard of at the county institution, where it is reasonable to suppose he was received.

MISSING GIRL FOUND.—A girl named Esther Ladd, who was supposed to have been murdered and thrown into a well at Johnson, Vt., has been heard from. A letter was received by the Postmaster of Burlington, a few days ago, from the Newbury (Vt.) Almshouse, stating that she entered that institution, the first of October last, under the assumed name of Esther Smith, but that she now owned her name to be Ladd.

☞ Hon. William Johnson, late of North Andover, who recently died, leaving no family, in his will, among other liberal bequests, gave the Unitarian Society in that town six thousand dollars, to be appropriated for a parsonage; and two hundred dollars for ornamenting the new cemetery.

☞ About twenty of the most incorrigible thieves in San Francisco were recently exhibited on the Plaza by the police. The exhibition was free, and was attended by as many as three thousand citizens. The rogues were fastened, two by two, to a rope which extended about thirty yards.

A DEFAULTING TELLER.—The Columbia South Carolinian states that Mr. Milles, a teller in the Bank of the State at Charleston, was a defaulter to the amount of $20,000, and made it up by checks on the Bank of the State, having no funds to draw from.

☞ It is estimated that over 20,000 sewing machines were sold in the United States during the last year.

A PLEASURE TRIP OUT WEST.

NO. V.

ASTOR HOUSE, NEW YORK, Sept. 28.

Yes, your correspondent is now numbered among "the young men who pick their teeth on the steps of the Astor." Leaving the panic-stricken City of Brotherly Love by that murderous road, the Camden & Amboy, and having a fine ride of 30 miles up New York Bay in the steamer from South Amboy, we arrived in New York in four hours and a half. The nearest we came to an accident on this route was that we saw several of the old smashed cars thrown into the bushes.

There was a great firemen's turn-out on Saturday night, to receive the Protector Engine Co., No. 22, which had been to Hartford. Forty-three Engine, Hose and Hook and Ladder Companies formed the procession, and as every other company had a band, there was considerable noise. As the procession was passing the corner of Worth street and Broadway, some rowdies began to throw missiles at the members of Engine Co. 41. Then the people began to run, and came near crowding Cyphax down into a lager bier cellar on the corner of W. street. The firemen, not liking the shower which greeted them, resented the attack, and one of them, drawing a pistol, fired several times, wounding one man in the breast, it is feared fatally, and another dangerously in the left side. So soon as the shooting was over, I seized the opportunity to leave those premises.

Everybody knows New York, and so if one would write a letter from here, the less said about the place the better. The fall fashions opened here a day or two since, and it is now doubtful whether Miss Flora McFlimsey will be able to leave the house, as there were but 75 real nice styles of dress exhibited. However, report says she patronized those few, without regard to hard times.

Fine times we had, looking from the window of the house. First, in the morning, a country company came up street, the captain all military enthusiasm, and walking on the cork-screw principle. Next came the band, every member braying his loudest, for they were in Broadway, and must astonish Dodworth's. Following were some citizens, one of whom displayed a cake basket that looked shockingly like "plate." Then the company, guns pointed to all points of the compass, and the standard-bearer a boy so small that he toppled at every step he took. After dinner a company came down street, the men of which were so small that they had to put inverted churns of bear skin on their heads to bring them up to the right stature.

Then, soon after 4 o'clock, there was a most beautiful row on a small scale, caused by the attempt of an officer to pull an omnibus driver from his seat. First round, Coachee goes in, and M. P. goes down between the horses. Second round, M. P. tears off half of Coachee's coat. Draw game, policeman takes number of 'bus, and the jam moves on.

STEAMER EMPIRE STATE,
Long Island Sound,

A beautiful night; we shall probably have a nice sleep. Nothing out of the common course in our route so far. And now I suppose our Western tour may be considered as concluded, for "we are on our journey home," and I care not how soon we arrive at our place of destination. And now good night. CYPHAX.

☞ The number of failures reported within the last month, throughout the country, is litle short of four hundred, and they involve liabilities to the amount of between fifteen and sixteen millions of dollars.

New York, Sept. 29.—The steamship Philadelphia, from Havana 23d, arrived to-day. She reports the health of Havana as improving rapidly.

Several cargoes of negroes had recently been landed on the north side of Cuba. Two Spanish slavers had been seized, and several parties arrested and imprisoned, by order of the Captain General.

The stock of sugar was 195,000 boxes.

Exchange on New York and the Eastern cities was at par.

PHILADELPHIA, Sept. 29.—The City and the Southwark Banks are paying specie on their small notes. Notwithstanding their agreement of yesterday they are receiving the notes of other banks on deposit, except the Pennsylvania.

In the U. S. District Court, in the case of Quarter-Master Reynolds, charged with defaulting the Government in the sum of $120,000, the jury returned a verdict to-day, that the government was indebted to the defendant over $400, and judgment was accordingly entered in his favor.

GEORGETOWN, D. C., Sept. 29.—The Bank of Commerce of Georgetown, which continued to redeem its issue in specie, has come into an arrangement with the District Banks, and suspends specie payments altogether.

The Farmers & Mechanics Bank, in Georgetown has also suspended.

FROM HAVANA.—*Charleston, Sept.* 28.—The Catawba brings Havana dates of the 24th. Sugar depressed and declining.

SPECIAL NOTICES.

CURIOUS ATTEMPT AT COURTSHIP.—There has been quite an excitement recently in the quiet village of Oakdale, Shelby county, Missouri, in consequence of the attempt of two or three young fellows from Georgia, hastening there to win the affections of a young lady, who suddenly was discovered to possess many thousand charms. It appears that she had sent $5 to Anderson & Son, of Macon and Savannah, Georgia, for a half ticket in their Lottery, which was drawn on the 15th of August last. A prize of considerable magnitude was the result of her speculation, and her admirers having discovered that she had drawn so much money, hastened to the little village to pay their addresses, supposing the young lady would not be aware of her good fortune. She had as many adorers as the lady in the farce of the "Lottery Ticket," but she did not lose her heart so suddenly as she won a fortune. A telegraphic dispatch from Anderson & Son arrived in time to foil the wily aspirants for her hand and heart. Their next drawing takes place on the 15th inst.,—on the old Havana plan of single numbers—and promises to be a magnificent affair. By remitting ten, five, or two and a-half dollars, directly to the managers, who act under the authority of the State, you will receive every satisfaction.—Those wishing to make slighter investments can do so by inclosing from one to four dollars in one of their Lotteries, which draw every Saturday throughout the year.

MESSRS. EDITORS:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. B.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

WM. P. MOULTON, *Secretary.*

ROCKINGHAM AGRICULTURAL SOC.

We publish below the Constitution of the Rockingham County Agricultural Society. "It is proposed to raise, by the admission of Life Members, (at $5 each) the sum of $5,000, as a permanent fund, to aid in the support of the Society. The farmers and mechanics of the County are invited to unite with us, and show that old Rockingham, though nearly the last, will not be least, in a good cause."

CONSTITUTION.

Adopted Oct. 28, 1852.

1. This Society shall be styled "THE ROCKINGHAM FAIR."

2. Its object is the improvement of Agriculture, Horticulture, and the Mechanical arts in this County.

3. Its officers shall be a President, four Vice Presidents, a Secretary, Treasurer, and three Trustees; and a Collector for each town.

4. The President, Secretary and Trustees shall constitute the *Executive Board*, of which the President shall be Chairman; and the Secretary, Clerk. This Board shall, by a major vote, manage and control all the affairs of the Society, and adopt all such measures to promote its objects as they think proper; subject, however, to the direction of the Society, at any regular meeting, and to its by-laws.

5. The President, Secretary and Trustees, shall be elected by ballot at the annual meeting. All other officers shall be appointed by the Executive Board, except such as may be elected at the annual meeting, in such manner as the meeting shall direct.

6. The Secretary shall keep a fair record of all the transactions of the Society, and of the Executive Board. The Treasurer shall keep a correct account of all money received and expended, and shall give bonds as the Trustees shall direct. Their records shall be, at all times, open to the inspection of any member.

7. The annual meeting shall be held in the Autumn, at such time and place as shall be appointed by the Executive Board.

8. Members shall be admitted, on such terms as shall be, from time to time, prescribed, and the Society may assess the members not exceeding one dollar a year each.

9. Any member paying five dollars at one time to the Treasurer, shall be a *Life Member*, and shall not be liable to assessment for five years.

10. The foregoing articles may be altered, at any annual meeting, by a vote of two-thirds of the members present.

CORPSE AFLOAT.—We understand that on Sunday last, in a pilot boat belonging to Newcastle, a man and two boys were returning from a cruise to the Isles of Shoals,—and when the boat was about a mile this side of the Shoals, the boys discovered a body floating on the water, and roused the man from his sleep, that they might pick up the body; but he declined to do anything. One of the boys then took the small boat and went to the body, which he found to be that of a woman, entirely destitute of clothing; but he did not succeed in his attempt to fasten a rope to the body,—and it was left in the sea. The death must probably have been caused by suicide or violence—for accidental drowning would not have stripped off the clothes.

☞ The ships Mary Washington and R. H. Tucker were launched in good style, on Wednesday morning, as was announced.—Two more first-class ships are to be launched here within a week. Who says Portsmouth can't do any business?

THE CHRONICLE.—As we Chroniclers are all going to the Fair, we shall print no Daily on Saturday morning. On Friday morning, we shall give as full a report as practicable, of the procession, entries, &c.; and we shall publish the awards of Premiums, and at least a synopsis of the addresses, and all other matter of interest concerning the Fair, at the earliest moment possible.

The Weekly Chronicle (published on Saturday, only $1 a year, in advance,) will also contain all the above, as well as everything else of general interest; and now is a good opportunity for farmers visiting the city, to subscribe. It is sent by mail, free of postage, all over Rockingham County.

DENTISTRY.—A wonderful improvement in the art of filling decayed and broken teeth, has been introduced by Dr. Frank Fuller of this city. This is nothing more nor less than *restoring the tooth to its natural shape.* The cavity is filled by welding particles of crystal gold, and the process is continued, until the original shape of the tooth is restored.—The process is very curious and ingenious, the gold being taken by the operator, in its crystal state, and by skilful manipulation made as firm as the tooth itself. We have seen teeth that have been thus restored, which were apparently as strong and serviceable as before they had decayed. The improvement is a very important one to the public, and we recommend those who are suffering from decayed teeth, or who are called upon to deplore the loss of a portion of a favorite tooth, through the unskilful *filling* of a clumsy operator, to examine specimens of the work of Dr. Fuller.

Fine specimens of Dr. Fuller's work can be seen at the Fair to-day.

Elder S. Coffin (Freewill Baptist) will preach at the Temple on Sunday next, at the usual hours, day and evening; also, is expected to preach two or three succeeding sabbaths, at the same place.

LOOK OUT FOR PICKPOCKETS!—Uncle Toby has seen some scoundrels round lately and has heard of others. Some of the sailors here, have been swindled by them; the citizens and visitors must look to their pockets.—The rascals are vigilant.—Our policemen are few, and poorly paid.

☞ The Minnehaha Troupe of Indians will give another of their native exhibitions at the Temple this (Thursday evening, when they will exhibit the manners and customs of the Indians in their uncivilized state. Admission 15 cents.

CONSOLIDATION
—OF—

EMERSON'S MAGAZINE

—AND—

PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a separate use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, would be prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, and well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the strong hold on health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all those evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.
AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.
ANN ARBOR, November 5th, 1856.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours.
SOLOMON MANN.
FRIEND WOOD: It was a long time after I saw you at Hillsdale before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly, yours,
SOLOMON MANN.
CARLYLE, ILL., June 28, 1852.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SURDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. And it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and discoverer, must be the judge.*

ROCKINGHAM FAIR.

FIRST DAY.

The Fifth Annual Cattle Show and Fair of the Rockingham County Agricultural Society, commenced in Portsmouth, on Thursday morning. The weather seemed as if made to suit the occasion; and our city was full of visitors from the neighboring towns. All our citizens took an interest in the affair, and improved the occasion for a general holiday.

Soon after sunrise, people commenced coming into the city—on foot and on horseback, by private carriages, in coaches, stages, packets, and by railroads; and before noon our streets were thickly lined with citizens and visitors. Every nook and corner was filled with horses and carriages.

As a whole, the Fair must be pronounced a great success; and has doubtless opened the way for more similar gatherings here. The collection of animals, and agricultural, mechanical, and artistic productions, taken together, is pronounced the finest ever seen in the county; and is said never to have been exceeded in New Hampshire, even at the State Fair.

We shall publish every item of interest concerning the show, that we can gather, as soon as practicable, in the order of their occurrence. First, then, for

THE PROCESSION.

The Procession was very long, and showy, and embraced much of interest to all beholders—a fair representation of the bone and sinew (and some of the beauty) of our own good city, and our sister towns.

James W. Odlin, of Exeter, was Chief Marshal, having Robert Lefavour and George N. Carleton for Aids. A. Q. Wendell and Albert H. Hoyt were the Side-Marshals of this Division.

The Portsmouth Cornet Band, increased to seventeen pieces, furnished music good enough to head any Procession, and won much praise.

The City Phalanx, Capt. W. O. Sides, performed escort duty in good style. They numbered about forty muskets, and wore a neat black undress uniform. The Fire Department drew on their ranks—which were partly filled with volunteers; who did exceedingly well for new recruits.

A small delegation (of perhaps forty members) of the Rockingham Agricultural Society, came next—with ex-President Pierce and Hon. H. F. French (President of the Society) at the head. We also noticed Benj. F. Clark, Esq., of Stratham, in the ranks. He is one of the Trustees of the Society, and has always evinced much interest in its success. It was chiefly owing to his exertions that the Fair was this year held in this city. The result proves that his views of the matter were correct.

Then came a good delegation, (nearly sixty members,) of the "Associated Mechanics and Manufacturers of the State of New Hampshire"—old men and young, a noble band of workers. Their banner bears the inscription, "Mechanic Association—Be just, and fear not; Mind your business—Incorporated 1803."

Next came the City Government, with the ex-Mayors of the city, clergymen, and others.

The *Second Division* of the Procession embraced the Fire Department of the city, with a visiting Company from Newmarket; and a splendid display they made, in their neat uniforms, with their six Tubs beautifully decorated, each drawn by a span of horses.

The Marshal of this Division was B. Swasey; with Chas. W. Marden and Charles H. Hayes for Aids. Side Marshals, Wm. C. Patten of Kingston, and J. D. Parker of Exeter.

The Newmarket Brass Band accompanying, kept the Firemen well up to tune, and encouraged them throughout their march with good music.

"Granite State," No. 1—dress, black pants, white shirts, with black belts bearing the name of their tub. Their Engine was finely decorated with evergreen, flowers and flags.

Next came Laconia, No. 2,—dress, black pants, white shirts, with black belts bearing their tub's name in gilt. Their Engine was beautifully trimmed with flowers and evergreens; and bore their capital motto, "We'll try."

Then followed "Tiger" Company, No. 1, of Newmarket—dress, black pants, red shirts faced with blue. They were the guests of Laconia Company, No. 2, by invitation—and it was to the enterprise of the Twos that we were indebted for the appearance of the "Tigers," with the Newmarket Brass Band.

Niagara Company No. 3, came next. Their dress was dark pants, red shirts, and plain belts. Their old tub, which bears date 1791, was brought out and decorated as it never was before. The Company evinced no little public spirit in appearing with their old hulk, and proved that they amply deserve the splendid new tub which is nearly completed for them. Their inscription was, "Welcome all our brother Firemen." (One incident connected with the past, is worthy of mention here. Mr. Richard Fitzgerald, now living in this city, considerably more than four score years of age, was a fireman, and helped "work" the old Niagara, more than sixty years ago.)

Piscataqua, No. 4, was richly trimmed with spruce, flowers, &c., and bore their motto, "Prompt when duty calls." The dress of this Company was red shirts, dark pants, with belts. They carried their beautiful banner, "Presented by the ladies of Portsmouth."

Sagamore, No. 5, was profusely ornamented with boquets, &c. This Company has just procured a new and handsome uniform—black pants, white woolen shirts neatly trimmed with red, with belts bearing their name in gilt. They made a fine appearance. Their Tub was inscribed, "Our motto, never say die."

Atlantic, No. 6, brought up the rear, and though last in numerical order, was by no means least in attraction. Dress, blue shirts, dark pants, with stripe, and belts. Their tub was prettily decked off with flags, flowers, etc. But we will adopt their excellent motto,—"Deeds, not words."

This the first display of our whole Fire Department, was on all hands declared to be very fine; and added not a little to the interest of the procession. Great credit is due to the Chief and Assistant Engineers, for their exertions to encourage the display, as well as to the Firemen themselves.

The *Third Division* of this Procession, the legitimate Agricultural display, was first rate. There were six Town Teams, embracing nearly three hundred yoke of good working oxen, many of them superior cattle.

The Marshal of this Division was Frank Fuller; his Aids, Gilbert P. Poyt of Newington and John B. Hill of Greenland; Side Marshals, James H. Head, J. F. Cram of Hampton Falls, Geo. T. Barker of Stratham.

The Nottingham farmers brought 13 yoke of handsome four and five year old oxen—all dark red, and finely matched for color and size. This team drew a rustic coach or omnibus, which evinced much good taste and skill and no little industry in the fitting up. The top and sides were entirely covered with spruce; and through the windows (or openings to represent such) could be seen a goodly multitude of Nottingham ladies, and others. The sides were inscribed in neat letters of spruce, "Nottingham — 1857." There were also boquets, and stars formed of corn, and other ornaments, and a good display of pumpkins, traced corn, etc. Each yoke of cattle carried a pink flag,—"Nottingham." This was very showy and appropriate, and speaks well for those concerned in getting it up—prominent among whom was Hon. Jas. H. Butler. Their attendance from so great a distance we regard as a compliment to Portsmouth. A pair of handsome sheep of the Southdown breed, from Judge Butler's farm, were led by a couple of boys.

Greenland also sent an elaborate turnout,—a covered wagon, loaded with lady passengers, drawn by twenty yoke of noble cattle. The design was beautiful, and well carried out. A large ox-wagon, with circular top, was roofed or thatched with sugar-cane and corn stalks; the sides being covered with spruce and flowers. On the front, at the top, was a pair of huge ox-horns, and a plough, and the motto "Speed the plough." A handsome spruce-lettered inscription, "Greenland," on either side, with flowers and other adornings. This tasty and much-admired team was gotten up by Messrs. John B. Hill, Joseph B. Simpson, and others; and was a fair sample of the prosperity and well-to-do condition of that flourishing farming town. Following this team, was a little pony, about as big as a dog, drawing a couple of boys in a carriage; (Capt. C. H. Salter's.) Also, a fine two-year old black-hawk colt, belonging to Mr. Joseph Pierce,—which took a premium at the Manchester Horse Show last year.

Rye turned out an open ox-wagon, trimmed with green twigs, filled with ladies, and a fiddle to make all merrier—the rack being labelled "Rye Town Team." The motive power of this establishment (next to an interest in agriculture) was 47 yoke of noble oxen, fit to mix with a herd like Jacob's. This was a little the longest team in the procession, and was much noticed.

Little Newington also came out in great style—45 yoke of good cattle, drawing a common ox-wagon, loaded with the sturdy yeomanry of that town. Well done, Newington; all things considered, she was hardly beat.—Prominent among the drivers, we noticed that veteran teamster, Cotton Garland. By the way, we should like to publish a list of all the drivers of these teams—will some gentleman from each town please furnish them.

Exeter sent 13 yoke of extra cattle. They drew only a plain platform wagon, without ornament or label—though many thought it might safely be inscribed, "premium." We shall see what the Judges, think, however; this not being the *only* good team in the lot, by a long string.

There was also a large open wagon or omnibus, trimmed with evergreen and flags,—filled with Exeter ladies and gentlemen—a fine-looking and merry set—drawn hither by four good horses and their love of a good time.

Portsmouth did not compete for the premium. 9 yoke of oxen only comprised their team—but those few were good. A life-boat was mounted on wheels, trimmed with flags and evergreen, and filled with boys. For a team rigged up in about half a day, this was a tolerable show; and it was certainly much better than nothing. We are sorry our Portsmouth farmers, especially those on the Committee of Arrangements, didn't show better spunk, and get up something worthy themselves and the occasion.

The whole Procession numbered about 150 yoke of cattle, work probably about $,5000.

The start of the procession was delayed by the non-arrival of the C. & P. cars, with the Exeter delegations, &c., and the line was not complete till about half past 11 o'clock. The delay was no fault of the Chief Marshal, or his attendants—all of whom knew their business and attended to it. The route marked out was gone through without accident or interruption, and all marched into the field just before 1 o'clock.

After the procession had reached the field, the President of the Society, Hon. H. F. French, opened the Fair with a few appropriate remarks, congratulating the immense assembly upon the favorable auspices under which they had met to celebrate the 5th anniversary Fair of the Rockingham County Agricultural Society.—Thanks to the enterprise of the citizens, the ladies and the city government of Portsmouth, and the unusually favoring weather, the exhibition opens more prosperously than on any previous year. This is not the day for speeches; to-morrow we expect to hear eloquent words from eloquent men; now we propose to organise our committees and enter upon the active duties of the exhibition. Mr. French stated that the members of committees were confined to members of the Society, which fact would account for the apparent inequality of members in some of the towns, which had been spoken of in the newspapers. For instance, Portsmouth has less than twenty members, while Exeter has one hundred and fifty.—The committees were then called, and the places of absentees supplied.

The Procession was then dismissed, and a portion of it appointed to meet again on the Field at 3 o'clock. At this time, the Drawing Match was had, in the enclosure. We shall endeavor to give a detailed report of this hereafter. We hear that about twenty entries were made, and some of the cattle tugged amost hard enough to do what "all the king's oxen can't" do.

THE FIELD.

In the Fair Grounds were fifty pens for Stock, which were all occupied; and the collection was much above the average.—Below we give almost a complete list of the entries.

In Pen No. 1, was a handsome litter of pigs, 8 weeks old, and also a fine sow and boro, owned by A. K. Warren, of this city.

In No. 2—two shoats, five months old, very fine pigs, also owned by A. K. Warren.

☞ The Halls were thronged with visitors, yesterday, through the day and evening. We have the entries of both in type, but cannot find room for them till Monday morning.

☞ Four New York physicians have presented bills amounting to $1050 for services in making chemical and microscopical examinations of stains on dagger, clothes, walls. &c., at the house No. 31 Bond street, in the case of H. Burdell. It is thought that their claims are slightly exorbitant.

☞ Edward Fitzgibbons, a young man reduced to extreme poverty by want of employment, attempted to commit suicide in a station house, in New York, on Monday night, by cutting his throat. He is likely to recover. He has a wife and two children in great distress.

As Capt. Edmund Crowell, of Union, Me., was returning from meeting on a recent Sabbath, his horse took fright, and in crossing the bridge near Union Common, the wagon struck the railing with such violence that it threw Capt. Crowell and his two daughters clear from the wagon and bridge into the middle of the stream where the water was four or five feet deep and running with rapidity. They must have fallen more than twenty feet before striking the water, yet escaped with no other injury than severe bruises.—*Portland Adv.*

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

Rockingham Fair.

On FRIDAY, at half-past 9 o'clk—**PLOWING MATCH**, on Auburn Street.
At 11 o'clock, **ADDRESS**, at the Field.
HON. JOSIAH QUINCY, JR., OF BOSTON

WILL deliver the Annual Address before this Society, at Portsmouth, on Friday, the 2d day of October.
MAJOR BEN: PERLEY POORE will be present, but owing to other engagements is unwilling to give a formal Address.
ADMISSION.—Members of the Society will have one free admittance to the Field and Hall. All others will be charged an admission fee.
Single Tickets, admitting to the Hall, 10 cents;
Do. do. to the Field, 10 cents.
WM. P. MOULTON, *Secretary.*

☞ Notwithstanding the very large concourse of people in the city on Thursday, there was little or no disorder. A few poor fools we saw, who celebrated the day by getting drunk; and some arrests were made.

In the evening, a couple of chaps were disputing, in Market street, when William Spinney fired a pistol-charge of powder into Walter Chesley's face, injuring him considerably. Spinney was thereupon severely beaten, by a crowd which quickly gathered.

MUSIC.—Not a little of any celebration depends upon the music. Our Portsmouth Cornet Band have done their best at the Fair—and that best is good enough, too. Besides them, we were glad to see and hear the Newmarket Brass Band, with their neat uniform and spirited playing. It was expected that the Manchester Cornet Band would be present; but before they were finally engaged, another offer took them elsewhere. Flagg's Band, of Boston, well filled the place, however. And no little credit is due to Mr. Albert Chase, for his exertions in procuring this Band—after a long hunt for music in Salem and Boston, on Wednesday night.

Besides these regular, modern Bands, there were two or three "military bands," (drum and fife)—as good as the best of their kind, perhaps, but we have no great esteem for that "kind." Two little Rogers boys, from the Marine Barracks at the Navy Yard, made their kettle and "little flute" hum well; and we saw others in the same employ who were there "in the days of long ago."

Elder S. Coffin (Freewill Baptist) will preach at the Temple on Sunday next, at the usual hours, day and evening; also, is expected to preach two or three succeeding sabbaths, at the same place.

☞ Contributors to the Fair, are requested to call for their Articles early on Saturday Morning, at the Halls of exhibition.

ROCKINGHAM AGRICULTURAL SOC.

We publish below the Constitution of the Rockingham County Agricultural Society. "It is proposed to raise, by the admission of Life Members, (at $5 each) the sum of $5,000, as a permanent fund, to aid in the support of the Society. The farmers and mechanics of the County are invited to unite with us, and show that old Rockingham, though nearly the last, will not be least, in a good cause."

CONSTITUTION.

Adopted Oct. 28, 1852.

1. This Society shall be styled "THE ROCKINGHAM FAIR."

2. Its object is the improvement of Agriculture, Horticulture, and the Mechanical arts in this County.

3. Its officers shall be a President, four Vice Presidents, a Secretary, Treasurer, and three Trustees; and a Collector for each town.

4. The President, Secretary and Trustees shall constitute the *Executive Board*, of which the President shall be Chairman; and the Secretary, Clerk. This Board shall, by a major vote, manage and control all the affairs of the Society, and adopt all such measures to promote its objects as they think proper; subject, however, to the direction of the Society, at any regular meeting, and to its by-laws.

5. The President, Secretary and Trustees, shall be elected by ballot at the annual meeting. All other officers shall be appointed by the Executive Board, except such as may be elected at the annual meeting, in such manner as the meeting shall direct.

6. The Secretary shall keep a fair record of all the transactions of the Society, and of the Executive Board. The Treasurer shall keep a correct account of all money received and expended, and shall give bonds as the Trustees shall direct. Their records shall be, at all times, open to the inspection of any member.

7. The annual meeting shall be held in the Autumn, at such time and place as shall be appointed by the Executive Board.

8. Members shall be admitted, on such terms as shall be, from time to time, prescribed, and the Society may assess the members not exceeding one dollar a year each.

9. Any member paying five dollars at one time to the Treasurer, shall be a *Life Member*, and shall not be liable to assessment for five years.

10. The foregoing articles may be altered, at any annual meeting, by a vote of two-thirds of the members present.

OXYGENATED BITTERS.—For the cure of Dyspepsia and General Debility, this medicine is invaluable; its peculiar combination is the result of experience, and an intimate knowledge of the cause of these diseases.

THE CHRONICLE.—As we Chroniclers are all going to the Fair, we shall print no Daily on Saturday morning. On Friday morning, we shall give as full a report as practicable, of the procession, entries, &c.; and we shall publish the awards of Premiums, and at least a synopsis of the addresses, and all other matter of interest concerning the Fair, at the earliest moment possible.

The Weekly Chronicle (published on Saturday, only $1 a year, in advance,) will also contain all the above, as well as everything else of general interest; and now is a good opportunity for farmers visiting the city, to subscribe. It is sent by mail, free of postage, all over Rockingham County.

MARRIED.

In Claremont, Charles C Duty of Elmore, Vt., and Martha J. Mann, of C

DIED.

In York, Sept. 19th, Mrs. Sophia J. Came, wife of Charles Came, Esq., and daughter of Hon. Wm. McIntire, aged 41 years.

In North Andover, Mass., Miss Eliza J. F. Adams, aged 45, formerly of this city.

NEW YORK, Sept. 30.—*Heavy Robbery.* Geo. E. Parmalee, merchant, 29 Warren street, was arrested to-day charged with robbing the premises of H. E. Dibblee & Co. of $30,000 worth of silks. Dibblee and Parmalee occupied different lofts of the same building.

Money Matters.—The stringency in the money market was to day as severe as ever, notwithstanding the increased loans made by the banks. Almost fabulous rates were paid in the street. It is believed, however, that the pressure is at its height. A large amount of government stocks were sent to Washington for redemption. This will afford partial relief.

There were no additional city failures announced. Two bank suspensions are reported, viz., the Exchange Bank, at Hamilton, N. Y., and the Pawtucket Bank, of Connecticut.

NEW YORK, Sept. 30.—*Failures.*—S. Hotaling & Co., salt merchats, have failed; said to have transpired two days ago.

Financial.—There is an easier feeling in Wall street to-day.

Stocks are a shade higher and tolerably active. A bettter feeling prevails at the Corn Exchange. No failures are reported.

Aid for Walker.—It is rumored that the steamship Tennessee, which leaves this afternoon for New Orleans, has a large lot of arms and ammunition for Walker's expedition.

BALTIMORE, Sept. 29.—*Notes Issued without Authority.*—The American Sunday School Union has recently discovered that notes and acceptances amounting to nearly $89,000 have been circulated without their authority. A card has been prepared, disowning them, and asserting that the Board is not responsible for their payment.

PHILADELPHIA, Sept. 30.—*Banks.*—Our banks are still at variance, causing much trouble and vexation among business men.

☞ The Boston Traveller regrets to learn that Butler, Keith & Hills, the largest hardware jobbing firm in Boston, suspended payment on Wednesday.

THE NEW YORK DAIRIES.—The Journal of Commerce says:

"A correspondent at Palmyra, N. Y., writes to one of our merchants that the people of this city need indulge no apprehension of any scarcity of dairy food, such as cheese or butter, as the quantity of the articles produced the present season in the great dairy counties of the State exceeds that of any previous year by about one third. He estimates that in the counties referred to, there have been at least 70,000 firkins more butter made than ever before in one season."

CONSOLIDATION
—OF—
EMERSON'S MAGAZINE
—AND—
PUTNAM'S MONTHLY.
40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.
It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.
We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.
The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.
TERMS, $3 CENTS—$3 A YEAR.
It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

Morning Chronicle.

☞ A correspondent of the Northwestern (Ohio) Farmer says that people frequently resort to harsh remedies when an ox or cow is choked, and sometimes loose a valuable animal thereby. A better plan, and one practised by the writer, is to fire a gun under the animal; it makes such a desperate spring that the wind from the stomach throws out the obstruction from the throat at once.

☞ The organist of the Second Presbyterian Church in Albany, receives the moderate salary of $1200 a year for his services. The man who commands such good pay is Mr. F. F. Muller, formerly organist of the Old South in Boston.

☞ A Gardner campaign paper has been started in Lawrence, called the American Register. Rev. A. C. L. Arnold is its editor.

☞ When the reinforcements now on the way to India reach there, the British army in that country will number 87,000 men.

☞ William L. Cory, a benevolent old gentleman, of Huron, Michigan, recently bought a pretty little blue-eyed girl from her drunken parents, for $3000.

☞ According to the official tables, the illegitimate children born annually in Vienna comprise nearly one-half the total number of births in that city.

☞ The New York Times estimates that over $10,000 are spent every evening in New York on amusements.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the order received to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

LOTTERIES.

THE well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are now drawing in the City of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which should recommend the Lottery is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of Congress. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prizes are from every dollar to $20,000. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the simple principle of one number each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the Editor Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which, we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stores, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Store warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at
No. 61 Market Street.

Magee's Patent Ventilating Stove.
FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

a very amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headaches so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The ashes and coal no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. None need apply who enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. "Prepared purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,631, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scalled head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD: Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dye, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in relegating the character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Bliss-field before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration for its character and value.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLTON, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no fear of its permanently so.

BURDEN'S
Pressed Boat. Ship, Brad & Countersunk
Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity of finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which also is attributed their rare strength. They are everywhere esteemed far superior to the hand made spike of common English iron, now so inferior to nothing of the kind yet introduced to the public.

ROCKINGHAM FAIR.

SECOND DAY.

The weather of Friday was evidently not "made to suit the occasion" of the Fair. Rain commenced falling on the evening of Thursday, and drizzled down at times all through Friday, day and evening. But for this, the attendance, especially at the Fields, would have been larger even than on the first day. As it was, however, the halls were crowded from the time of being opened, on Thursday morning, until Friday evening.

ha PLOWING MATCH was the first public business in order for Friday morning. Half past nine o'clock was the time appointed, but the rain delayed the competitors, who were not on the ground till about eleven. A large crowd of spectators gathered at the field selected for the purpose, on Auburn street, among them the officers of the Agricultural Society, Hon. Josiah Quincy, Jr., the orator of the day, (who arrived the evening previous,) ex-President Pierce, and others of note.

Seven teams were entered—two yoke of oxen each—and made a good appearance. The following gentlemen entered teams:—John Norris, Wm. Wadley, Daniel F. Hayes, Edward Giddings, of Exeter; Jas. H. Butler and Wm. Norris of Nottingham; John C. Evans of South Hampton.

The land for plowing contained one acre, which was divided into eight parts, each team plowing the eighth of an acre. The time allotted for the plowing was limited to thirty minutes. Every team did the work inside of that time, which was considered very quick, considering the rocky nature of the soil, and the mud. The award of premiums will be found in the Secretary's report.

After some good music by the Portsmouth Cornet Band, the meeting adjourned, to meet at the Temple at 3 o'clock, and the crowd dispersed.

It has been customary with this, as with other similar societies, to have the address delivered, the award of premiums announced, and other business transacted, from the stand in the field; but the state of the weather precluded this, and the Temple was announced as the place.

THE ADDRESS, &c.—At half-past two o'clock, the Temple was well filled with ladies and gentlemen, a considerable proportion of whom were farmers of the county, their wives and daughters. The Officers of the Society, the Mayor, Committee of Arrangements, Orator of the day, Rev. Dr. Burroughs, (President of the Portsmouth Horticultural Society,) and other gentlemen, entered the hall, and were received with music by the Portsmouth Cornet Band, which had a position upon the platform.

Hon. Mr. French, the President of the Society, in introducing the orator of the day, the Hon. Josiah Quincy Jr., of Boston, felicitously complimented the eloquent gentleman, and congratulated the Society on their good fortune in securing an orator so capable and an agriculturist so eminent as Mr. Quincy, who owned and cultivated a farm of 500 acres, the title to which has been in the hands of his ancestors for more than two hundred and fifty years.

Mr. Quincy was received by the audience with applause, and spoke for about an hour. His address was very interesting, and received close attention. We have a synopsis of it in type, but cannot find room for it until to-morrow.

At the close of the speeches, the Band gave some further excellent music, the reports of the committees on premiums were read, and the meeting closed.

Congress Hall was well filled in the evening, notwithstanding the rain; and thus closed successfully the first Agricultural Fair ever held in Portsmouth—concerning which, more anon.

PEACHES 2
To N. W. Barker, Stratham.
Next best 2
To Abner Littlefield, Greenland
Next do Trans.
To John O. Wiggin, Stratham.

"The contributions in Fruit were unusually large. Many excellent specimens of the best varieties were exhibited, and the Committee were under the necessity of exercising most rigidly their "five senses," to award preferences to such a large competition.

"Some superior specimens of different fruits we were obliged to strike from our Premium List—from the fact the contributors failed to comply with the rules of the Society, in not entering the requisite number of varieties.

"If gratuities are awarded, we recommend for your consideration fine specimens of 30 varieties of Apples, shown by R. W. Currier, of East Kingston; also 10 varieties of Apples by Andrew Wiggin of Stratham; 7 varieties by Andrew Gardner of Portsmouth; and 10 varieties by N. M. Barker of Stratham.

Also 19 varieties of Pears, by Wm. Day of Portsmouth,—11 varieties by N. Norton of Greenland,—and 6 varieties, by W. R. Preston of Portsmouth.

There were many other excellent specimens of Apples, Peaches and Pears on exhibition; most of them, however, not coming within the Rules of the Society,—consequently, they are here passed unnoticed."

FANCY AND FAMILY ARTICLES.

The ladies of the county were invited to contribute to the exhibition articles of home manufacture — specimens of Needle Work, Painting, Drawing, Flowers, and the like. A Special Committee was appointed, with authority to award $25.00 in premiums for such objects; and made report as follows:—

The Committee on Family and Ornamental Needle Work, Painting, Drawing, Flowers, and various articles not otherwise specified, award the following specimens:

To J. H. Dimon, Stratham, for display of Flowers, $1.00
David M. French, Newmarket, for Statuary and Cameos, 1.00
Miss Charlotte Cheever, Portsmouth, for Worsted Pictures, 1.00
Mrs. Jeremiah Johnson, Portsmouth, for Worsted Picture, 1.00
Mrs. John S. Robinson, Portsmouth, for Tufted Worsted Picture, 1.00
Mrs. Samuel Lamprey, Portsmouth, for Paintings in Water Colors, 1.00
Miss C. E. Jenness, Portsmouth, for Paintings in Water Colors, 1.00
Miss S. H. Foster, Portsmouth, for Paintings in Water Colors, 1.00
Miss Augusta Morrison, Portsmouth, for Oil Paintings, 1.00
Mrs. S. G. Folsom, Portsmouth, for Grecian Paintings, 1.00
Miss Lizzie Robinson, Brentwood, for Grecian Painting and Wax Work, 1.00
Mrs. O. F. Gerrish, Portsmouth, for Oriental Painting and Hair Work, 1.00
Miss S. E. Ryder, South Newmarket, for Wax Fruit, 1.00
John P. Payson, Portsmouth, for Shell Table, 1.00
Mrs. Robert Morrison, Portsmouth, for Point Lace, 1.00
Miss Mary P. Thompson, Portsmouth, for Embroidery, 1.00
Mrs. D. M. Quimby, Exeter, for Embroidery, 1.00
Mrs. A. D. Chapman, Portsmouth, for Oriental Painting, Shell Work and Worsted Work, $1.00
Miss Katie Moulton, Exeter, for Crochet Work, 1.00
Mrs. Shem Emery, Portsmouth, for Shell Quilt, 1.00
Mrs. P. H. Ragg, Portsmouth, for Quilt, 1.00
Mrs. E. S. Wendell, Portsmouth, for Quilts, 1.00
J. E. Ham & Co., Portsmouth, for Clothing, 1.00
Ira B. Fonda, Portsmouth, for Millinery, 1.00
Charles F. Lutz, Portsmouth, for Reticules, Porte Monnaies, &c., 1.00

In addition to the foregoing meagre premiums, the Committee would do injustice to their own feelings, did they not at least make honorable mention of a few among the numerous articles of taste and beauty with which Congress Hall abounded.

There were fine Crayon Portraits by Carl Meinerth, and Crayon Pictures by Miss C. E. Jenness and Miss Lucy W. Kimball; life-like Photographs in oil by Albert Gregory; Worsted Pictures by Miss Ann M. Black, Miss L. Ellen Pray, Mrs. Richard Pickering, Mrs. Richard Boardman and Mrs. Chas. Tappan; Grecian Paintings by Miss Lambert, Miss E. M Hayes, Miss A. H. Hubbard and Miss M. L. Little; a Monochromatic Picture and Oil Painting by S. E. Walker; ingenious Paper Cuttings by Miss S. H. Foster; Shell Work by Mrs. A. M. Payson and Mrs. W. G. Coffin; handsome Leather Frames by Miss Anna Edmonds, Mrs. S. G. Folsom, Miss H. M. Webster, Mrs. Wm. Day and Miss S. H. Foster; Pine Cone Frames by Miss Hazeltine; Ottomans, Crickets, Worked Chairs and Tables by Mrs. C. A. Cheever, Mrs. G. W. Hackett, Miss Shackford, Mrs. S. B. Haley, Mrs. Geo. P. Abbott, Mrs. J. H. Foster, Miss Goodrich and Mrs. G. N. Carleton; Chinese Pictures by Mrs. M. F. Moses; a fine copy of a Rembrandt by Mrs. Purdy; Quilts of all sorts and sizes by Mrs. Benj. Cheever, Mrs. Sarah White, Mrs. Jabez Dodge, Miss Elizabeth Gilman, Mrs. E. A. Hall, Mrs. J. Morrison, Miss Ann E. Davis, Mrs. Benj. Kenney, Mrs. Thos. Norton and Mrs. Jas. Coffin; exquisite Embroidery by Miss C. E. Jenness, Mrs. Ashby, Miss E. J. Barton, Miss E. A. Hall, Miss Ellen Pray and Mrs. W. F. Pray; beautiful Boquets of Flowers by Miss M. Lizzie Marden and Dr. Burroughs, and of Feathers by Miss E. Cheever and Miss Hazeltine; an elegant specimen of card drawing and ornamental penmanship by Miss Sophia Furber; a silk-weed cape by Mrs. E. A. Ham; various articles by W. R. Preston; a centre table by J. A. Newton; highly wrought specimens of Dentistry by Dr. Fuller, (not entered for premium;) two marble dogs by Master John S. Treat; panels of a ship's cabin, done in the highest style of the art, by Chas. J. Colcord and A. T. Joy & Son; transferred work by Mrs. J. F. Shores; mat by Mrs. Mary Ann Pray, 89 years old; fancy cutter by S. G. Hooper. The committee, though they have spent nearly five hours of hard work in the duty assigned to them, are yet painfully conscious that they must have failed to render exact justice to every contributor.

We beg leave to conclude our Report, somewhat in clerical fashion, with two practical remarks.

First, *we will never serve again in a similar capacity, unless a more respectable amount of money is placed at our disposal.* That portion of the Exhibition which tends more than any other to elevate the taste and moral tone of the County, while at the same time *it puts money in the purse of the Society*, deserves, in our judgment, more than $25 in the distribution of the premium fund.

Second, we suggest, that, in the future composition of this committee, *both sexes* be represented. If we have done any justice to any body in our attempts to discriminate between the various specimens of needle-work which came under our examination, it is chiefly owing to the better educated eyes of certain disinterested ladies whom we were fortunately able to *borrow* for the occasion.

JOSEPH G. HOYT,
MOSES EATON,
ROBERT C. THOMPSON.

☞ Premiums will be paid on or after Nov. 1st.

WM. P. MOULTON, *Sec'y.*

Exeter, Oct. 3d, 1857.

SPECIAL NOTICES.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward ($25) for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks New and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street, ALLEN & PAINE.

POLICE COURT.

FRIDAY, Oct. 2.

Before Justice Odell—William Spinney, charged with an assault on the evening of the 1st inst., upon Walter Chesley, was convicted of the same, and fined $10 and costs. The whole cost to the respondent, of firing the pistol in the face of Chesley, cannot be less than $30.

☞ The splendid ship "Sarah E. Pettigrew" was successfully launched on Saturday, from the new building yard of Marcy & Pettigrew, at the South part of this city. Ships were formerly built there; but it was doubted whether there was water enough there, in the right place, to launch the large ships built at the present time. Mr. Pettigrew's known skill in launching, however, obviated the difficulty;—and good ships may be built and launched at the South End, as this very fine one proves.

☞ Our full report of the Fair occupies so much space, that we have little room for other matter this morning. The list of articles in Jefferson and Congress Halls, made up on Thursday morning, will be found on the fourth (outside) page—and an extended mention of the Address, Premiums, &c., on the second (inside) page.

☞ In our "Field report" on Friday morning, we made an error in stating that "Pen No. 23 was occupied by a mare and colt, owned by Charles Hayes." It should have read,—one mare, 5 years old, owned by Wm. H. Donnett of Gravelly Ridge.

Also in Pen No. 21,—a handsome work horse, owned by Nathaniel P. Coleman of Newington. This pen was vacant when we passed, which accounts for our reportorial negligence.

☞ A term of the Suppose Judicial Court will commence in this city on Tuesday morning.

Thursday, Nov. 26th, is to be Thanksgiving day, in New Hampshire. So say the papers.

BOSTON BANKS.—The Boston banks have determined not to suspend specie payments. A large number of the Boston business men held a meeting on Friday, to consider their financial condition, and were decidedly opposed to suspension, yet recommended increased discounts. Mr. Amasa Walker said it was only a question of time—they must suspend at last. Except Mr. Wheelwright and Mr. Walker, no others seem to have spoken on that side; but the remarks show a great pressure on the merchants, and consequently on the banks.

☞ The North American Review for October contains an admirable, searching review of the Dred Scott case, as Reported and Published by Authority. It is a careful analysis of the different opinions of the Judges, as expressed by themselves,—and should be read by every man who wishes to understand the case for himself.

THE LEMMON SLAVE CASE.—Eight slaves, owned by Mr. Lemmon and his wife, of Virginia, being in New York *in transitu, en route* for Texas, were released on habeas corpus, by Judge Paine. An appeal was taken to the Supreme Court, and the arguments were commenced by Charles O'Connor for the owners, and W. M. Evarts for the slaves. The State of Virginia, however, is the plaintiff *de faco*, her Legislature having directed the appeal to be prosecuted at the expense of the State.

New Goods

FOR FALL AND WINTER WEAR.

CHARLES W. MARTIN,

In Chambers No. 22 MARKET STREET, (Over J. C. Carr's Shoe Store,)

HAS just received his elegant Stock of new Goods for Fall and Winter—for

OVER, DRESS, FROCK, & BUSINESS COATS.

Also a choice selection of French, English, and American

FANCY PANTALOON GOODS;

a rich display of Silk and Cashmere Vestings, which will be made to order at short notice; and in point of style, workmanship, fit, and quality of trimmings, will warrant satisfaction.

Garments cut for others to make.

Rockingham Fair.

THE Committees on Decorations and Tables wish to render thanks to the ladies and gentlemen who assisted in that laborious work.

The Committee on Music acknowledge much obligation to the Singers of our city, who performed in the evening at Congress Hall; also to the Dover Glee Club, for similar services.

LOST at the Fair in Congress Hall, a wrought Black Satin CARD CASE.

A Sheet containing 4 Wrought Collars.

If they have been taken by mistake, the person will be kind enough to return them to Mr. Preston, or Mr. Shores.

FROM EUROPE—3 DAYS LATER.

NEW YORK, Oct. 2.

The Royal mail steamship Arabia arrived this morning.

The Liverpool Cotton Market was again an eighth dearer, with sales during the week of 73,580 bales.

Breadstuffs were slightly higher early in the week, except Indian corn, which was steady at the advance. In wheat, the advance was subsequently lost, and the market closed dull.

LATER FROM INDIA.—Gen. Havelock, after having advanced to within one day's march of Lucknow, had been obliged to fall back on Cawnpore, on account of the cholera having broken out among his small force.

There had been several actions with the rebels at Agra, and martial law had been proclaimed at Bihar. The Governor General's body guard had been disarmed.

Several additional regiments had been disarmed, and others were thought to be wavering.

The troops at Segowell had mutinied and killed their officers.

A detachment of 300 European troops attacked the mutineers at Arrah, and were repulsed with the loss of 200 men.

At Agra, the Kota contingent and other rebels had been entirely dispersed.

According to the latest authentic news from Delhi, not only were the Europeans still before the place, but they had been strongly reinforced and a general assault was expected in a few days.

The Paris Journal Des Debats says: Although official despatches represented England as still holding out at Agra, we have reasons to believe that this intelligence will not be confirmed, and that the heroic garrison has been destroyed, along with the women and children under its protection.

FRANCE.—A panic had prevailed. On the French Bourse all securities fell, but especially those of the Credit Mobilier.

A general improvement in the trade of Paris is reported; likewise further progress in the fall of the price of corn.

SARDINIA.—A flood has occurred in the Vallee Aosto, entailing a loss of about 50 lives, and a large number of houses.

The attempt to lay the submarine telegraph from Sardinia to the coast of Africa, had proved a failure, the cable having broken in 40 fathoms of water, when the expedition was within 2 miles of the shore and the completion of the task. It was expected that the lost end would be recovered, and the line finished in a week or two.

AUSTRALIA.—The dates from Sydney are to the 18th and from Melbourne to 22d July.

The mail steamer brought gold valued at £373,000, and intelligence of further heavy shipments by sailing vessels. The production of gold was increasing. The price of wool had declined about 2d per pound.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54. cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youths' wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. EPHRAIM GREEN,

oct5 JACOB AUERBACK.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Rumedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but will tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to the common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

FIRST DAY.

CONGRESS HALL.

We have neither time nor space to describe particularly any of the numerous articles exhibited in Congress Hall. There were nearly 200 entries which come under the head of Fancy Articles, embracing needle work, paintings, flowers, statuary, and many other departments of nature and the fine arts. By far the largest proportion of the articles in the Hall were contributed by the ladies of Portsmouth, and it is but just to quote the universal remark of many old sight-seers, that this exhibition exceeded in beauty and interest any previous show of the kind held in this State. The delighted multitude—which amid all the outside attractions of the day, kept possession of the hall, crowding it to its utmost capacity, was a sufficient indication of the complete success of the department which the ladies of Portsmouth had taken under their especial patronage. We should not omit to speak in terms of praise of the tasteful and elegant manner in which Congress Hall was decorated with evergreen and flowers, wrought into many elaborate and beautiful forms, but all in perfect keeping and harmony. Mr. James H. Head, chairman of the committee on Decorations, is entitled to the credit of these beautiful designs; and his able assistants, with the many ladies, who lent their valuable aid to bring to perfection this feature of the exhibition, are entitled to the warm thanks of all interested.

Those contributors after whose names no town appears, are residents of Portsmouth.

JEFFERSON HALL.

Jefferson Hall was devoted to Fruits and Vegetables, Bread, Butter and Cheese. The display of Fruit was large and various, and is said to be the largest ever made at any exhibition since the formation of the Agricultural Society. The display of Apples, particularly, is deserving of attention, as the season has been particularly unfavorable. We notice that a very large number of contributions were from our Portsmouth gardens.

The Hall was neatly trimmed with flags of all nations, and received the commendation of the large number of visitors who thronged the Hall through the day.

FANCY VEGETABLES, &C.

Sweet potatoes by Abedoego Robinson of this city and D F Hayes of Exeter.

Mr Robinson also exhibited a peanut plant in bearing, which appears prolific. The seed was obtained from a store here.

Chinese Sugar Cane has received considerable attention in the county. Many specimens from 10 to 12 1-2 ft, and four specimens of syrup made from the juice. The best was thick, made by Mr M F Young of Stratham. Washington Haines of Newmarket has a specimen apparently burnt in boiling. Sherburne Blake of Raymond and D L Jewett of Stratham have entered a quantity for premium.

Albert R Hatch, dish cut-leaf filberts.

Specimens Hemp, by A Robinson; and of Gigantic do, 12 ft high, planted in May, by C M Meinerth.

Mr Meinerth has also 15 miniature plants which have grown and bloomed in 1-inch pots for 2 years.

Also a large sea-shell in which five plants were sown in Spring, and have been in bloom since July.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers in the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

this celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns, among which are the

DAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable pat terns in the market, for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be adjusted so as to give

An amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as most of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

The Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, on so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health is impaired; they begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would never be the cause of miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. A. L. CHEESEMAN, Box No. 4681, Post Office, New York City, can have them sent to their respective addresses by return of mail.

VOL. 11. PORTSMOUTH, N. H., TUESDAY, OCT. 6, 1857. NO. 56.

RECORD OF INTEMPERANCE.—Mrs. Tombette, residing in New York, who had for several days labored under delirium tremens, on Tuesday night supposed she saw her husband's ghost, and seized her two little children, and dashing them out of a second story window upon the pavement of the yard, jumped out after them. She was found rolling in agony through a puddle of dirty water; one child beside her, and the other in the cellar area, dead.

Monday afternoon, James McShaffley and his wife Catharine, who live in Spencer street, New York, got into a drunken quarrel, in which the husband struck the woman with his fists, and then seizing a crowbar, stuck her in the abdomen with such force as to cause a protrusion of the bowels.

GENS. SCOTT AND PILLOW.—Gen. Scott published in the National Intelligencer of Monday, a letter replying to Gen. Pillow's recent elaborate revelations respecting the alleged bribery of Gen. Santa Anna during the pendency of the war with Mexico.—He says:—

"I certify on honor that I never, at any time, paid to Gen. Santa Anna, or caused to be paid to him, or to annother for his use or benefit, one dollar or more, on any account or in any way whatever. President Santa Anna was at the time, as now, worth millions, and had, in that office, the irresponsible control of all the pecuniary means of his country. It is hardly probable, therefore, that he would have stooped to pick up a sack of ten thousand dollars in gold, if he had accidentally stumbled upon one in a private walk."

Pillow has tumbled into his own ditch

SUICIDE FROM PRIDE.—In Cincinnati, on the 29th of September, Mr. John H. Pidgeon, being financially distressed, and having been frequently disappointed in obtaining employment, resolved to commit suicide, and ended his life by taking laudanum. He left a letter to the proprietor of the hotel in which he was staying, informing him that the immediate cause of the act was his indebtedness for board, which he could not pay, and his pride would not suffer him to live under such circumstaces.

☞ Amanda Wilson, a girl who had recently been shipwrecked, and in consequence thereof partially deprived of her reason, was fleeced of $52 in Chatham street, New York, on Wednesday. A complaint was made before Recorder Smith against the saleswomen of whom she purchased clothing, and they were arrested and held to bail, each in $1000.

☞ A report that the ship Kate Hunter, at New Orleans from Calcutta, had been ordered to Boston, is incorrect. She is delivering her cargo at New Orleans, where it will remain except about 150 tons of saltpetre, which will be sent to Boston. The ship will take a freight to Europe.

☞ Rev. E. N. Hidden has been dismissed at his own request from the pastoral charge of the Congregational Church in Milford, on account of failure of sight.

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRIES INFLAMMATORY DISEASE—whatever be its term or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (whether acute or chronic) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the healthy balance between the fluids and solids. Such is its potency, that like vacuum matter, it requires merely what adheres to the point of an awl dipped into a solution of it, to affect the entire system.

NEW HAMPSHIRE FAIR.—The N. H. State Fair commences at Concord to-morrow, (Wednesday,) and continues through Thursday and Friday. See advertisement of half-price accommodation train on the C. & P. Road. There are no season tickets of admission to the Fair, but packages of eight tickets may be had for one dollar—single admission 25 cents.

The new Phenix Hotel is to be be opened for the reception of company on Tuesday.

The Concord papers state that the race-course has been graded and rolled, and seats sufficient to accommodate a large number, have been erected near the Judge's stand. There is now every appearance of a large and successful exhibition.

☞ The Maine State Fair was held at Bangor last week. Among other attractions was horse racing; lady equestrianism for prizes of 30, 20 and $15; and a balloon ascension by Mr. John Wise, on Thursday. The weather was fine. He ascended to a great height—his voyage was a little over an hour. Unfortunately, the wind drifted him into a dense forest, about twenty miles from the place of starting, and his balloon, the Young America, was a total loss. He was obliged to walk five miles through the woods, before he came to a settlement.

On Friday, the rain drowned out all the calculations, and prevented the horse trots and other amusements.

☞ The Great Falls Advertiser announces that Mr. Wise, the celebrated aeronaut, will make an ascension in his balloon "Young America," at Great Falls to-day, at about 2 o'clock. The citizens of that place have raised funds sufficient to defray the expenses of this novel exhibition, and no charge will be made for witnessing the inflation or ascension.

Now that Mr. Wise's balloon has been lost, we can't say what arrangements will be made.

UNCURRENT BILLS.—The following is a correct list of banks, the bills of which were not received at the Suffolk Bank on Oct. 1st.

Maine.—Exchange Bank, Bangor; Hallowell Bank, Hallowell; Hancock Bank, Ellsworth; Ship Builders' Bank, Rockland; Maritime Bank, Bangor; Ellsworth Bank, Ellsworth; China Bank, China; Central Bank, Hallowell; Sanford Bank, Sanford.

Massachusetts.—Cochituate Bank, Boston; Grocers' Bank, Boston; Manufacturers' Bank; Georgetown.

New Hampshire.—Exeter Bank, Exeter; Lancaster Bank, Lancaster.

It was rumored last week that the Pawtuckaway Bank at Epping had failed. It originated from the fact that the Pawcatuck Bank in Connecticut had suspended. There is no bank more sound than the Pawtuckaway.

Vermont.—Stark Bank, Bennington; South Royalton Bank, South Royalton; Danby Bank, Danby.

Connecticut.—Eastern Bank, West Killingly; Wooster Bank, Danbury; Woodbury Bank, Woodbury; Hartford County Bank, Hartford; Colchester Bank, Colchester.

Rhode Island.—The bills of none of the banks are received.

NEW YORK, Oct. 5.—The Bremen barque Bremen has arrived here with J. Tice, second engineer, Alexander Grant, fireman, and G. W. Dawson, passenger, of the Central America, rescued by the British brig Mary, and transferred to the Bremen.

Mr. Tice states that he drifted on a plank 72 hours, and on the fourth morning drifted by a boat and succeeded in getting into her. On the fifth day he picked up Grant, who had been five days on a part of the hurricane deck. Grant swam to the boat; the two then pulled for the hurricane deck and took from it Dawson. There had been ten other men on it, all of whom died.

Messrs. Tice, Grant and Dawson were eight days without water or provisions, the sea making a breach over them most of the time.

The rescued are in a sad condition, badly bruised, and covered with boils.

SHORT TIME.—This week the Newburyport Ocean and Globe Mills are to shorten their time from eleven to eight hours a day. It should surprise nobody if all mills should suspend entirely before the crisis is over.

The Bartlet Mills from a stoppage of two days in the week, will also come to short hours, running every day. It is presumed that the James will do the same.

☞ Look out for a chap calling himself "W. G. Ward, of San Francisco." He don't pay his bills,—in Concord or elsewhere.

☞ Fourteen barrels of liquor were seized in Haverhill, Mass., Friday evening last.

ADDRESS OF HON. J. QUINCY, JR.,

BEFORE THE

Rockingham County Agricultural Society,

PORTSMOUTH, OCT. 2, 1857.

Mr. Quincy, after a few preliminary remarks relative to the dignity of agricultural pursuits, and the comparatively large proportion of farmers to other professions in the community, proceeded to inquire into the comparative condition of the American and European farmers, referring to the incidents and experience of his recent prolonged visit to Europe. He alluded to the great interest manifested in agricultural pursuits in England by the nobility, none of whom can legitimately engage in the duties of any other profession than farming; and gave a somewhat minute, but very entertaining description of the World's Agricultural Exhibition at Paris last year, which was inaugurated and arranged on a princely scale of magnificence at the public expense. The exhibition building was of white stone, and of such perfect architectural proportions, that it seemed really like a small affair to the eye. Flags of every nation which had contributed to the exhibition, proudly floated in peaceful competition to the breeze. The immense dome of the central building was used for the cattle show, in which were arranged 1400 cattle, comprising 40 different breeds, which were learnedly described by Mr. Quincy, and their prominent points contrasted. This was certainly the largest collection of domestic animals ever gathered under one roof, and the modest deportment and good behavior of this world's congress of cattle fully attested their noble blood and aristocratic pedigree.

A laughable contrast was made between the fat, chunky pig of the south of England,—with its little legs which were an insufficient support to its unwieldy body, and its tail which appeared to have been driven in with a mallet—and the long, lank red bristled pig of the highlands, a sturdy, vagabond, yankee-looking animal, with an air which seemed to say, as his little eye first twinkled upon the orator, "Stranger, there is a good deal of rooting to be done in this world, and I am bound to have my share of it." Mr. Quincy being charmed with the character of red-bristle, contrary to the popular verdict, was still more delighted to learn that his friend had taken the first gold medal, over the heads of his more aristocratic and aldermanic competitors.

It was a rule of the Exhibition that the flag of any nation could not be raised from the building, unless its products were entered for exhibition. That good friend of America, Alexander Vattemere, learning this fact at a late hour of the day previous to the opening of the Fair, ascertained that the United States had made no entries, and that unless this omission were remedied, the stars and stripes could not wave in the appropriate position on this interesting occasion. He quickly improvised an exhibition on his own account, representing the most important staples of several states, by specimens of cotton, tobacco, rice and grain. The great state of New York exhibited two bottles of essences; Connecticut some single article of her manufactures, &c. &c. It was enough. The "banner of the free" was hoisted, and Mr. Vattemere was in raptures, and succeeded in impressing everybody else, even the committee on awards, with his enthusiasm,—receiving for his American exhibition two gold and three silver medals, and several "honorable mentions."

The speaker proceeded at some length to trace the state of agricultural labor in Europe, and contrasted the dependent social and political condition of the laborer under monarchical institutions, with that of the free American farmer; and concluded that the latter, confined to his field and to the range of a small extent of country, as the farmer generally is, did not and could not fully appreciate the peculiar advantages which free institutions afford to him. The American farmer is subject to no exorbitant and endless system of taxation; no compulsory military service; no unwilling allegiance to church or state; his farm is his own; he is master of his time and talents; he worships God according to the dictates of his conscience; and his children have the same part in our free system of education which is afforded to his richest neighbors.

Is not the depreciation of their own profession, too common, even among the intelligent farmers of New England? How many hold a secondary estimate of it, and wish to improve the condition of their sons by educating them for the learned or mercantile professions? deeming the position of the agriculturalist less profitable or less respectable than those of the lawyer, the physician or the merchant.—But is this so? In the mercantile profession, statistics demonstrate that success is the exception, failure the general rule; while with the thrifty farmer there is no such word as fail. While the promise given by the Creator of sunshine and rain, seed time and harvest remains, the farmer is as independent as man can be, subject to no contingency of banks, or speculating operations, for his daily bread.

Mr. Quincy proceeded to compare the relative advantages and blessings of mercantile and farming life; and of course, decided in favor of the farmer. After paying a just tribute to the memory of the Lawrences, who stand preeminent among those few who honorably amass great riches; he stated what sacrifice of real comfort, even they were obliged to make, to achieve their immense fortunes—what trials and troubles, of body and mind—what excessive and undue exertions; and finally, how watchful of ruined health, they were obliged to be in that portion of life which should be the happiest—reduced to the miserable expedient of living by weight and rule, to keep off dyspepsia.

In contrast to this, was held up the intelligent, industrious farmer—who, though he may not stand a chance for such great gains as the trader or speculator, yet is much more sure of a reasonable reward for his labors than any other class. And which, he asked, was the better instance to hold up as an example, for imitation by young men—that of the unusually successful merchant, or the more sure if less brilliant husbandman; one of which could be readily imitated,—the other, almost impossible to achieve, even if worth the trouble. As a comparison, he stated that experience proves that the result of a hundred trials of trading life will be about 94 failures to 6 successes; while of the farmers, 6 only would fail, and the 94 succeed reasonably well. And the farmer knows little of anxiety, such as now hangs over the merchants of our land—when men who today deem themselves rich, tomorrow may not be worth a cent.

The Orator alluded to the fact that nearly every citizen who has occupied the executive chair of the nation had been connected with agricultural pursuits, and that the late distinguished occupant of that highest station, who had been a deeply interested spectator at this exhibition of the farmers of Rockingham County,—whose father was a successful farmer as well as a gallant soldier and true patriot,—had expressed some intention of enrolling himself among the farmers of New Hampshire.—When he had witnessed that gentlemen, today, an interested spectator of a ploughing match of half-an-hour, during an uncomfortable rain, he could not help the reflection that the dignities and pleasures of agriculture were equal, if not superior to those of any other profession on earth.

At any rate, said he, it was some consolation, that if all farmers could not be Presidents, all the Presidents had been farmers.

In conclusion, the lecturer eloquently urged upon the farmers the duty of an intelligent and proud appreciation of their position, and resumed his sent amid the long continued applause of the audience.

In response to a call from the President of the Society and the audience,

Gen. PIERCE arose amid vociferous cheering, and said that it could hardly be desired, certainly not expected, that he should respond to the call of the Society at this late hour, when the numerous competitors were eagerly awaiting the announcement of premiums.—Besides, said General P., I have too much regard for this large audience, and am too deeply impressed by a sense of my obligations to the Rockingham County Agricultural Society for what I have seen and heard during the last two days, to mar the fine effect of the just, philosophical, eloquent, and let me add, patriotic address, to which we have just listened, by obtruding on the occasion any impromptu thoughts of mine.

I thank the orator for his allusion to my venerated father, and in response to his suggestion with regard to my own future, will say that if, as I hope, some years of usefulness are in reserve for me, I intend that the evening of my days shall be passed as its morning was, in the cultivation of the soil of my native State. (Great cheering.) I shall begin of course, after so many years devoted to other pursuits, as a pupil; but it will afford me pleasure, in two or three years, to show my friend, your orator, what progress the pupil may have made.

The well-known extensive commission house of Lawrence, Stone & Co., Boston, who were the agents for the Bay State, Middlesex, Pemberton and New England Worsted Mills, has suspended payment.—The senior partner is Samuel, brother of the late Amos and Abbott Lawrence.

MARRIED.

In Newburyport, Mr. David P. Clarke of Peterboro', N. H., to Miss Sophrona Titcomb, of Yarmouth, daughter of the late Capt. George Titcomb, both deaf mutes.

DIED.

FROM CALIFORNIA.

TWO WEEKS LATER.

NEW YORK, Oct. 4.—The Steamer Star of the West, from Aspinwall, 24th ult., arrived at this port at 6 o'clock, this morning, with 458 passengers and $1,268,734 in specie.

The Star of the West connected with the California, which was eighteen days making the trip to Panama on evening of 28th, and at Key West morning of 29th.

Among her passengers are Senator Gwinn, Gov. Foote, Hon. C. L. Scott, of California, and Col. Starweather, late U. S. Minister to Chili.

The U. S. frigate Wabash, and British ships Brunswick and Tartar, were at Aspinwall, and the U. S. ships John Adams and Decatur, at Panama.

The news from California is interesting.—The State election came off on the 2d September, resulting in the election of John B. Weller, and the whole Democratic ticket. The vote thus far stands: Weller, 40,000; Stanley, 27,000; Bowie, (Amer.) 27,000.

In San Francisco, the People's ticket, which sympathized with the Vigilance Committee, beat the Democrats 1800 votes. The election passed off quietly.

The Steamship Sonora, which connected with the lost steamer, Central America, is reported to have had but a small number of passengers, including several prominent citizens from San Francisco; 132 mail bags, containing besides newspapers 30,000 letters, and $1,595,497 in treasure.

The town of Columbia, Tuolumne county, was almost entirely destroyed by fire on the 25th of August. Only twelve buildings escaped. Loss $600,000.

A fearful explosion of gunpowder occurred in the store of H. A. Brown, instantly killing five men, and injuring several others. The burnt district is being rapidly rebuilt.

Mining is carried on vigorously and successfully.

A fire at March Bar, Sacramento county, on the 25th August, destroyed $25,000 worth of property.

A terrible riot occurred between a gang of rowdies and the citizens of Carson Valley; several persons were badly injured. The citizens had formed a Vigilance Committee with the determination of expatriating the whole gang.

California has decided to pay her State debt by a small majority.

The Constitutional Convention project has probably been defeated.

William Bein has been convicted of robbing the mint. The grand jury is investigating the affairs of the mint, which seem to be in a bad state. The defalcation of Harasthy, the late melter and refiner, to the amount of $152,000, and the detection of Bein, have led to the belief that all is not as it should be, and there is a general demand for a thorough overhauling of all its affairs.

The San Francisco markets were quiet under heavy importations.

OREGON.—The Constitutional Convention was in session.

In Washington Territory, a party of Indians broke into the house of Ebey, at Port Townsend, and murdered him. The family escaped. The United States troops refused assistance, and the residents took the law into their hands, and captured 10 Indians, who were to be hung.

The people of Carson Valley, and other places aejacent, hold a meeting and unanimously resolved to petition Congress to form a separate territorial organization from Utah.

Cholera was prevailing alarmingly in Guatamala. Mr. Venable, the U. S. Minister, had fallen a victim.

Cholera was also prevailing at San Salvador.

SPECIAL NOTICES.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.
sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

ROCKINGHAM FAIR.

We have already published the award of all the Premiums, except those for the Drawing Match—a report of which as yet we are unable to procure.

In another place will be found a few brief remarks on Mr. Quincy's capital Address—one of the best of the kind we ever heard. His allusion to the Presidents, and especially to Gen. Pierce, was peculiarly felicitous; and the reply of Gen. P. was neat, discreetly brief, and well received.

The complaint of the intelligent and discriminating Committee on Fancy Articles, Needle Work, &c., that the amount appropriated for Premiums in this department, is altogether too small—is just, and we hope the Society will be more liberal hereafter. Indeed, we think the offer of larger premiums would tend to put money into the Society's treasury. The Essex County (Mass.) Society offer $12, 11, 10, 8, $5, &c., for the best Butter, Cheese, Bread, etc.; and others in proportion.

Take it all in all, this was by far the most successful Fair the Society has ever held—as we promised it would be. The largest receipts at Exeter, we believe, were $500; while last year receipts footed up about $200; at the Fair in this city last week, we hear the total amount taken was upwards of $800.

We have given a full account of all that was to be seen out of doors; to the neglect, perhaps, of the splendid show in the Halls. We have attempted to publish a complete list of entries, but have doubtless omitted some articles.

A vast amount of work was done in a short time; but the result must have satisfied even those who labored the hardest.—The committee of arrangements merit all praise; and without wishing to appear invidious, we must congratulate all concerned, that gentlemen of such experience and taste as Messrs. Preston and Shores took hold of the matter. No little is due, also, to the officers and members of the Portsmouth Horticultural Society, who worked with a will.

We should like to make particular mention of many of the rare and beautiful articles exhibited; but of course all who feel any real interest in such affairs as this, were there to see and admire for themselves. We will venture, however, to speak of a few of the most prominent and attractive articles—not more worthy, perhaps, than scores or hundreds of others of which we have not time or room to make mention.

Portsmouth Linen.—Mrs. Isaac Jenness, of this city, exhibited at Congress Hall, some elegant specimens of linen of her own weaving upon a hand loom. The flax from which numerous table covers, towels and napkins were produced, was raised by her son—and the goods rivalled in whiteness any imported fabrics.

Miss Ann M. Black, of Portsmouth, exhibited an elegant piece of worsted embroidery—"David and Nathan."—It was the more worthy of notice, from the fact that Miss Black has entirely lost the use of one hand, and produced this elaborate specimen, "single handed and alone." (More anon.)

POLICE COURT.

FRIDAY, Oct. 2.

Before Justice Odell.—William Spinney and Walter Chesley were accused, by the City Marshal, of making a brawl and tumult on the first day of October. Plea, not guilty. Proved guilty, and fined $5 each; costs $8.56, to be divided. This was a drunken brawl, in which one of the prisoners shot the other, as before reported.

MONDAY, OCT. 8.

Bart. and Catherine Conner were accused of making tumultuous noises. Both plead not guilty. Considered guilty, and Bartholomew sentenced to pay a fine of $3.50 and one half the costs of prosecution, $2,50. Catherine was sentenced to the House of Correction for 20 days, and to pay one-half the costs, $2.50.

Some boys were brought up for breaking and entering several stores on Congress and Market streets, on Saturday night; but as the case was not concluded, we give no report of it.

☞ A friend calls our attention to the fact that in our full report of the Fair Procession, we made no mention of Flagg's excellent Band, from Boston. We should be sorry for this if they needed praise, or if anything that we could say would add to their exalted reputation. We did say, however, in another column, (in the same paper which contained that report of the first day of the Fair,) that Flagg's Band "well filled" the place of the Manchester Band—which is saying not a little. Many of our citizens were disappointed when it was known that the Manchester Band could not be present; but nobody could wish for anything better than the exquisite performances of Flagg's Band, while on the march, in the Field, or in the Halls. Long may *that* Flagg wave.

☞ Now that the out-door Promenade Concerts, by the Portsmouth Cornet Band, are concluded, and our citizens have formed a liking for this sort of entertainment; it is proposed by lovers of music and friends of the Band, to have an in-door series of the same sort. By the judicious liberality of citizens and the City Government, the Band is in a flourishing condition, financially; and everybody knows that their musical performances improve continually. The recent addition of two new treble instruments, is a great improvement both to their chorus and (indirectly) to the solo execution. Their instruments are sweetly voiced, and peculiarly adapted to in-door playing.

It is designed to have a series of eight Promenade Concerts, probably in Jefferson Hall—the proceeds to be devoted to the procuring of a handsome Uniform for the Band. Tickets for the course, only $1; single admission, 25 cents.

As is usual with such entertainments, the first part of the evening will be spent socially, with music by the whole Band; and after 9 o'clock, those who like it, can have opportunity for a dance—and all in comfort and quiet—no extra dressing or primping, or troublesome ceremony.

☞ The Rockingham County Musical Association, at their last meeting in this city, in January, passed a vote requesting the Board of Directors to call the next Convention in October, if deemed advisable; at such place as to them s emed best. It now appears probable that their next (third) Musical Convention will be held in New Market or Exeter, about the last of October.

GOOD BOOKS CHEAP.—Mr. Balch, a colporteur of the American Tract Society, begins to-day in our city the sale of the Society's books from house to house. The cheapness, beauty and goodness of these books, in all respects, commend them to such as would provide their families with safe and entertaining reading for the long winter evenings coming on.

The poor and needy will have a charitable remembrance. Will any family let pass the opportunity to add a few choice books to the family stock? G.

CONCORD AND PORTSMOUTH RAILROAD.—The annual meeting of this corporation was holden in this city on Thursday. Hon. Josiah Minot, President, called the meeting to order and presided. A motion was made to go into the choice of Directors, when C. L. Frost of New York moved that the meeting adjourn till afternoon, to enable those stockholders who might be engaged in the procession of the County Fair, to be present and vote.—The meeting again met at half past two o'clock in the afternoon, and proceeded to the choice of Directors, when Messrs. Josiah Minot, Charles L. Woodbury, Samuel P. Dow, Aaron H. Hill and Horton D. Walker, were unanimously chosen Directors of the Corporation. After remarks by Messrs. Frost, Woodbury, Thompson of Boston, and others, upon the future policy and prospects of the road, the meeting adjourned without day.

At a meeting of the Board of Directors, subsequently, Hon. Josiah Minot was re-elected President, and William H. Hackett Clerk.

We learn that the assessment ordered in September, has mostly been paid, and the certificates of stock will be issued shortly.

☞ The October term of the S. J. Court commences this morning, at the Court House in this city.

Ex-President Pierce visited the Navy Yard on Monday, and received the usual salute.

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54. cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All whoare in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. CONSOLIDATION

—OF—

EMERSON'S MAGAZINE

—AND—

PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

TERMS, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

Morning Chronicle.

BRIDGES BURNT.—On Wednesday night, near midnight, the Concord Railroad Bridge over the Merrimack River at Hookett, took fire in the roof about one hundred feet from the easterly end of the Bridge, soon after the passage of the Vermont Central Freight Train.—The bridge was entirely destroyed, so far as the woodwork is concerned.

The wind carried the flames so as to reach the highway Bridge, immediately north of the Railroad Bridge, which was also burnt, together with the store near the westerly end of the Railroad Bridge, occupied by J. T. Goss.

Insurance on the Railroad Bridge, $15,000. The piers and abutments are uninjured.

There was no insurance on the town bridge. The store was owned by W. P. Farmer.

The stock in Goss' store was valued at between three and four thousand dollars. Insured in the Atlantic company of Providence for $1,500. The woodwork of the bridge cost about $20,000.

The railroad bridge is to be rebuilt immediately.

THE STEAM BOILER EXPLOSION at New York, at the plaster mills of King Brothers, announced by telegraph, is attributed by some to the carelessness of the engineer, while others say the boiler was totally unfit for use. Three buildings were reduced to a heap of ruins, and such was the force of the concussion that the telegraph poles in front of the block were forced out and the wires broken. Until the ruins are cleared it will be difficult to find out how many are lost. The explosion was instantaneous and without warning, burying some thirty persons. A large number were injured. A woman named Catharine Dugan was dug out of the ruins, dead.—She was apparently crushed over a trunk, and was horribly disfigured. The buildings were valued at $4500, and were insured for $2000. The factory and stock, including machinery, were worth $10,000; insured for $5200.

BUTTER AND CHEESE.—A correspondent of the N. Y. Journal of Commerce, at Palmyra, N. Y., writes that the people of that city need indulge no apprehension of any scarcity of dairy food, such as cheese or butter, as the quantity of those articles produced the present season in the great dairy counties of the State, exceeds that of any previous year by about one-third. He estimates that in the counties referred to, there have been made at least 70,000 firkins more butter than ever before in one season.

GAMBLERS AT NEWBURYPORT.—There was quite a breaking up of gambling parties in Newburyport on Wednesday night.—The City Marshal, with a posse of police, made a descent upon the St. Charles Saloon, and also upon the La Fontaine House, and arrested twenty-one sporting gentlemen, besides seizing three prop and faro tables. They were brought before the Police Court and fined $12 and costs, each.

☞ Mrs. Geo. P. Horton, wife of the innkeeper at East Poestenekill, Pa. left her child in bed, sound asleep, while she went to a neighbor's. On her return, she sent the servant girl to take up the child. She immediately returned and informed Mrs. H. that the child was dead. The intelligence so affected the mother that she at once frothed at the mouth and died in twenty minutes.

CALL ACCEPTED.—We understand (from the Newburyport Herald,) that Rev. D. M. Reed of the Universalist church, has accepted a call to settle over a society in Peoria, Illinois. We regret, (says the Herald,) he leaves, where his talents are appreciated by all, but we hope he will have much success in his new home. His resignation takes effect November 1st.

☞ There were no services at the Rev. Mr. Frost's church, at Concord, Mass., on Sunday last, says the Bunker Hill Aurora, for the reason, as we understand, that the gentleman who expected to supply the pulpit on that day, got on the wrong track and took the cars to Concord, New Hampshire, where he had the pleasure of listening to a good sermon, and learning a good lesson for his future guidance.

Gov. King, of New York, upon application of the Judge and Jury, and on petition of a large number of people, has commuted the death sentence of Wm. McAllister to imprisonment for life. He was convicted of arson, and is eighty years old.

☞ A shot tower, located at the foot of Fifty-fourth street, East River, N. Y., was destroyed by fire on Wednesday evening.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Subscriber respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that a child can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to ticket holders.
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia
Prizes paid in full—no percentage deducted from prizes as other lottery dealers do.
All communications strictly confidential. m181y

LOTTERIES.
The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO are the managers, are chartered by the state of Maryland, and a commissioner appointed by the people, who are sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month, if no particular scheme is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE.
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal.
SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Magee's Patent Ventilating Stove.
FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and is none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, bringing nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,681, Post Office, New York City, can have them sent to their respective addresses by return of mail.

FISHERMEN.—A vessel arrived at Gloucester, on Friday, from the Bay of St. Lawrence, reporting that the vessels have done but little during the past four or five weeks. Mackerel were scarce, and the weather very rough; during one fortnight but two days were obtained in which vessels could go out to fish. Some of the vessels were coming home with half fares.

☞ The sale of the Contoocook Valley Railroad, by auction, took place in Depot Hall, Concord, on Thursday afternoon last. Only one bid was made—$30,000—by Gen. Robert N. Corning, of Concord, and it was struck off to him.

☞ A son of Mr. Geo. G. Sanborn, of Concord, N. H., about six years of age, fell while attempting to climb the stalk of a sunflower, in his father's garden, breaking a bone, and dislocating the shoulder.

☞ Mr. John P. Somerby, of East Boston, formerly of this city, was presented with a splendid and costly Cap and Belt, last week, by the Fire Company of which he is Foreman. Good—he is worthy of such honors.

"GOLDEN" (half-century) and "silver" (quarter-century) wedding celebrations, are becoming quite popular, wherever the rare occasion for them offers.

The anniversary of Brown's marriage occurred yesterday, whereupon we asked him why he didn't celebrate the event by a "tin wedding?" "Have n't got the tin!" said Brown.

☞ The milk dealers in New York have raised the retail price of their fluid to seven cents a quart.

If the banks suspend now, we believe they will pay dearly for it. It cannot be denied that a deep feeling exists that we have too much paper currency, that under the present banking system, there will always be fluctuations in business and periodical distress. If to this distrust is now added the odium of bad faith and dishonor, banks will not be sustained. The people will demand gold for paper, specie for credit, and that the millions of worthless notes passing under the name of currency, which have tempted the speculation, extravagance, over doing, of the last few years, shall be swept away with their attended evils.—*Newburyport Herald.*

HOOKSETT BRIDGE.—We understand that the Concord railroad has made arrangements for the transmission of all freight above Hooksett by running their freight over the Maine road to New Market Junction, and thence over the Concord and Portsmouth road. Messrs. Childs, Dutton, and Woods, well known bridge builders, have made a contract for the new bridge. A ferry boat will be put in use to day to facilitate the more speedy transmit of passengers across he river. The loss of the bridge will not be a serious inconvenience to passengers in fair weather.—*Manchester American.*

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is the power of this like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the best and most spikes of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

WEDNESDAY, OCTOBER 7, 1857.

DON'T! DON'T!—We have already republished the New York Tribune's statement that Matthew Hale Smith "was originally a Universalist clergyman, but subsequently adopted the profession of law;" and we added that he was also an orthodox congregational minister in Boston and Nashua, &c. The Christian Freeman denies that M. H. S. was *originally* "a Universalist clergyman, for he was originally a Baptist." Against this the Christian Era (Baptist) protests, in these words:—

Now for mercy's sake don't put off Matthew Hale Smith upon us. We don't want him, and we don't believe we ever had him. He certainly was never a Baptist minister, and we want proof that he was ever a Baptist church member. If he was, it is not strange that he went out from us. We humbly, sincerely pray the Freeman will not put Mr. Smith astride our shoulders.

No, no, says Uncle Toby; he shan't ride there. He was never a Baptist minister, and not, that we ever heard, a member of a Baptist church.

He might, possibly, when very young, have been a member of the Christian Society, of which his father, Elias Smith, was the founder, though we have no knowledge of such a fact.

But it is certain, that at the age of 19 years, while his father was preaching universalism, Matthew Hale began to preach the same doctrine, and continued to do so for a few years, when he turned a somerset and came out an orthdox congregational preacher, a famous Anti-Universalist Lecturer; and the writer of a wonderful book against universalism and universalists, which book the American Tract Society publish as a tract for distribution.

After some years M. H. S. abandons the ministry, as he says, for the law, and resigns his membership in the Suffolk South Association, by letter, in which he deems the two professions incompatible! The Association unanimously dismiss him.

Next, he goes to the Episcopal Church, and tried to get into its ministry, in New York, we think, but failed.

Then, he comes back to the Suffolk South Association, and asks his old neighbors for readmission, which request was *unanimously* refused; and lastly, he is Mrs. Bogus Burdell Cunningham's counsel in the New York Courts, and advertises, in the Tribune, his preaching appointment for Sunday, in the 17th Presbyterian church.

There: the Baptists need not take him: no Society seems to want him to ride on its shoulders, unless the Tract Society does,—and we should think it about time for them to shake him off, and his books, also, as they are about equally reliable.

☞ For a recent striking example of female horsemanship, at the horse show at Galesburg, Ill., the highest prize (a gold watch worth $150) was awarded to Miss A. R. Adcock, of Henderson Grove, who appeared, mounted on a pretty little filly, without any saddle. In this way, she managed her horse with a grace and power of command that would be considered creditable at Franconi's, and which gained for her repeated showers of applause. So remarkable was her case, and the firmness of her seat, that the lookers on, and even the judges, suspected that she had a stirrup fastened to the horse's blanket, on which she sat. At this she dismounted, and amid repeated shouts of approbation, showed that she had depended upon nothing but her own art and courage to maintain her position in the evolutions which she had performed.

FATAL ACCIDENT.—The train which left Boston at 5 o'clock on Saturday evening for Concord, N. H., ran over a man named J. P. Hanscomb, at Tyngsboro' station, so that he died in about an hour after.—Both legs and an arm were crushed off.—He was a passenger from Lowell to Nashua and had stepped off the train to speak with a friend while the cars stopped at the way station. In attempting to get on again, after they had started, he lost his footing and fell underneath the wheels. His wife and child were on board the train when the accident occurred, returning home to Nashua with him.

GRANDILOQUENT.—A young man answering an advertisement for a situation in one of our city stores writes, that he resides among the granite hills of New Hampshire, the home of Gen. Pierce, and the birthplace of the great Webster, and says he possesses a common English education.—*Boston Trans.*

Very likely all this is true—but if he had added that he possessed common sense, —then Query?

SOMETHING DROLL.—The Boston Traveller contains a long editorial, against the election of Mr. Banks, as Governor, because, as the writer alleges, he was unfaithful to freedom, or free labor, in one instance. And because of this, it is expected or desired that the friends of freedom will vote for Mr. Gardner, or Mr. Beach. But on what ground? Surely not of freedom—for they are both decidedly "National"—and if either of them should happen to be elected, such a yell of delight as will go up from all Pro-slaverydom, must be very delightful to the ears of all those who like that kind of music.

☞ The Atlantic House on Salisbury Beach, was burnt to the ground on Monday morning, between 6 and 7 o'clock.—The house had been open two seasons, and was owned and kept by Mr. Alfred Titcomb, and was worth some $2,500 as estimated by the Newburyport Herald. The House was insured at one of the Boston offices for $3000, the furniture at the Quincy office for $1200. The keeper had $500, the bar keeper $100 in money, which was burnt

Fire, it is said, was first seen in the roof, and the flames burned up brightly, making a brilliant display, plainly seen in Newburyport and along the roads.

THE GRAPE IN FRANCE.—Under the preserving use of sulphur on the vines, for several years in succession, the grape disease in France seems to have become extinct.—The Paris correspondent of the New York Journal of Commerce, under date of Sept. 10, says, "throughout the vine-growing departments, the main difficulty is an adequate supply of casks and bottles, of which the prices are consequently too high. We cannot remember a year in which our fruit market exhibited greater plenty, variety, or superior quality."

JAIL BREAKING.—We learn from the Dover Enquirer that the jail in that place was broken into on the night of Sept. 28, and two prisoners named Timothy R. Perkins and John Rogers, who were concerned in robbing a store at Rochester, liberated.—A reward of $100 is offered by the jailor for their apprehension.

The underkeeper who had charge of the prisoners states that he was set upon by one of them, who bound him hand and foot, and placed a gag in his mouth, took the keys and fled; and in this situation the man was found in the morning.

☞ Mr. Benjamin Burnham of Kennebunkport, caught in a trap, on Wednesday last, an animal of the wild cat order, measuring three feet from the tip of his nose to the end of his tail, and weighing nearly one hundred pounds. He was attended by his mate, which fled when Mr. B. made his appearance with his gun.

☞ Andrew Tetherley, of Dover, is erecting a large building on Central Square —"of a composition of cement, lime and small rocks—14 inches thick." The building is to be 65 by 30 feet, three stories;—and if the experiment succeeds, will be the handsomest structure in Dover. The front of the lower story is iron, the rest brick; and is intended to imitate freestone.

STEAMBOAT COLLISION.—FIFTEEN LIVES LOST.—*Dubuque, Iowa, Oct. 5.*—The steamer Ben. Coursin was run into by the steamer Key City, about 2 o'clock yesterday morning when near LaCrosse, on the Mississippi River, and sunk immediately in fifteen feet of water. Fifteen of her deck passengers were drowned. The steamer Ben Coursin is a total loss.

THE SAFEST INVESTMENTS.—In the long run, those men get to be richest, as all past experience proves, who invest most of their surplus capital in good mortgages and real estate. It is astonishing how fast a fortune accumulates, even at six per cent, if dividends and rents are invested quarterly, or even semi-annually.

WOULD N'T THEY?—Had the Republicans been successful in the Presidential election, would not the Hunker journals have attributed that success as the cause of all the financial troubles now upon the country? Of course they would.—*Manchester Amer.*

QUEBEC, Oct. 5.

The Canadian screw steamship Anglo Saxon, from Liverpool 23d ult, arrived here to-day, bringing four days later intelligence than received per Arabia at New York.

LIVERPOOL, 22d, P. M.—The market for Cotton is generally unchanged.

The sales for the past 3 days foot up 14,000 bales.

Provisions are inactive.

In breadstuffs there has been a declining tendency.

Wheat is dull, with a decline of 3d per bushel from last quotations.

Consols 90 1-8 a 90 1-4.

There is no really later intelligence from India, but interesting details from the last mails continue to be published.

General Havelock has resumed his march on Lucknow.

Small detachments of British troops were being sent overland by the mail route.

Gen. Reid died before Delhi.

Another mutiny in one of the native regiments at Bombay had been suppressed.

Great fears were being felt for the Indigo district.

The merchants of Calcutta had sent a strong petition to the Queen, to take the control of the Indian Empire into the hands of the British government.

Gen. Banks, who commanded in the recent engagement at Lucknow, was killed.

From Shanghai the dates are to the 15th. Teas were coming forward, and a large supply was anticipated if the route continued open.

The street preaching in Belfast had been stopped. On Sunday there was considerable excitement, but only a slight disturbance.

The session of the States General of Holland has commenced In the King's speech it was stated that the question of the abolition of slavery in the West India Colonies would be again brought before the Chambers.

WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseased hair, or scalp, read the following and judge of the articles.

MRS. S.A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in case of hair falling, &c, without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its effects," &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. H. MOORE, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.

REV. M. THATCHER, 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has met my most sanguine expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. R. C. SMITH, Plattsburgh, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatanque Co., New York.—"I am satisfied and recommend it"

REV. B. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York, "Recommends it."

☞ The body of Mr. Ormond F. Hanson, of Brentwood, N. H., who was drowned at Hampton Beach, Sept. 12th, was picked up at sea, off Cape Neddick harbor, Sept. 28th, by Mr. William Lafayette Armstrong, and was carried to Brentwood for burial.

This body was doubtless mistaken to be that of a woman, reported seen off our harbor, a few days since, by boys from Newcastle.

☞ On Thursday night, the Store of J. M. & D. D. Smith, New Boston, N. ☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MORES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

LOCAL.

THE FAIR.

Prominent, if not chief, among the attractions in the Field, was an Aviary, or beautiful collection of Birds and Fowl, entered "for exhibition only," (not for premiums,) by Mr. H. M. Carter, of this city—who must be quite a bird-fancier, judging from the fine quality of the specimens here displayed. His flock on the field numbered upwards of one hundred birds: among them, white and red ruff-neck, and fan-tail Doves; black tumbler Pigeons, Canaries of the common sort, and also the long German and the Antwerp breeds; double-cap Poland Ducks; black Spanish hens, Bantams of two kinds, and other fowl less rare. The whole were arranged with good taste, and formed a very attractive feature in the exhibition; and doubtless revived the hen-fever in some who deemed themselves free from danger of another attack.

Mr. David M. French, of New Market, had on exhibition at Congress Hall, a beautiful Marble bust of Psyche, which was designed and completed by himself in less than eight weeks. This statue won the commendations of the multitude, and elicited much praise from those competent to judge of its merits as a work of art. Mr. French is a young man who has had very little practice or instruction as a sculptor; and this is said to be his first production; but he is unmistakeably an artist, stamped as such by nature. Mr. French also exhibited some specimens in cameo.

Dr. Fuller's display of Dentistry was elegant, and as usual, superior to anything else in his line. The working model, full and partial sets of teeth, instruments and gold filling, proved highly attractive; and the numerous inquiries relative to the new method of restoring broken teeth by crystal gold, required the constant attendance of Dr. G. S. Fife, one of Dr. Fuller's assistants, for explanation.

Dr. Samuel Baker also made an exhibition of plate work, and several items intended to prove his favorite theory of the destructive effect of saleratus upon the teeth. Whatever may be thought of the theory, there were certainly two French jaws, (one four, the other thirty years old) with all the teeth complete—for the reason, Dr. B. says, that the French government forbids the use of saleratus.

The Pencil, Crayon, Water Color, Grecian, Oil, and other Pictures, formed a fine gallery. The Crayons by Mr. Meinerth and pupils, and others, bore well the close examination they received; Mrs. Lamprey exhibited beautiful specimens of her unexcelled Water Coloring, and there were several other creditable pictures of this style; and the Oil Paintings of Miss A. E. Morrison will rarely be equalled, especially by a lady amateur—besides which there were two or three fine oil pictures from other lady contributors.

The contribution of Flowers, Boquets, &c., were very numerous and beautiful. The most extensive and elaborate display of this sort was from the Highland Nurseries at Stratham, (Jas. H. Diman's): a rich and tasty display of brilliant Fall Flowers and boquets; and on an arch, the inscription in floral letters, "God's messages of love." The Circle of Asters, sent by Mrs. A. H. Ladd, was very beautiful.

The only specimen of Writing was by Miss Sophia Furbor, of Newington,—a very handsome inscription in numerous styles of fancy and difficult lettering.

Among the numerous Quilts, was a white one from Mrs. Sarah White of Newcastle, aged 80, who made the whole with her own hands this summer, from the raw material, knit in the form of shells and sewed together, and much admired for beauty.

Our estimate of the value of Town Teams in the Fair Procession, was hastily printed altogether too low. The hundred and fifty yoke of oxen were probably worth nearly $25,000—or about $200 a yoke.

DIED, in this city, on Sunday evening Oct. 4th, Capt. Jacob Cutter, aged 36 years 2 months.

The Funeral will take place this morning (Wednesday) at 11 o'clock, from his late residence.

The deceased was for many years a merchant, in this the place of his nativity; and was eminent in his business, for activity, energy and perseverance. He was a son of Dr. Ammi R. Cutter, and brother of Dr. Wm. C., both eminent physicians; and he was himself, for a long course of years, one of our prominent citizens, of the generation which has almost passed away.

☞ We are pleased to learn that Mr. Wm. Shillaber, of this city, who was so severely and dangerously jammed on the N. Y. Central Railroad, in Connecticut, a few weeks ago, has recovered sufficiently to be brought home; though still weak and ailing.

POLICE COURT.

TUESDAY, Oct. 5,

Before Justice Odell.—Two boys were brought up, accused of breaking and entering the shops of Messrs. Harding, and Hahn.

One plead guilty—the other not guilty. Both were held to bail in $400 to appear at the S. J. Court, and for want of bail were committed.

SUPREME JUDICIAL COURT.

TUESDAY, Sept. 15, 1857.

A trial term of this Court was commenced in this city, on Tuesday,—Judge Fowler presiding. After prayer by Rev. Mr. Whiting, the Grand Jury were empannelled as follows:

Samuel Neal, So. Newmarket, Foreman.
John Little, Atkinson,
John Gordon, Brentwood,
True French, Candia,
Nath'l. Dearborn, jr., Deerfield,
Samuel Fogg, Hampton Falls,
Joseph Moulton, Newton,
Daniel Kelsey, Nottingham,
Joseph Armstrong, Windham,
George Janvrin, Stratham,
Daniel Beede, Fremont,
Nathan P. Abbott, Hampstead,
David Pecker, Raymond,
Joseph H. Weare, Seabrook,
Jacob E. Morse, E. Kingston,
Hendrick D. Batchelder, N. Hampton.

For the Chronicle.

MUSICAL.—*Messrs. Editors*:—"Mozart's Requiem Mass" has been rehearsed, the two last Sabbath evenings, by "Lawrence's Orchestra," in Epping, to a Parlor Grand Piano, with the full orchestral accompaniment of wind and stringed instruments, assisted by Professor Bond of Boston, as leader of the orchestra. Last Sabbath evening the soprano solos were sung in course by Miss Mary E. Durgin of Exeter. Never before these rehearsals, have all the parts been played in this region. When in Portsmouth last winter, the clarionet, horn and viola parts were omitted. Without them, the ear is not satisfied. They are needed for variety, and sustaining tone, as also fineness.

This is probably their last rehearsal, as there is no one association of singers about here who can perform the vocal parts, and Mr. Lawrence's engagements as agent of a foreign house, necessarily demand all his time, so that he cannot prepare a concert. After some forty years' study and practice of the "divine art," he retires and leaves others to fill his place. Q.

Epping, Oct. 6, 1857.

We regret to learn this, and protest that it is not fair. Mr. Lawrence brought his orchestra down here last winter; and in spite of a tremendous storm, was received with a good audience. And this for the instrumental part of the Mass only, with some tunes by the Old Folks' Choir. He then promised that he would come again, and bring out the entire Mass—and those who heard the first performance, will not excuse the omission of that concert. No performance here ever gave more complete satisfaction than that of the instrumental portion of the Mass; and in the name of good music, and all who love it here, we call for the whole piece,—with the strong orchestra Mr. Lawrence now has, and the aid he can procure in our city.

As to Mr. L. quitting the musical field—he can never do that till his "harp" is worn out. Few men have labored so much, so intelligently, or so successfully, in this part of New Hampshire, to elevate music, as he; and we know of no one who could or would take his place. His resignation will not be accepted.

DEATHS IN PORTSMOUTH.—The record of mortality in this city, for the month of September, as furnished us by the Superintendent of the City Hearse, is as follows:

Males seven—aged 57 years, 47, 34, 31, 31, 3, 2.

Females four—aged 25 years, 2, 1, 1. Total for the month, eleven deaths.

☞ Rev. Austin Damon, who has been supplying the pulpit of the Independent Christian Society, at Hanover Street Chapel, for the last few weeks—on Sunday last at noon, baptized at Noble's Island, twelve applicants for admission to that church.

Rev. Thomas Holmes resumed his pastoral charge of this Society, last Sabbath, after an absence of four years. He was pastor of the Pleasant Street for three years; and accepted a Professorship in Antioch College—to the regret of his society and almost against his own will—where he remained about two years. He has since spent two years in travelling in Europe; and now returns to his old charge, with the glad welcome of all. No other has filled his place in the hearts of that people, since he left them.

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instruments, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal bass, will produce the effect of a large organ, and is sufficient for heavy to fill a house that seats from 1000 to 1500 persons.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54. cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. EPHRAIM GREEN,

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, NORTH MICH., 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I saw you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its natural beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effect; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do bestow cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 25, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BREESE, ex-Senator, U. S.

CONSOLIDATION
—OF—

EMERSON'S MAGAZINE
—AND—
PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these two favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and drawings of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send money for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize, (tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of the numbers on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $80,000; every prize being paid and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel with the amount each ticket is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Money can be sent at the percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are now drawing in the city of Washington, a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tennessee combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawings mailed to all purchasers immediately after it is over.

The drawn numbers of the Maryland Lotteries are published in the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to marriage, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand and all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as fresh as the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be gained, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONFINED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualitications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restore nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. I all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their residence or address by return of mail.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but that ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, how it does this?—simply by restoring the just balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and the discovery, must be the judge.*

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

THURSDAY, OCTOBER 8, 1857.

"Clerical."—The Journal contains the "speech" of Reverend Henry Ward Beecher at the National *Horse* Show at Springfield.

Reverend Henry Ward Beecher 'preached' upon the *monetary* panic in his *church* at Brooklyn, N. Y., on last Sabbath.—*Charlestown Adv.*

Uncle Toby went to the Cattle Show, the other day, and there he saw a clergyman or two. If it had been a horse show, it might have been all the same: and if any good men may go, innocently and properly, either to horse or cattle shows, and speak there—why may not clergymen?

The Rev. Mr. Beecher did preach about men's duties in regard to money, on that Sunday, in his church,—and eight or ten thousand people, in and round it, tried to hear him, though of course all could not do it.

So also, did Jesus of Nazareth preach in Jerusalem, saying, "Make unto yourselves friends of the mammon of unrighteousness, that when ye fail, they may receive you into everlasting habitations.—Lay not up for yourselves treasures on earth, where moth and rust corrupt and thieves break through and steal,—but lay up treasure in heaven," &c.

From these words, or such as these, Mr. Beecher, and we dare say Mr. Chapin, and hundreds of others might preach—and if Jesus did, why may not they?

Massachusetts.—In the Boston Police Court, on Tuesday, as we learn from the Boston Journal,—Thomas J. Bird was ordered to pay costs and give bonds in $200 to keep the peace six months, on the charge of threatening bodily harm to the person of Noyes Wheeler.

Catharine Hurley of Quincy, for violation of liquor law, was sentenced to pay a fine of $10 and costs, and twenty days in the House of Correction, and thirty days additional if fine and costs be not paid, and bonds not to violate again for one year. Same for second offence.

Mary McCarty of Quincy, received the same sentence for one violation.

Cornelius Horgan of Quincy, received the same sentence.

In the Norfolk Co. Court of Common Pleas, on Monday, commenced the trial of the Commonwealth *v.* Driscott, appellant, of Quincy, for a violation of the liquor law. Verdict of guilty; sentenced to pay a fine of $10 and costs, and 60 days in the House of Correction, if the fine and costs be not paid, and the usual bond given to keep the peace.

Albert Henry Wiley and John M. Adams of Medway, were sentenced to pay a fine of $10 and costs, and 60 days in the House of Correction, and 20 days additional imprisonment if fine and costs are not paid, for a violation of liquor law.

☞ A Mormon Conference, composed of delegates from Delaware, Pennsylvania, Maryland and New Jersey, was held at Philadelphia, on Sunday last, when it was announced that the Saints would strike their flags, and give up all hopes of converting the unbelieving, stiff-necked Gentiles, in the regions round about, to the belief of Jo. Smith and Brigham Young. Their publications have ceased and their conventicles are closed.

☞ Going down Amherst street a day or two since, says the Manchester American, we came across one of the unwashed millions sitting upon his wheelbarrow, and striving to enlighten a brother man as to the cause of the hard times. He gave doubtless the reason which had been given him, and it was to this effect:

"Why, yer see the north has been talkin' about slavery, and abusin' the south, and the south has just put up the price of cotton, and shut up the mills, and now see where yer be."

A Vigorous Old Age.—Mrs. Lucy Osgood, of Salisbury, who is now in her 97th year, for two years has attended the "Cattle Show" in Newburyport. This year, she walked from the north-end and visited the Fair, apparently no more fatigued than half the girls who had never seen twenty summers. Since she was ninety years old, she has walked from Salisbury, and experienced no inconvenience therefrom.

☞ Among the criminals who entered the New York State Prison, at Auburn, was a palsied old man, seventy years of age, and a complete invalid, who was put in for life for wilful murder. He is unable to help himself at all, in consequence of a palsied side. He is from Chenango county, where he killed his own brother with a common clothes pounder, by knocking his brains out while asleep.

EXETERIANA.

Exeter, Wednesday, Oct. 7.

Dear Chronicle:—Probably there never were so many Exeterians in Portsmouth on one occasion as on Thursday of last week. Early that morning every team that could be obtained from the livery stables was in demand, and not less than four hundred persons visited your city, many for the first time in their lives. As there were only about a dozen left here (half of whom were the jail prisoners, who would have gone if they could,) we concluded that a "deserted village" was more endurable in poetry than in practical prose, and therefore "went in with the crowd."

Individually we voted the whole proceeding a complete success; collectively our citizens acquiesced in this opinion *nem. con.* We must say it surpassed all the exhibitions of the kind we ever witnessed here. The receipts were also larger than ever before. We learn that six new members were added to the Society from Portsmouth and three from Newington. Exeter has one hundred and sixty members. The only fault found by any one was that the balls were not large enough—an undeniable fact. Mind and make your new City Hall, which you are soon to build, larger than our Town Hall!

The reporter of the News-Letter was in Portsmouth on Thursday. He says he "dined at a neat little saloon—if dining it could be called—taking only a bit of pie and a cup of tea." If we should seek to be facetious we might term this an example of genuine *piety* (pie *et* tea); but for fear your readers might not see the point thereof we will not say anything of the kind. However, this important fact demonstrates that the fears of a scarcity of provisions on the day of the Fair were perfectly groundless.

The Manchester Mirror, speaking of Commodore Long, who has recently been appointed to the command of the Pacific Squadron, says that he is the only native of New Hampshire who ever attained that rank. He was born in Portsmouth, but for several years has made Exeter his place of residence. This community will be glad to know that he has entirely recovered from the fall he experienced on board the Cyane. This gallant officer sailed last week from Boston.

There have been two meetings of mechanics held here to devise means wherewith to obtain provisions and groceries at a less exorbitant rate than present prices. They voted, we believe, at their last meeting, to form a union company, to buy and sell goods, but as yet have opened no store in town.

There is a letter advertised in the Post for John Smith. It is a little singular but, if we are not mistaken, letters for the same individual are advertised in the Boston, New York and Philadelphia offices.—Perhaps "J. S." is used for man in the concrete, as the author of "Milanwatha" says in his preface.

According to one of your city papers, (which states that twenty-five houses have been built-in Portsmouth the last year,) our ciphering informs us that there have been just twenty-five more buildings erected in Portsmouth, during the past year, than in our town.——The U. S. Circuit Court sits here on Thursday.

Yours, *y. c.*

☞ Among the ladies of the emperor of Morocco's seraglio are two French women, who were taken prisoners by Abd-el-Kader, and presented by him to the emperor. The French government offered to ransom them some years ago, but they preferred to remain in the seraglio.

☞ A little son of Richard Thompson, Milton, N. H., aged 4 years, while returning from school, in company with other children, attempted to climb a pile of logs by the road side, when the logs gave way and buried him beneath them, killing him almost instantly.

☞ Henry T. Wiswall, Esq., of Dover, has raised three French squashes from seed procured at the Patent Office; weighing 143, 135, and 86 pounds. There were also smaller ones on the same vine weighing 70, 50, 20, and so down. The largest was exhibited at the Rockingham Fair.

☞ Miss Margaret Somerville, third daughter of R. B. Somerville, M. P., was killed by lightning at St. Michaels, county of Huntingdon, Canada, on Monday evening last. The young lady was sitting at the window inside the house, with an infant sister in her lap.

☞ In the Albany Court of Oyer and Terminer on Wednesday, the Grand Jury presented an indictment against Robert Morrison (the owner of the pet bear which killed two men) for manslaughter in the third degree.

Wife Murder near Norristown, Pa.—On Friday last, Thomas Kilby Bates, a resident of Upper Marion township, near Norristown, Pa., while laboring under mania-a-potu, murdered his wife with an axe. He at first told the authorities that the deed was done by three negroes, but he prevaricated so much that he was afterwards forced to confess his own guilt. The murdered woman had an infant child sleeping in her arms when she was slain. The body was buried the same afternoon. She was an interesting young woman, of an English family, and had no blood relatives in this country, except her three young children. The trial of Kilby will take place in the Court of Quarter Sessions of Montgomery county, which meets at Norristown on the third Monday of November.

It appears that Kilby, who is a quiet and inoffensive man when sober, has been intemperate in his habits, and when in a state of intoxication, has been very violent towards his wife. Lately he has threatened her repeatedly, and she has been frequently in fear of her life. He was drunk when he committed the murder.

Murder in Fishkill, N. Y.—The Fishkill Standard says:—

"A young man named Dingee, in the employ of Mr. Seaman, at Beekmanville, went on Sunday morning to the house of a Mr. Tompkins, and while sitting on the piazza, heard the cry of murder in the basement, which was occupied by Noah Page, who it appeared was beating his wife with an axe. He went to the door, and finding it fastened, forced it open, when upon entering he received a blow from an axe in the hands of Page, which laid open his skull from the top of his forehead, down between one eye and the nose, nearly to the mouth, when he fell apparently senseless. He remained at this house until the following Tuesday, when he walked home, a distance of about two miles, having his head bound up, strange to say, without having any medical assistance until Tuesday evening, and died on Wednesday night, the brain having become greatly inflamed, and oozing from the skull. This is the second death by violence that has occurred within a distance of two or three miles within a month, the effects of rum and dissipation."

☞ The work on the stupendous Bergen (N. J.) tunnel, which has been for some time partially stopped, was wholly suspended on Monday morning, thus throwing out of employment about eight hundred men, whose wages ranged from one dollar to two dollars a day. Night work on the tunnel has been suspended for some time. The laborers were much discontented, and some disturbance was feared.

BLACK BOILED SILKS.

Boiled Black Silks.—We call the particular attention of our Stock of Black Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks new and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street. ALLEN & PAINE.

WOOD'S HAIR RESTORATIVE.

Preservation of the Hair.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'asure of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

Union Safe and Lock Factory.

We would respectfully call your attention to our large and extensive assortment of IMPROVED FIRE PROOF SAFES; BANK VAULTS; BURGLAR PROOF CHESTS; POWDER AND BURGLAR PROOF BANK, SAFE AND STORE LOCKS, ETC.

☞ The ball which John Stewart, a wealthy farmer of Watertown, N. Y., was firing at a turkey last fall, glanced and passed through the temples of a young man, an orphan, depriving him of sight; and a jury have just found a verdict against Stewart of $2900 damages.

☞ The cruel rumor that Capt. Herndon was safe, (published in the New York papers on Friday,) was taken quickly to Mrs. Herndon, who, in a frenzy of joy, started for the quarantine, to meet with a disappointment saddening and crushing.—The author of such a hoax deserves the gallows.

SPECIAL NOTICES.

"Lawrence's Carminative," or "Child's Pain Killer," is not a compound of Honey and Opium, nor drugs of any kind. Mothers would do well to remember this.

Messrs. Editors:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. R.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I keep right on shining; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward ($25) for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

AN OLD NURSE FOR CHILDREN.

Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. Its life and health can be estimated by dollars and cents. It is worth its weight in gold.

Millions of Bottles of Mrs. Winslow's Soothing Syrup are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 5 Market Street and by Druggists generally. july21ld&wly

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and this, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

General Agents in Boston, BURR, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & CO., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

And sold by Druggists throughout the United States and British Provinces.

LOCAL.

SUPREME JUDICIAL COURT.

A large number of civil actions have been settled by the parties and struck from the Docket. As the Grand Jury have not yet concluded their business, and no civil cases were ready for trial, the Court adjourned, at 3, P. M, to 9 o'clock Thursday morning.

☞ Business has not been so dull in Portsmouth, this season, as in most other places. The building of half-a-dozen good large ships, has distributed a number of thousand dollars among the men on the work roll of the ship-yards. Uncle Sam still keeps upwards of six hundred men on the Navy Yard; and our Steam Factory is yet running full time. There has also been an unusual amount of building and repairing houses and stores this year. The Navy Yard and Custom House will probably keep a good gang of hands busy all winter.

☞ An unusually large number of strangers are in attendance on Court, now sitting here. They will have a good chance to see one of the handsomest old cities in the land; which, though not so bustling as some of the new places, yet will, after all, average with the smartest competitor, better than at first appears.

☞ Messrs. Lockwood & Lumb, the well-known and unrivalled Boston Plumbers, and workers in Hydraulics and Engineery,—have a branch establishment in this city. They made a fine display of their wares at the late Fair, in Congress Hall. For work in their line, they have no superiors. See advertisements.

"TRUST IN GOD, AND KEEP YOUR POWDER DRY."—It is certainly reasonable, desirable, to place trust in Providence; but it is no less a duty to use all due precaution, and avail ourselves of all the means of security that human ingenuity can devise.—As a friend of ours remarked the other day, on buying a new Safe, "Have good insurance on your property, lock your books and accounts in a Safe,—and *then* trust in Providence for protection from fire."

Every storekeeper—at least all who do anything more than a two-penny cash business—should have a good fire-proof Safe, to protect his books and papers from destruction, at the very time when everything else is in ruins. And most business men, who are not storekeepers, and in fact many men not in business at all, have various papers, records, &c., the worth of which is oftentimes beyond being valued in dollars and cents. These should be protected in something more reliable than a combustible wooden desk or drawer.

Mr. Henry H. Ham is agent for Messrs. Edwards, Fernald & Kersbaw, of Boston—whose Safe and Lock Manufactory is in Gore Block, opposite the Revere House.—This firm make a great variety of excellent Safes,—from the largest for Bank use, down to a small neat pattern, miniature Safes, for only $35. And the smallest and cheapest are equally proof against the devouring element; besides being finished and ornamented in the same beautiful style, outside and in. This firm have no superiors in the manufacture of Safes and Locks Mr. John Fernald was a native of Kittery, and is well known to many of our citizens. Many of their safes are used in this city; and that in the new Rockingham Bank was from their establishment.

Although made much better and more reliable, as well as far handsomer, than formerly, Safes are cheaper than ever before. $100 will buy quite an extensive salamander; and a less expensive one even than that will accommodate most people. A few specimens may be seen at the store of H. H. Ham, who is agent for the manufacturers, and will furnish Safes at their prices.

☞ Allen & Paine are opening a large assortment of new goods to-day, at 15 Market St.

SUICIDE IN HOLDEN.—On Saturday evening a man named John Brough, formerly of Barre, called at the house of Ira Broad, in Holden, and asked for something to drink, and water was given to him. He then went out and laid himself down under the trees, when he was seized with violent pain, and, in reply to questions as to his condition, he stated that he had taken poison. A physician was called, and every effort made to counteract the effects of the deadly potion, but without avail. Poverty, destitution and a morbid religious excitement, are supposed to have been the reasons for the rash act. Brough was about twenty-seven years of age.—*Worcester Spy.*

The Boston Pilot counsels all Catholics to vote for Gardner, because, it says "we cannot keep down the conviction that he is not sincere. We know the man pretty well, and we fees that he possesses to much intelligence to be affected by any apprehensions of danger to the Republic from immigrants or Catholics."—

MARRIED.

☞ A young man, named Mark Holmes, of Exeter, was harrowing a field, last week, and the harrow rising up on one side, as the horse turned, fell upon his foot, and one of the teeth pierced through his boot and his foot, coming out on the bottom.

STOPPAGE OF MILLS.—Within two weeks several Southern factories in Georgia and Virginia, have ceased operations, throwing a large number out of employ.—In Lawrence, Mass., the Pemberton Mills are closing and discharging their hands.

LIQUOR CASE IN ROXBURY.—Thomas Norton was sentenced in the Police Court, at Roxbury, on Saturday, to pay a fine of $10 and costs and to be imprisoned twenty days in the House of Correction, for violating the liquor law, in selling at his shop, Plymouth street, a glass of liquor to one Michael Sweeney.

AN AMERICAN SPURGEON.—An Englishman named Henry Fellows, who has heard Spurgeon, writes to the New York Tribune, that he has also listened to the Rev. Mr. Corbit, of the Methodist Episcopal Church, New York, who is his equal in eloquence and his duplicate in style. Crowds listen to the newly discovered Spurgeon every Sunday evening.

☞ Ex-Governor Slade of Vermont was in Indianapolis, Ind., last week, with twenty-one New England girls, whom he was taking West for the purpose of giving employment as school teachers.

A CURE FOR ASTHMA.—There are many well attested cases of cures of this distressing complaint by the use of the Wild Cherry, as combined by Dr. Wistar, in his famous Cough Balsam, which medicine has achieved a world-wide reputation. A.

SUDDEN DEATH.—Dr. Cornell was called, on Saturday, to view the body of Nathaniel Pittee, who died while eating his dinner, at a house in Shawmut avenue, Boston. As the death was evidently from intemperance, the coroner thought an inquest unnecessary. Pittee had recently been liberated from the House of Correction. He was once an active member of the Sons of Temperance, but had recently fallen into his old habits.—*Ledger*

☞ The Dover Gazette states that three hundred of the Catholics of that city made an excursion to Nason's Cave, Eliot, last week, "in the expert little steamer Piscataqua."

☞ President Buchanan was too ill for business, 24 inst. He remained at his country residence, and did not attend the regular meeting of the Cabinet at Washington on Friday.

☞ A bright young mulatto, who was a coachman of Gov. Wise, passed through Oswego last week on the underground railroad.

AUGUSTA, GA., Oct. 6.—Brown, Dem., is elected Governor, by 8,000 to 10,000 majority. The returns indicate the election of Trippe (Amer.) in the 3d district; Joshua Hill (Amer.) in the 7th, and Crawford, Gartheile, A. H. Shepard and Wright, (Dems.) in the 2d, 4th, 5th and 8th districts.

IT IS NOT A DYE.
MRS. S. A. ALLEN'S
WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.

MRS. S. A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in case of hair falling, &c., without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its effects." &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. B. MCKEY, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.

REV. M. THACHER, 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has met my most sanguine expectations," &c.

REV. L. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "I can and do cheerfully recommend it," &c. "We

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. D. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatauque Co., New York.—"I am satisfied and recommend it"

REV. D. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York. "Recommends it."

☞ We might swell this list, but if not convinced, TRY IT.

We export these preparations to Europe even, and they are superseding all others there as well as in the United States.

REMOVAL.
E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54. cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youths' wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would it be removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack nostrums that infest every one in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative by my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLISLE, PA., June 23, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

CONSOLIDATION
—OF—

EMERSON'S MAGAZINE

—AND—

PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these two favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original engravings. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

LOTTERIES.

THE Lottery Office of Swan & Co. are charted by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Sawyer & Austin are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand, according to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that any child can learn to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every number is drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from these wheels, with the amount each prize is entitled to, will be published after each drawing, in the following papers:—New Orleans *Delta, Picayune, Register*, Charleston *Standard*, Nashville *Gazette*, Augusta *Chronicle and Sentinel*, and New York Weekly *Day Book*. Write your address plainly and directed to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people to be sworn to superintend and certify that everything connected with them is done in a strictly honourable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Spanish plan), and Ternary combination. Prizes vary in amount from $20 to $60. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; Saturday Chronicle and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in use for nearly nine years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY RIM, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PARLORS in great variety for wood or coal.

SHORT PIPE STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES,

SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anth acite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to throw the air into a state of excitement, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which more much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring the nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes—Price one dollar per box. Sold by no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4 631, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a pennyroyal for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: unstrung nervous system—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by its application, as easily as fire is extinguished by water. It is asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

Morning Chronicle.

FRIDAY, OCTOBER 9. 1857.

OH, OH——H, OOOO!—We find the following item going round in the papers, being part of an article from the Congregational Journal, relative to the State of Vermont.

"More than 20,000 families in Vermont habitually neglect all public worship, only about one-fifth of the people in the average attend upon evangelical worship, and four-fifths of the inhabitants on each returning Lord's day are absent from the sanctuary. *What do these things mean?*"

On this, the N. Y. Journal of Commerce offers these sage remarks:

Vermont, in proportion to her population, is, if we mistake not, the most thoroughly black republican of any State in the Union. "Only about one-fifth of the people in the average attend upon evangelical worship" on the Sabbath. Abolitionism is rampant.

Now, good reader, don't laugh. The ministers of Vermont—many of them, are of the celebrated 3000—and the black republican part of the people probably do most of the church going.

But if you 're not too much in a hurry, just sit with Uncle Toby and "cipher" a little about church going in Portsmouth. We have here, in round numbers, 10,000 people. If 2000 of them, on "the average attend evangelical worship," then we are equal to Vermont in general attendance.

Let us look now at the congregations here. We have ten in all. Call 2 of them 500 each; two more 400; 2 more 300; 3 more 200 each; and one 100,—we make 3100.

This 3100 is the average number in the best weather for a portion of the year. It is true the congregations set down at 500 sometimes run up to 600—but quite as often they run down to 400—and in bad weather below that. And so of the others: our average is quite high enough.

And then we have a serious deduction on the score of "evangelical worship." Three of the four larger congregations, and one of the smaller, would not be reckoned, we suppose, as evangelical, by the Congregational Journal,—viz., the unitarian, universalist, catholic, and christian. These, amounting to 1500, being deducted from the 3100, would leave 1600 for the average evangelical attendance—quite below the Vermont ratio.

And yet, as the Journal of Commerce would say, "if we mistake not," Portsmouth is *not* the most thoroughly black republican city in the Union,—but rather National,—and also, "if we mistake not," though a goodly sprinkling of the "Nationals go" to our "evangelical" churches, another sprinkling, as great if not as goodly, go elsewhere, and another sprinkling still go nowhere to any church.

The whim of the Journal of Commerce, that there is any peculiar antagonism between abolitionism and evangelicism, is a humbug:—and so is the idea that Vermont differs much from other States of like population and habits in regard to public worship.

ANOTHER BANKRUPT LAW.—Some of our leading exchanges (but more especially some of New York papers,) are discussing the propriety of the adoption, by Congress, of another bankrupt law—one that shall be uniform throughout; and in strict conformity with the constitution. The advantages and disadvantages of former laws which were adopted are set forth, and the experience of England, which has always had a bankrupt law, is cited to prove the wisdom of such a measure. We judge that the people will oppose any such experiment.—*Manchester Amer.*

No doubt many of the people would: but he who supposes such a law impossible to be re-enacted, reckons without his host. The 100,000 or 200,000 insolvents, made so by overtrading, scattered as they are, over all the land, can become a formidable political power, working among the parties like leaven. Most of these men are in early manhood, and having much to gain and little to lose, will not be overscrupulous about measures.

☞ A telegraphic dispatch from Stuttgardt, of the 25th, to the London Times, says that "Napoleon arrived here this afternoon, at half-past four o'clock. The King of Wurtemburg received him at the railroad station, and conducted him to the palace, where they were immediately joined by the Emperor of Russia. Contrary to all expectation, the Empress of Russia will join the party to-morrow."

CHINA.—A letter from Hong Kong received at Paris, says that the United States corvette Levant, in order to avenge the pillage by a gang of pirates, of an American merchant ship, had burned down a village on the island of Formosa, which the pirates occupied.

"HOW SPURGEON PRAYS."—This title is copied from the Baptist Christian Era, where a report appears of one of Mr. Spurgeon's prayers, as reported for a London publication.

The prayer is a curious mixture of zeal and ignorance, devotion and egotism. We copy the commencement of it, that the reader may see what importance the preacher attaches to his own labors and character, supposing, as he appears to do, that the eternal weal or woe of his hearers must hang on Mr. Spurgeon's "iniquity."

O, God, save my people! save my people! A solemn charge hast thou given to thy servant. Ah! Lord, it is too solemn for such a child. Help him; help him by thine own grace, to discharge it as he ought. O, Lord, let thy servant confess that he feels that his prayers are not as earnest as they should be for his people's souls; that he does not preach so frequently as he ought, with that fire, that energy, that true love to men's souls. But, O, Lord, damn not the hearers for the preacher's sin. O, destroy not the flock for the shepherd's iniquity. Have mercy on them, good Lord, have mercy on them, O, Lord, have mercy on them.

A great many people are asking how we are to get through the coming winter without suffering. The Boston Herald gives a liquor calculation, that may be a benefit to some men, who complain of hard times:

"Suppose you drink four glasses a day, at 10 cents per glass—in a week you spend $2,80, and in a year 145,60. This will purchase 4 barrels of flour, say $24; 4 pairs of boots $16; 40 pounds of butter $10; 200 pounds of beef $16; a suit of clothes $25; silk dress and bonnet for a wife $25; 4 tons of coal $28, and toys for children $1,60—Total $145,60."

If ten cents is more than the ordinary price, reduce it to five, and then there will be saving enough for 2 barrels of flour, 2 pairs of boots, 100 pounds of beef, $25 for clothes, $14 for coal, and 80 cents for toys.

☞ The Massachusetts Fairs this year provide trotting courses but not race courses. The Massachusetts Ploughman says:

What we want at agricultural fairs is not race horses—for race horses have no business at these shows. We want good trotting horses, road horses, and we want good substantial farm horses, to plough and go in carts.

We hold seriously that racing is no test of the qualities of an agricultural horse, and that the fastest runners are good for nothing else but to run.

Nevertheless, we don't suppose that for a horse to be a handsome or even a swift trotter, is an objection to anybody. At the National Horse Show at Boston, last year, the premium horse pulled five tons, we think, and then trotted his mile in three minutes! So it seems that a fast trotter may be "good for something else" besides trotting. What the Ploughman says of "running" horses, don't apply with much force to New England, where such sport is hardly ever heard of.

No feature at Fairs is half so attractive as testing of horse speed—call it trotting or racing, as you choose; and we don't see any better way to prove the qualities of this noblest of animals, than by offering premiums for the purpose. On the score of humanity, we can't see much odds between driving horses or driving oxen to the extent of their powers: and as a question of policy, "the public" almost anywhere willd ecide in favor of horse-flesh.

Some people object to a horse-race, that it is only a species of gambling. Granted; but in what respect does this differ from other contests for premiums—unless, indeed, those others go as "kissing goes, by favor." Y.

☞ William S. Williams, son of a grocer at Wheeling, was arrested at that place on Tuesday last, charged with being the person who a few days since obtained, through a young man named McLain, the contents of the post office bag of the Manufacturers' and Farmers' Bank of Wheeling. He was arrested while sitting at the breakfast table, an hour or two after his marriage with a respectable young lady, and was on the point of starting on his wedding tour. It is said that, although apparently not over twenty-one years of age, he has been married once before, and had served out a term at the penitentiary at Auburn, N. Y.

☞ The ladies of ward four, Concord, N. H., have presented to Mr. H. K. Elliot, a hackman in that city, an elegant pair of Lamps for his hack, as a token of their appreciation of him in the way of his business. This we think is the first time we ever knew a hackman to receive any complimentary notice of this sort.

☞ There is a great sugar crop in Cuba, and the price is beginning to come down in Havana in spite of the obstinacy of holders. The dons must give way.

A Chicago banker asked a young lady of that city what kind of money she liked best. "Matrimony," she repled.

NEW HAMPSHIRE BANKS.—The Exeter Bank is the only one in the State which does not stand well at the Suffolk. The charter of the old Lancaster Bank (recently referred to) expired some years ago—its affairs have been wound up, and the bills of course are worthless. All the rumors of the suspension or insolvency of other Banks in this region, are without foundation in fact, and should receive no credence.

SUICIDE OF A PHYSICIAN.—Last Tuesday morning, Dr. Wm. C. Williams, residing near Manchester Centre, Conn., committed suicide by hanging himself. Anxiety in regard to his pecuniary affairs is said to have induced the act. Dr. Williams was a native of Lebanon, about sixty-five years of age. He leaves a wife and five or six grown up children.

A CHEAP PLACE TO LIVE.—The Literary Gazette, in a notice of Mr. Neale's work on Syria, says:

"People who love to live well and cheap at the same time, should go to Antioch. Mr. Neale tried to live extravagantly there, but found it to be impossible—house-rent, servants, horses, board, washing and wine included—to spend more than forty pounds a year. Oh, that Antioch were London! Fancy seven and a half pounds of good mutton for one shilling! fat fowls for two pence a piece! seventy pounds fish for one shilling, and fruits and vegetables sufficient for one's household, for two pence a week. If we remember aright, the Garden of Eden was somewhere near this place. Yes, and so was Goldsmith's 'Deserted Village,' for there is certainly no other spot on the globe, where one could be 'passing rich with forty pounds a year.'"

☞ A State Temperance Convention commenced at Fitchburg, Mass., on Wednesday. The attendance is large.

☞ Benedict Arnold's silver watch has been presented to the Conn. Historical Society, by Rev. L. Smith Hobart, of Hudson, Mich.

☞ The Rockingham Quarterly Conference of Universalists, will be held at Atkinson, on Wednesday and Thursday, Oct. 21 and 22.

☞ Rev. J. H. Fairchild has resigned the pastorship of the Payson Church, South Boston.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks new and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street. ALLEN & PAINE.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been esteemed the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'œuvre of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and mobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

Union Safe and Lock Factory.

WE would respectfully call your attention to our large and extensive assortment of IMPROVED FIRE PROOF SAFES; BANK VAULTS; BURGLAR PROOF CHESTS; POWDER AND BURGLAR PROOF BANK, SAFE AND STORE LOCKS, ETC.

YOUNG CHILDREN ABANDONED IN THE WOODS.—The Montreal Spectator says that three children were found in the west end of that city, on Friday last, and are now in the Orphan Asylum. They are supposed to be about six weeks old, and were evidently left there to perish by some heartless wretch or wretches. They are fine looking, healthy children, two boys and a girl, and resemble each other in appearance, so that they can hardly be distinguished one from another.

We learn, says the Chicago Democrat, that there are forty thousand head of cattle to come forward to this city, to go to the East just as soon as the financial means for moving them can be obtained. At $40 per head this would amount to $1,600,000.

The Hon. Louis McLane is now lying extremely ill at his residence in Baltimore. His physicians entertain no hope of his recovery.

SPECIAL NOTICES.

MESSRS. EDITORS:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. B.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward ($25) for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. WINSLOW'S Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. Its life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unsparing visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

General Agents in Boston, BURR, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & CO., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

SUPREME JUDICIAL COURT.

THURSDAY, Oct. 8.

The Grand Jury came in with 22 indictments; 10 of them being liquor cases. As they have other business before them not yet matured, they returned to their room.

Susan Palmer, of Plaistow, was put on trial for selling a pint of intoxicating liquor contrary to the law and to the peace and dignity of the State.

☞ There were no premiums offered or awarded at the late Rockingham Fair, for a "Drawing Match"—other than that for the best Working Oxen. The drawing match was for the purpose of testing the strength and drill of the Oxen, and to enable the Committee the better to make up their award. We had erroneously supposed that these were two distinct things.

☞ The adjourned meeting of the Washington Total Abstinence Society will be held at the Temple on Monday evening next, at 7 o'clock, for the choice of officers and other business.

☞ Uncle Toby used to ride in a chaise weighing 600 pounds; but last week, a gentleman drove through this city in a carriage of the same name weighing but 225 pounds, and he said they build them in Portland to weigh only 175! The old pattern had wheels above six feet high, though; while the modern guage is but four or a little more.

☞ We have received from our old Portsmouth friend, Daniel G. Waldron, copies of the San Francisco Fireman's Journal and Military Gazette—for which he is travelling agent and correspondent. It is a smart paper; but too much of the "one idea" stamp.

DEATH RATHER THAN ARREST.—Last Monday evening a young Irishman named Sweeney, was arrested at Warren, Mass., on a charge of rape upon a young country woman, and on the following (Tuesday) morning he escaped from the officers and fled east upon the railroad track. Men were sent ahead by the highway to cut him off at the crossing, about two miles distant, while others started in immediate pursuit; he was thus placed between the two parties, with the Quaboag river at his left hand, and being closely pursued he fled to the river, plunged in, and was drowned, —declaring in his latest breath that he would die before he would be caught.

JOHN HAWKINS.—This great advocate of temperance, the man who set on foot the greatest temperance movement of the age, the Washingtonian movement, now some eighteen or twenty years ago, has recently addressed crowded audiences at Nashua, Concord, Manchester, &c. There is an ample field for the repetition of that movement now. We have a class of men in our community, and in every community, who are greatly in need to be rescued as the old Washingtonians were rescued then. There probably never was a time when the need was greater than now. And there is little danger that the race will die out. There is an immense throng of young men crowding up to keep their ranks full. For every old sot that dies, there are more than one or two ready to step into their shoes.—*Nashua Tel.*

BUSINESS IN DOVER.—A reduction of 10 per cent in the wages of the operatives of the Cocheco Manufacturing Co. took place on the 5th inst. This, or a partial suspension by running short time, as in other places, we presume became necessary in the present stagnation of business. Work in the Printery has been suspended two weeks for repairs. Mr. A. Folsom, who employs about 50 men in his Carpet Factory, has also suspended work for the present.—*Dover Enq.*

THE COCHECO CO.—Since the above paragraph was written, we understand that orders have been received to suspend work in Mills No. 2 and 3, for a few weeks, for repairs.—*Ibid.*

BUSINESS AT BUFFALO.—For the first time in many years the sound of the hammer and the saw is not heard in our shipyards. Not a new vessel has been placed on the stocks this fall, and scarcely a man can be seen in the various yards, excepting the few employed in finishing the ferry boat for the Lake Huron Railway Co. The usual force employed in the yards is about fifteen hundred men, not one of whom can be employed there during the coming winter. In many other of the manufacturing branches of business, large numbers of hands have been discharged, with no prospect of employment before spring. There are at the present moment more mechanics out of employment in Buffalo, than any time heretofore.—*Buffalo Courier.*

THE COTTON MILLS.—The suspension of work at the Globe mill, Newburyport, covers two hundred looms, and that with the short time of eight hours per day, is equivalent to a stoppage of two-thirds of their work.

The James mill has also come to the short time—eight hours per day.

HOGS DYING.—The Baltimore Star says the hog disease is carying off many swine in that region. They die very suddenly, and the disease is thus described:—"They were taken with a swelling under the throat, and their tongues came out of their mouth at one side, which in a short time turns black, causing death in a few minutes."

MARRIED.

In this city, Oct. 8, by Rev. Dr. Peabody assisted by Rev. Dr. Lamson, Mr. George Haynes, of the firm of George Haynes & Son, to Miss Clara A. Tucker, daughter of William Tucker, Esq.

In Boston, Oct. 6, Mr. Daniel F. Frisbee, of Kittery, Me., to Mrs. Martha Kittredge, of North Andover, Mass.

In Exeter, James Manix to Catherine Keith.

In Keene, Hon. Charles Lowe of Exeter, son of John Lowe, Esq., to Miss Martha A. Perry, daughter of the late Justus Perry of Keene.

DIED.

In this city, Oct. 7, Miss Elizabeth Ham, aged 56, daughter of the late Mr. George Ham.

Ship Sonora, Briard, fm London for Calcutta, spoken Aug. 14, lat. 11 N, lon. 25 W.

NEW YORK, Oct. 8.—Herald correspondence, under date Calcutta, Aug. 10, says: The overland mail for England closed on Saturday, 8th inst. I write this to send by the after packet which goes down the river this morning and will overtake the mail steamer Bentick, off Sangor Island.

We received very bad news from the interior on Saturday, but as the government has kept it back from the newspapers, you will not probably hear of it in the ordinary course of intelligence until the next mail.

Lucknow, the capital city of Oude, has fallen. All the Europeans have been massacred by Nena Sahib, and the relief force under Gen. Havelock has been ordered to fall back upon Cawnpore, terribly decimated by cholera.

CARD.

THE officers and members of Lafayette Engine Company No. 2, tender their most sincere thanks to Niagara Engine Co. N. 3, for the bountiful collation spread at their house on the last inst. Coming as it did, when we were fatigued with a long march, it was doubly acceptable. We trust, gentlemen, the time is not far distant when we shall have an opportunity of showing a more substantial proof of our appreciation.

To the Chief and Board of Engineers, for their efforts to make the occasion a pleasant one.

To the Ladies, who kindly assisted in decorating our Engine, we feel ourselves under more than 6 per cent obligations, but must ask for a further extension.

And last, but not least, to our Volunteers. Gentlemen, you have laid us under many obligations by your kindness—which we promise to pay with pleasure. Per order,

JOSEPH H. GARDNER, Clerk.

ALBERT LAIGHTON opens New DRESS GOODS to-day.

WHERE IGNORANCE IS NOT BLISS.—The Irish in Lawrence, fell into a panic about money matters, on Saturday, and the depositors in the savings bank made a run on it, drawing out some $15,000. Not knowing what to do with it, most of them carried the gold to their priest, who went quietly and re-deposited it in the same bank!—*Lowell Citizen.*

A CURE FOR ASTHMA.—There are many well attested cases of cures of this distressing complaint by the use of the Wild Cherry, as combined by Dr. Wistar, in his famous Cough Balsam, which medicine has achieved a world-wide reputation. A.

The Celebrated Carminative cures all diseases of children, especially summer and fall complaints. "Bogus children" excepted.

IT IS NOT A DYE.
MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.

MRS. S.A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of hair falling, &c., without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its efficacy, &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the hair of my head ceased, and my grey locks are restored to the original color," &c.

REV. S. B. MORLEY, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth." &c.

REV. M. THACHER, 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nearly like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES MEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has fed up to all the expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. O. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. B. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatauqua Co., New York.—"I am satisfied and recommend it."

REV. D. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York, "Recommends it."

☞ We might swell this list, but if not convinced, TRY IT.

We export these preparations to Europe even, and they are superseding all others there as well as in the United States.

It does not soil or stain. Sold by all the principle wholesale and retail merchants in the U. S., Cuba, or Canada.

DEPOT, 355 BROOME ST., New York. where address all letters and inquiries.

For sale in Portsmouth by J. H. THACHER.

☞ Some dealers try to sell articles instead of this, on which they make more profit. Write to Depot for circular, terms and information. Genuine is signed, *Mrs. S. A. Allen*, written in ink.—Beware of counterfeits. aug20 sod2w3m

AUTUMN EXHIBITION!!
ADMITTANCE FREE!
REMOVAL.
E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54. cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, cut out it for them without making, any way to suit the purchaser. A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color, or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, eruptions, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dye, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months ago, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my suspicions and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours.
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and I, in behalf of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 26, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects; my hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

CONSOLIDATION

EMERSON'S MAGAZINE

AND

PUTNAM'S MONTHLY.

40,000 Subscribers to Start With!

THE Publishers are happy to announce that in the union of these favorite Magazines, the best literary and artistic talent of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choicest productions of American thinkers and writers, and the best efforts of American artists.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine that, in the richness of its literary contents, and in the beauty and profuseness of its pictorial illustrations, shall outrival any publication ever before produced in this country.

The new issue commences with the OCTOBER number, which is now ready. It is filled with the choicest productions of some of the most brilliant writers of the day, and is embellished with forty-four splendid original illustrations. It appears in a new dress, embracing an elegant classical design on the cover, and the entire work presents the most attractive appearance. It is announced by all who have seen it to be the most beautiful specimen of a Magazine ever issued in this country.

PRICE, 25 CENTS—$3 A YEAR.

It may be obtained of any News Dealer or Bookseller, or by enclosing 25 cents to the Publishers. A SPLENDID LIBRARY OF FORTY LARGE BOUND VOLUMES is presented to every person who gets up a club of twenty-four subscribers.

LOTTERIES.

THE Lottories of Messrs. Swan & Co. are chartered by the State of Georgia, and have room commissioners appointed to superintend their drawings, and certify that everything connected with the same is carried on in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lottories are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so arranged that none can fail to be named them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every ticket is a prize, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published in different parts of the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other schemes.

All communications strictly confidential. m13ly

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commission elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and the Statutes plain and ternary combination. Prizes vary in amount from $20 to $30,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

The celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also, on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, ALBANY, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,

OVEN PASTRY in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartment quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to kindle without the use of charcoal. The cool is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONTINUED THROUGH

THE ENTIRE SEASON,

without once going out. Added to all these qualities, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, central and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters, we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Piscataqua House,

No. 5 Pleasant Street, Portsmouth, N. H.,

By GRANT & LEWIS.

THE Subscribers having leased this well-known and popular establishment, long occupied by Col. Wm. S. Hadley, as an

EATING-HOUSE AND HOTEL,

would invite the patronage of the public, whether of citizens or strangers.

The House has been refitted and newly furnished, and will be conducted as heretofore—Permanent Boarders or transient visitors accommodated.

AMERICAN HOUSE,

BOSTON.

Re-establishment of the old Plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management, as it existed before the recent alteration. Trial of the European system in *this Hotel*, proves that although the advantages are great, yet the plan is better adapted for the *smaller class* of hotels.

The accommodations and convenience of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

Those Pills are put up in square, flat boxes.—Persons residing where there are no Agents established, by enclosing One Dollar in a letter, *prepaid*, to Dr. O. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

WESTERN MATTERS.—The Manchester American of the 24 says:

Ex-Mayor Smyth returned last evening from a five weeks' excursion through the western States and territories.—After the close of the National Fair at Louisville, he went up the Missouri to Kansas, and since then has visited many of the leading towns of Iowa, Minnesota and Wisconsin. With the exception of a mid-summer drouth in Kansas, the season has been a remarkable one for crops. All through the west the amount of corn and wheat is immense. The recent crash of the credit system at the east has knocked down prices in the west. At Beloit, La Crosse, and most of the larger inland towns, wheat is selling for sixty cents per bushel, while farther in the interior any quantity can be bought for *thirty cents* per bushel by paying in specie for it. Eastern paper money which till within three weeks was current everywhere, is now discredited everywhere. A man with funds in gold could make large profits by making contracts to furnish the people here in Manchester with flour at $5 per barrel. There is a vast accumulation of grain at all the western depots. Lands all through the west can now be bought at a low figure. Farms which two months ago brought $3000, can now be had for $1800, specie payment.

There is one great comfort for the indigent at the west this season. Nobody need starve. Labor is in demand, and potatoes (not touched by rot westward,) can be bought in the hill for four cents per bushel, while corn is nearly as cheap in many place.

In Kansas, Mr. Smyth from personal observation, is satisfied that the murders and robberies of the past two years have not been exaggerated. In truth the reality of these outrages have never been known except to those who were eye witnesses. He thinks there is danger of a serious conflict during the elections next week. The Free State men have been borne down by a series of wrong which cannot be much longer endured. In Kansas, the drouth has made the crops less abundant than in Iowa and Minnesota.

A DISCOVERY.—The overseer of the poor happening to drop into the Commercial Bank yesterday, while there was a knot of anxious depositors awaiting their turn to have checks of the Savings Bank cashed, he saw one person who had been frequently relieved at the county's expense last winter, draw out $200, and another "out-door pauper" receive $160! They will hardly be successful in their application for relief the coming winter.—*Albany Atlas.*

Such discoveries have frequently been made in this city. One old man at the North End, who had been living on the city for two years, was found to have deposited in different banks, the sum of $2000.—*Boston Trav.*

MANCHESTER TEMPERANCE SOCIETY.—The attendance on the evening of the 29th of Sept. was quite small. The question was, "Are our liquor agencies, as at present conducted, promotive of the cause of Temperance?" Dr. Bunton maintained the negative, and favored the licensing of all apothecaries who would not abuse the trust. He thought the licensing of one a monopoly. A registration of purchasers should be kept, as in the case of arsenic, strychnine and other drugs. Mr. Ray thought the design of the liquor agency was good, but thought that the system was badly carried out. Mr. Summers spoke at some length, denouncing the present action of the city authorities in regard to the license. Mr. Verity advocated moral suasion as better than prohibition.—*American.*

Mr. Finnefrock was addressing the democracy of Fremont, Ohio, and taxing his invention to the utmost in charges against the black republicans, when he paused suddenly and said, "Now, gentlemen, what do you think?" Instantly a man rose in the assembly, and with one eye partly closed, modestly, with Scotch brogue, said: "Mr. Finnefrock, I think, sir, I do indeed, sir, I think, that if you and I would stump the country together, we could tell more lies than any other two men in the country, sir, and I'd not say a word myself, all the time, sir!"

The legislature of Pennsylvania is now in session for considering the financial wants of that state. Gov. Pollock believes the monied institutions to be solvent, and recommends the suspended banks to be relieved from existing laws; opposes the authorization of small bills; and makes various recommendations. Several bills have been introduced into the house and senate, relating to the subject.

Mr. Dodge of Groton, while walking on the railroad bridge at Graniteville, on Thursday, was run over by the 11½ o'clock train from Lowell. He saw the train approaching and attempted to crawl between the planks, but the cow-catcher struck the top of his head and crushed it against a plank. He was taken to the depot, where he expired in about an hour.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, *how is it done?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine virus, it requires merely what adheres to the point of an ivory pin dipped into a solution of it, to affect the entire system.
Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which they are attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

SATURDAY, OCTOBER 10, 1857.

MASSACHUSETTS.—At Fitchburg, has just closed one of the largest and most successful State Temperance Conventions ever held in Massachusetts. There was great unanimity of feeling, and the best spirit prevailed during all the sessions. The Fitchburg people showed unusual hospitality, and entertained all that were present. The addresses were all excellent and full of enthusiasm. The presence of Mr. Sinclair, from Scotland, gave great satisfaction to the delegates, and his addresses to the children and others will never be forgotten.

The report spoke very encouragingly of the operation of the law. Since the early part of this spring a large number of prosecutions had been entered and successfully carried through. The Supreme Court has adjudicated upon a number of points in the law, fully sustaining the statute in all important particulars. A large number of liquor sellers are now in the different Houses of Correction. The Committee recommend that the law should remain unaltered upon the statute book, and insist that it is the duty of the municipal authorities to enforce it. If they do not enforce it, they should be removed from office. An allusion was made to the passage of the law by the last Legislature, providing that town agents for the sale of liquors should buy their supplies of the State Commissioner appointed for the purpose. The agents now nearly all purchased of the Commissioner. The liquors obtained of him have been analyzed by some of the towns, and pronounced pure.

Mr. Sinclair has been in the employ of the Committee for thirteen weeks, and has delivered three hundred addresses. The Committee speak very highly of his labors, and recommend that more attention be given to moral efforts in behalf of the cause. The labors of Mr. Thompson, the agent of the Committee, were alluded to, and it was stated that the lectures, conventions and mass meetings, have, during the last year, been larger then usual.

The Committee, in concluding the report, state that there is great cause for encouragement, and that the better enforcement of the law, the increased attendance at public lectures, the organization of societies for the reformation of the drunkard, should incite all to increased efforts.

The report was accepted and ordered to be printed in connection with the anti-liquor law.

A State address, prepared by Rev. A. A. Miner, was then read by the Secretary.—Mr. Miner was not able to be present, on account of ill health. It was stated that the Committee of Arrangements had invited Mr. Miner to prepare the address.

The address pertained entirely to the action of the city government of Boston in the non-execution of the law, and criticized severely the authorities for violating their oaths in allowing thousands of grog shops to remain, in constant violation of law.

SINGING.—The Boston Sat. Eve. Gazette says, it seems as much a duty to cultivate the voice as it is to cultivate any quality of the mind; and the facilities afforded are such that any one may avail of them that is disposed to, and to be not disposed to, is almost inexcusable.

It is a matter for congratulation that vocal music—or its elements—is taught in our Boston schools; education therein, of course, is a thing of after attainment. For our own part we would forego almost any branch of the abstruse studies in our schools, of which, after spending a great deal of time, much mental pain, and considerable money, the pupil knows comparitively little at last, for the sake of singing. There are people, who make up faces at the idea, and ask the question, "What is all this worth?" It is the same question that is asked by dull people about the cultivation of flowers, or the adornment of buildings, or taste in dress. There is, besides its ornamental quality, a use that is very beneficial in singing. The exercise is most grateful and strengthening to the lungs, the voice is rendered pure and flexible by it, the pronunciation improved, &c.

☞ The Bath People's Organ states that a lady of that city has raised figs in the open air, in size and flavor equal to those raised in the South. "It takes two years to mature them in this latitude, the one before us having grown about half its present size last year. The tree was put in the cellar in the winter, shed its leaves, but the fruit remained and recommenced growing in the spring. There were about forty figs on the tree."

☞ Mr. Delavan of Albany has resigned his Presidency of the New York State Temperance Society, and has pledged himself to pay its debts, amounting to $6,000.

☞ Hon. Louis McLane died in Baltimore, on the 7th inst.

☞ The New Hampshire State Fair, we understand, has been moderately successful.

The entries of neat stock and horses are larger than in former years, while the display of fancy articles and works of art is considered rather meagre. The contributions from this section of the State are not numerous. Dr. Fuller exhibits specimens of dentistry; Dr. Preston cologne stands and medicine chest; Mr. Diman of Strathham a great variety of flowers.

A meeting for the transaction of business, and the discussion of practical topics connected with agriculture, was held on Wednesday evening, at the City Hall, and largely attended. The debates were interesting, and called forth many excellent thoughts upon subjects of interest to all farmers.

☞ The Eastern railroad has been much encumbered, during the last two winters, by the drifting of snow on the road at South Malden. To prevent the recurrence of the obstruction, the Directors have recently erected a tight board fence about eight feet high and twenty rods long, on the northwestern side of the road, where the drifts have formed.—How about the pine tree fence?

George Wood, of Bangor, who arrived at Salem in schooner Ottawa, was detected on Monday night, with an armful of fresh killed poultry, consisting of a turkey and four chickens, he had taken from a tree upon which they were roosting. He was therefore sentenced to two months in the House of Correction.

☞ It is now determined definitely not to renew the Atlantic cable this year. The cable is to be forthwith unshipped from the holds of the Agamemnon and Niagara, and stowed away for the winter in the government dockyard at Keyham.

☞ Flora Temple and Lancet tried their speed again at the Springfield Horse Show, 3d inst. Flora to harness and Lancet to saddle, as usual. Flora had the pole, and won in three straight heats. Time—2:39 1-2, 2:32, and 2:32. Lancet was hardly a length behind either time. There were eight or ten thousand people present.

☞ The Russian Government has decided that hereafter, in the schools of Irkoutsh, where their principal commerce is with America, the German language shall be suppressed, and "the *American* language" substituted in its place.

☞ The enterprising gentleman in New York, (Mr. Bowen,) to whom the public are indebted for the weekly list of failures published in the Independent, will be called upon this week to record his own suspension. Bowen, McNamee & Co. have failed. The assets of the firm far exceed their liablities.

☞ A hen in Newburyport, a cross of the common fowl, with the pheasant,—a very large hen—has laid 250 eggs in 253 days; and to keep the number equal to the days, three of the eggs were double yolked. All the eggs were large size.—Who beats that?

☞ The election news from Kansas is contradictory and confused. We presume, however, by some trick, sham, and juggle, slavery goes in there and wins, as was intended from the first movements of Douglas, Atchinson, Stringfellow and Company. If it turns out otherwise, we'll make a note of it.

SUNDAY EVENING SERVICES.—Rev. H. W. Beecher has declared himself, says the Christian Register, in favor of omitting the afternoon service. He thinks the afternoon should be given to domestic converse, Bible reading and religious instruction. A movement has been made in some of the parishes in Boston, to devote Sunday afternoon to the special religious instruction of the young, and to hold a public evening service in the church, as in the South and West. We hear that this plan has been adopted by the Mt. Vernon church, (Rev. Dr. Kirk's.) At the annual meeting of the Hollis street parish (Rev. T. Starr King's) on Monday evening, the proprietors voted nearly unanimously to hold an evening service during the months of October, November, and December. Instead of a public service Sunday afternoon, the pastor's labors are to be devoted to the instruction of the young people of the society.

Quaint old Fuller says—"Let him who expects one class of society to prosper in the highest degree, while the other is in distress, try whether one side of his face can smile while the other is pinched."

☞ Miss Jefferds, daughter of Samuel Jefferds, Esq., of Wells, Me., was nearly gored to death by an unruly cow last week.

THE FORTHCOMING MONTHLY.—Messrs. Phillips, Sampson, & Co., of Boston, will commence the issue, on the first of November, of a new Magazine, to be called the Atlantic Monthly. It will be devoted to Literature, Art, and Politics.

The aim of the Periodical will be, 1st: In Literature, to leave no province unrepresented, so that, while each number will contain articles of an abstract and permanent value, it will also be found that the healthy appetite of the mind for entertainment in its various forms of Narrative, Wit and Humor will not go uncared for.

Second: In the term Art, they intend to include the whole domain of æsthetics, and hope gradually to make this critical department a true and fearless representative of Art, in all its various branches.

Third: In Politics, the Atlantic will be the organ of no party or clique, but will honestly endeavor to be the exponent of what its conductors believe to be the American Idea. It will deal frankly with persons and parties, endeavoring always to keep in view that moral element which transcends all persons and parties, and which alone makes the basis of a true and lasting national prosperity. It will not rank itself with any set of *ones*, but with that body of men which is in favor of Freedom, National Progress, and Honor, whether public or private.

Their list of contributors is ample, embracing the highest order of talent.

THE ROAD TO RUIN.—By a joke of somebody, the sign of Mr. A. Lane, the liquor agent at Newburyport, was altered so as to read A Lane to Ruin. The Herald says:

"Nobody will dispute that those who drink liquors are on the "lane to ruin," and we may add also on the road to death. Once was the time when excessive liquor drinking was only a waste of money and happiness, of respectability and power;—but now it has the addition of being certain death, as speedily as the poisons can do their work. Why is it that we have so much more of delirium tremens and permanent insanity—of loss of physical powers and of mental vigor? Simply this, we are a drugged community and the drinkers are all poisoned; and when they die they are as absolutely murdered as though their throats had been cut. The Chinese attempted to kill by poisoning their bread; the American manufacturers of counterfeit liquors do it by poisoning their drinks.—We cut from a paper the following advertisement, which will show how it is done.

LIQUOR DEALERS AND MERCHANTS.

A complete assortment of the Oils necessary for making and flavoring every variety of Liquor, and directions for making Cider without Apples, and for converting the Cider to all kinds of White and Red Wines, Champagne, &c., and a package of the articles used for giving ARTIFICIAL STRENGTH to Liquors, (converting 70 gallons of Whiskey to 100 gallons,) and every article necessary to commence a Liquor Store, will be furnished for $25. Also all the information necessary to conduct such an establishment,—thus enabling the new beginner to successfully compete with the oldest liquor dealers. Address through the Post Office

P. LACOUR, New Orleans.

Lacour's Concentrated Acid, for making VINEGAR, is put up in two gallon packages, at $5 per package—in good shipping order.

In the papers this way we have never seen such advertisements; but the fact is well known that all kinds of liquors—counterfeits—are manufactured by the mixing of poisons, drugs and various compounds. It is not alone the wines of which nine bottles in ten are sham, and the brandy made from death-dealing substances, that are destructive of life, but even whiskey has its strychnine, and often times New England rum its adulterations. Their cup is a cup of death; and the way to the places where they are drunk, is "a lane to ruin."

The Staunton Vindicator of October 3d, notices another case of triplets in Virginia:

"A lady residing near the Augusta Springs in this county, presented to her husband three fine boys on the night of the 27th ult. The weight of the smallest was 5 3-4 pounds, and the aggregate weight of the whole amounted to 17 1-2 pounds. The little fellows and their mothers were doing well when last heard from. There has been a great crop this year."

It is gossipped that one of those merchants of Boston who failed last week, is blessed with a wife who for six months could not find a carpet in Boston that would satisfy her fastidious taste. She wanted one of a pattern such as nobody among her acquaintances possessed, and higher in cost. She would lay abed from morning to noon, and from noon to night, waiting for the appearance of her dressing maid, rather than perform a service so menial as that of dressing herself. With such a help meet, is a merchant justified in failing?—*Charlestown Adv.*

A farmer named Douglas, in Northumberland, N. H., has 300 bushels of first-rate wheat this season. The wheat crop of Northern New Hampshire is probably double the quantity raised for any single year during a number of years past, and the products of the soil generally are larger in this State the present year than for many years previous.—*Patriot.*

THE NEW ENGLAND MIND.—The Rev. Dr. Samuel Osgood of New York, in alluding to the New England mind, said:—"Before the Revolution people here seemed to have lived in long metre—in Old Hundred and St. Martin's—but the Revolution put into them the spirit of Yankee Doodle and Hail Columbia."

"You call that good, don't you?" said Mr. Funshaw, offering a $5 note on a Providence bank at the bar of one of our hotels. "O, yes," replied the attendant, "it's good, but like Deacon Cranton's piety, when he gets swearing mad, *not immediately available.*"

The Boston Post speaks of "sliding into a state of genteel intoxication." What state is that?—*Charlestown Adv.*

SPECIAL NOTICES.

The Celebrated Carminative cures all diseases of children, especially summer and fall complaints. "Bogus children" excepted.

MESSRS. EDITORS:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. R.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks new and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street. ALLEN & PAINE.

MOTHERS! MOTHERS!! MOTHERS!!!

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. WINSLOW'S Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 98 Market Street and by Druggists generally. july21d&wly

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver disease of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Stanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'œuvre of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

SUPREME JUDICIAL COURT.

PORTSMOUTH, Oct. 8th.

Two boys, John Kehoe and James Dennett, about 13 years of age, plead guilty to the charge of breaking and entering a shop in this city, and stealing a sum of money. They were both sentenced to hard labor in the State Prison, Kehoe for one year, and Dennett for six months. This case shows the need of the House of Refuge for Juvenile Delinquents.

The Grand Jury brought in a few additional bills, and were discharged.

The first case presented to the jury was the State v. Susan Palmer, for the sale of one pint of spirituous liquor, at Plaistow, to one David Cass. The only witness examined was Cass, who stated he purchased said liquor *for the purpose of instituting a complaint;* he also stated that the husband of the defendant was present at the said sale. The Court ruled if the defendant acted without the co-erciou of her husband and was the more active party in the sale, the jury should find the respondent guilty.

The second case for trial was State v. Susan Palmer, for the sale of one pint of spirituous liquor at Plaistow, to one Warren Cass. Cass testified that he bought one pint of rum for eleven cents, of the defendant, on the 9th of June last, and *for the purpose of a complaint.*

The juries in both these cases, against Mrs. Palmer, brought in a verdict of guilty.

Jeremiah Carter of Kingston, was then put on trial for violating the law for the suppression of intemperance.

GRAPES.—The two gentlemen who were seen to take the grapes from a vine in Summer street, on Wednesday evening, are invited to call and settle for the same, thereby saving themselves further trouble.

☞ Elders Coffin, Bradbury, and Perkins, will preach at the Temple to-morrow at the usual hours, day and evening.

☞ The elligibly situated House and Land, on the corner of State and Fleet sts., known as the McClintock house—will be sold at auction to-day (Saturday) at 12 o'clock.

RETRENCHMENT AND REFORM.—Now that money is worth six per cent a month, instead of six per cent a year, and very little business is doing, people are asking how they can retrench, and thus replenish their coffers. One suggests that we can wear our old clothes longer, and thus save to the nation $250,000,000, a year; and another gives some other advice. We think there is one way in which a small amount of specie might be kept in the country, and every one be better off on account of it.—We are paying from eight to ten millions of dollars—three times as much as all the specie in all the Boston banks—to foreign countries, for rum. The Secretary of the Treasury gave us the figures in his last report—from eight to ten millions for rum which we pay for, not in corn or cotton, but in the gold of California, to increase our own misery and wretchedness—to make paupers and criminals. If we are going to begin economy, there is nothing that we could give up better than that.—If we can't get along then, we can keep on our old clothes afterwards.

Ten million dollars is our national rum bill, say; but that is only a small part—count up the consumption of domestic beers and rums, and we get many and many millions more—all tending to the same end, individual poverty and sickness and death; domestic troubles and disturbances; and public immorality and vice.—The money pressure is not alone affecting the bankers and business men; next winter it will fall with crushing weight upon the poorer classes, who will have nothing to do; and it is not so late in the season yet, but that the closing of every ten grog shops will prevent the opening of one soup house, between now and March. One thing is certain—that those who can afford rum, ought not to expect extension on notes, complain of hard times, or ask charity.—*Newburyport Herald.*

A letter addressed to the "Church of God," at Portland, Maine, some years ago, was returned to the General Postoffice with the endorsement "mis-directed—we have nothing but sectarian churches in this place."

Rev. Henry Ward Beecher says—"Man is superior to a horse in many respects; but running on a hot summer day in a twenty acre lot is not one of them."

NEW YORK, Oct. 9.—Harper and Bros., publishers, have suspended. They have a reported surplus of nearly one million.

Bowen, McNamee & Co. show a surplus of $1,200,000.

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also cure all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply for its wonderfully beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my scepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Bloomfield before I bought the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative I have restored its original color, and I have no doubt permanently so. S. BASSEL, ex-Senator, U. S.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. B. MORLEY, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.

REV. M. THACHER, 80 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York. "My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES MOKE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has answered expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. J. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it."

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. ALFRED BARNARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. E. C. SMITH, Prattsburgh, N. Y. "I am surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. BRINK, Chatanque Co., New York.—"I am satisfied and recommend it."

REV. D. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York, "Recommends it."

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54, cor. of Hanover & Market Sts.,

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. NARRATIVE OF WISE'S 210TH AERIAL VOYAGE, MADE FROM BRADFORD, VT., Sept 26.—The ascension was made from the Agricultural Fair Ground at five minutes before 3 P. M., and in a few minutes an elevation of 3000 feet was attained, when a dog and parachute were let off. The experiment went off very handsomely, and Tray seemed rather to enjoy his downward journey, and by the time he had reached terra-firma the Young America had reached an altitude that overlooked one of the most magnificent panoramas that human eyes could contemplate. Mountains upon mountains, as far as the eye could reach all around, and just above the visible horizon a beautiful curtain of clouds encompassed the vast panorama.—The road up Mount Washington was distinctly visible, though it was many miles off. Having now attained an altitude of over two miles, and being about twenty miles east of Bradford, the earth below presented to view a vast basin, interspersed with hillocks and lakes—of lakes not less than fifty were in sight, and of mountains the number was legion; and here several large buzzing flies came hovering round the car for some minutes.—This somewhat surprised me, considering the great height above the earth; and I also felt somewhat surprised at finding the atmosphere pleasantly warm, and where the sun shone on my body it produced a sensation like the pricking of needles. At half-past 3 the gas commenced rushing from the neck of the balloon, which was compensated by a proportionate discharge of ballast, as I wished the balloon to hold this altitude, seeing that the current would waft me somewhere near to Portsmouth, N. H. and thus bring me on the Eastern Railroad, which would facilitate my journey to Bangor, at which place I was announced to ascend on the 30th of September; and moreover the current was moving at the rate of a mile a minute. As I was sailing along I could not refrain from exclamations over the beautiful forms that God had given to the world, and it impressed upon my mind the conviction that a higher destiny awaits mankind than steamships and rail cars can possibly supply—the perfection of the art of aerial travel.

At 3 o'clock 45 min. crossed a village and observed a railroad beneath, with lake Winnipisseogee to the east. This lake is full of islands, and the little steamboats were navigating through it, and it puzzled me for some time to find the narrow passage where they got through from the lower to the upper portion of it. The whole length of the lake did not appear over 300 yards. I rose considerably here, by which I reached the upper current of wind, and thus made a detour along the southern border of the lake. A very handsome bouquet of flowers was presented me by a lady when I started from Bradford, and upon getting up to my former altitude, it gave out for the second time a fragrance so sweet and strong, that I became satisfied some peculiar atmospheric phenomenon was going on in the distillation of essential odors, as there was also at the same time a pungently stinging sensation produced on my hands and face, probably superinduced by the discharge of hydrogen from the safety valve of the baloon.

The scenery beneath and around had now become so interesting that I laid down my note book, determined that I would no longer, for even a moment, be deprived of seing any portion of it, inasmuch as I was gliding over the country so rapidly. Villages innumerable encompassed me on all sides; in some of them the church bells were rung as I passed along, and all around the villagers saluted the arrival of Young America by the firing of guns, and earnest invitations to alight.—Our sons localities I was enabled to keep up a running conversation, and over others I could not; but I noticed that where it could be done the echo of my own voice was always very distinct in its returning sounds.

At 4 o'clock 50 minutes my note book says:—"Crossed a volcanic crater." It was so noted because the geological appearance of it looked like pictures drawn by eye witnesses of extinct volcanoes. The exposed upheaved rocks around its top seemed as regularly broken up as would be the explosion of a mine with gunpowder. The mineralogical character of the rocks was not discernable from that height. There were many objects passed over that I could find no explanations for—several square enclosures, with no habitations near them, seemed strangely isolated in the mountain encompassed vallies.

At 5 o'clock I came down low enough to converse with the villagers and country people as I sailed along, and this I was enabled to do with those several miles from either side of the balloon's track. All animated nature was aroused below. Girls and boys were hallooing, the old folks were talking at the top of their voices, the dogs were barking, the cattle were lowing, the poultry were clamoring, guns were firing, village bells were ringing and locomotives were piping their echoes through the hills, and the whole formed such a wild and enchanting drama that I felt no disposition to withdraw my attention from the immediate surroundings below, until the long line of sea coast from Portland to Boston admonished me that my voyage must soon be brought to a close, and besides that the sun was now lowering himself behind the mountain horizon of the west. These two extremes presented a gorgeous spectacle. The sun seemed blazing down broad beams of fire upon the mountain tops, and beyond, the mountain tops seemed red hot. To the east the long line of sea coast had emerged from the distant horizon to a limited extent and was finished off with a murky, cold looking bank of clouds, that prevented vision.

Having now neared the Eastern Railroad I came down into a local south-west breeze, which wafted me along between Dover and Rochester and I effected a good landing one mile from the town of Great Falls, in New Hampshire, close on the south side of the State of Maine. Here Mr. Edward Goodwin caught the tow line which was made fast to Mr. H. Y. Hayes' buggy, and the "Young America," floating above the house and tree tops, was towed into the town of Great Falls, and to the front of Mr. James Conor's "Great Falls Hotel." Here, from the elevated car, I stated to the large concourse of citizens assembled, a brief routline of the day's adventure, and asked of them the privilege of taking down and packing up my balloon in safety. Mr. Ichabod Pearl, in behalf of the citizens assembled, applied, and proffered to me the hospitalities of the town, with many eloquent expressions of delight upon the arrival of so novel a craft amid the gas illuminated village. By 9 o'clock P. M. I had "Y. A." stowed away in the casings provided, in good order, and then proceeded in company with a number of the good citizens of the town to Mr. Conor's Hotel, where I found a comfortable abode until I could proceed to Bangor, to ascend from thence on the 30th instant.

This was one of the most interesting voyages I have made in fifteen years, and to go into a detail of all that is worthy of notice would make an article too long for a daily newspaper.

Great Falls, Sept. 28, 1857. JOHN WISE.

It is related of a Frenchman who had deposited a sum of money for safe keeping with a friend, that hearing the latter was about to fail, he called upon him and said, "Sare, I wants my monie." "Certainly, sir," replied the other, drawing out his check book, from which he was about to fill up a check, when the Frenchman said. "Stop, sare, you got de money?" "Why, of course,' said his friend. "I will give you a check for it immediately." "No, no," said the Frenchman, "if you got dis monie I no want him, but if you no got him den I wants him."

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the legislature of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all consecutive numbers filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No fractional orders unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that any one can understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing published in our office.
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published in our library drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Sun Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia
Prizes paid in full—no percentage deducted from amount drawn by successful ones.

LOTTERIES.
The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are forwarded unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and are so simple that any Ternary combination. Prizes vary in amount from $20 to $100 ⁹⁰. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
The celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal.
SHOP IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves for any purpose, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.
FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without renewing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to keep an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THIS valuable combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where they have been proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that must always arise from the interruption of nature; and whoever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, can receive a Dollar Bill in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,631, Post Office, New York City, and have them sent to their respective addresses by return of mail.

PEDAL BASS MELODEONS,
No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* that yet has come diseased, is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Rockingham Bank Building.

A day or two since we accepted an invitation from the Cashier of the Rockingham Bank, J. J. Pickering, Esq., to examine the new building which has just been erected for the use of the Rockingham Bank, in this city, and were so much pleased with our visit, that we deem a brief description of the building worthy of publication. We call it a new building—which is not strictly correct. Exchange Buildings, of which the Bank is the northern tenement, were built after the fire of 1813, in a uniform style, probably considered handsome, but certainly substantial, of which but one or two remain in their original state. The store occupied by C. E. Leighton seems to present the original front. The others have from time to time undergone alterations to some extent, but never enough to destroy their identity until this northern tenement was bought by the Directors of the Bank, the building previously owned by them having been sold to the United States and removed to make room for the new Custom House.

In altering this building to its present shape, the old walls were carried up to a height of 43 feet, 6 inches, the windows where necessary filled up, the floors raised, and a new roof put on. The main building is 27 feet on the front by 50 deep, three stories high, with an eliptical addition of brick, 7 by 17 feet, one story high, on the east end. This addition is glazed on the top with rough plate glass 1-2 inch thick. The corners of the building are ornamented with cast iron quoins, and bels of iron run around the front and side. The caps and sills of the windows, and the arches over the doors are also of cast iron. The cornice is of galvanized iron. All this exposed iron work is painted and sanded in imitation of brown stone. The brick walls are covered with mastic colored in imitation of Picton sandstone, and blocked, giving a general appearance of great beauty.

The lower room is to be used by the Bank. The front apartment is 13 feet 8 inches high in the clear, ornamented with an elaborate cornice and centre pieces of stucco. In the rear of the banking room is the Directors' room formed by the eliptical addition to the main building. The Directors' room communicates with the Bank by a doorway between two circular walls, formed by the vault on one side, and the stairway to the upper stories on the other. The vault is built of brick, with an air chamber and iron bars between, the whole resting upon solid masonry built up from the cellar, and appears impregnable both to thieves and to fire.

The second story, 11 feet 6 inches in the clear, is divided into two rooms, which will probably be occupied as offices, and are truly pleasant apartments.

The third story is finished as a hall for the weekly meetings of New Hampshire Lodge I. O. of O. F., and is 25 by 30 feet, with the ceiling turned into a triple arch, 18 feet high in the centre. In connection with this hall are two ante-rooms.

The wood work of the Bank and Directors' rooms is of chestnut, and presents a massive appearance, far superior to oak or any of the imitations. The other rooms in the building are finished with pine and painted white.

The work has been accomplished under the direction of Mr. James Moses, 3d, of this city, from plans prepared by S. S. Woodcock of Boston.—The mastic and stucco, and plastering were under the direction of Mr. John Mack of Lowell. The whole building presents a rich specimen of architectural skill, reflecting no little credit on the liberality which projected and the skill by which it has been accomplished.—*Gazette.*

BURGLARIES.—The oyster saloon of David McCarthy was entered on Saturday evening, during the momentary absence of the proprietor, and $5 in change taken from the drawer. The thieves entered through a back door which was left unfastened. Mr. McCarthy being absent but about 10 minutes.

The same night, the fruit and confectionery establishment of B. Harding was entered through a back window. The shutter was pried open, a pane of glass broken, and the window unfastened. The proprietor was in his store until 11 o'clock, and the robbery must have been committed at a late hour, probably after midnight. Nothing of consequence was taken.

The same night, the Millinery and Fancy Goods store of Isaac Hahn, in Market street, was entered through the cellar. About a dollar in change was taken.

Two boys named Dennett and Kehoe, each under a dozen years of age, were arrested for entering the stores of Harding and Hahn, and after an examination before Justice Odell were bound over to the S. J. Court, in sessions. One of them pleaded guilty. Suspicion rests on no one in particular in regard to the first mentioned robbery; though it is not unreasonable to suppose it to have been committed by the same boys.

By our Court record it will be seen that Kehoe and Dennett have been indicted, tried and sentenced to the State Prison; and but five days have elapsed since the commission of the crime.—*Gaz.*

TRANSFUSION OF BLOOD.—The Manchester, (England,) Alliance News, of Sept. 26, gives the following interesting and remarkable statement.

Transfusion of blood was successfully performed, last week, by Mr. Wheatcroft, surgeon, of Cannock, on a woman named Wood. Immediately after her accouchement, fearful hæmorrage set in, draining the woman of blood. She felt herself dying, and summoned her husband to her bedside, bade him "Good bye," and earnestly requested him to take care of the children when she was no more. She then became pulseless and gasping, occasional breathing being the only indication of life. A vein was opened in her arm, and one in the arm of her husband, and as the blood flowed from the latter, it was transmitted by suitable apparatus into the veins of the wife. After seventeen ounces had been thus injected, the pulse became perceptible, the colourless lips reddened, the glassy eyes brightened, and she thankfully said, "I am better." The case has progressed very favourably, and the woman is recovering.

MONDAY, OCTOBER 12, 1857.

NEW HAMPSHIRE STATE FAIR.

The Eighth Annual Cattle Show and Fair of the New Hampshire Agricultural Society, was held at Concord, on Wednesday, Thursday and Friday of last week.—We had intended to be present and report for ourselves; but were prevented at the last moment; and gather the following interesting details from various other papers.

Several farmers and others who went from this vicinity, state that the State Fair was not, on the whole, equal to our County Fair, the week previous. The Manchester Mirror says, "the field was a dozen times too large, or else the exhibition a dozen times too small." The Manchester people, however, would like for all the Fairs to be held in their city—which may color any opinion from that quarter. The American says, "the number of visitors the first day was less than during the first day of last year, the majority consisting of Concord people and those from the neighboring towns. There was a marked absence of the politicians who a few years ago made it a point to congregate on these occasions. Quite a number of well known men of the State were, however, present, among whom were Frank Pierce, John P. Hale, R. H. Messer, Zenas Clement, &c. Of the remote counties, Strafford and Sullivan have the largest delegations."

The attendance was very large, increasing till the close, as usual; and the Boston Traveller reporter votes the Fair "a decided success," and says "the Society stands fairer for the future than ever before." The Procession of County and Town Teams, &c., on Wednesday, was very fine. Sullivan county team entered by Robert Elwell of Langdon, first premium, $40; Merrimack county, entered by James Blake of Concord, $30; the town of Langdon, $20; town of Concord, $15 and $10.

Most of the Premiums for Stock, etc., were awarded to people living in or near Concord; which goes further to prove that, after all, these State Fairs are but little else than local displays for the County in which they are held. We should like for old Portsmouth to have a chance at one of those Fairs.

The chief attraction of the Fair was the extensive exhibition of cattle—the "Cattle Show" proper. The Durham, Devon, Ayrshire, Native and mixed breeds, were all well represented. The number of Oxen was perhaps less than last year, but other kinds never more numerous or of better quality—and this is pronounced the best show of stock ever made in the State. Wm. Wendall of Dover, had the heaviest pair of working oxen, weighing 4,600; Benjamin Farnum of Concord, the next, weighing 4,400. The Enfield and Canterbury Shakers were well represented, and so were the Sullivan, Cheshire and Grafton farmers, but a larger share of the Stock is owned in Merrimack County.

Aside from the oxen, says the Manchester American, much of the stock on the ground, bears the most evident marks of having been kept high from its birth. It is pampered stock. It is not stock that has been taken from the rough and tumble of ordinary farm treatment. Let some of the fine Durhams shown, be subjected to ordinary fare, and they make coarse and cheap animals.

It seems to us that our Fairs should not be made up of a few pampered animals,—animals, the owners of which have spared no pains to see what they could make of them; but of stock brought up from the ordinary farm treatment—of whole herds, good, bad and indifferent. What is wanted, is not to see a few pampered animals, but what is actually done under ordinary farm treatment on a whole herd; or to show how different modes of treatment affect different breeds, and what breeds will do the best, and make the most valuable animals under the most ordinary mode of farm usage.

The show of horses was very good, though by no means equal to Vermont. The number of substantial horses is large—of the fancy, comparatively few. Of mares and colts there was a large and valuable show.

The trotting for the premium of the 1st class of horses seven years and over, came off on Thursday. Only one entry was made for this class. John Wiggin of Farmington named the "Leighton horse," and went round the half-mile course twice in 2.55. This horse took a premium of $20 on Friday.

A horseback race was run for a purse of $25 on the course. "Frank," owned by Carlton Watson, made a mile in 2.10.

Stephen Scammon of Strafham took a premium of $5 for Southdown Sheep.

Of swine, James A. Stearns of Manchester had the best exhibition, and Wm. Parker of Suncook the next best—all Suffolks. There but few sheep and fowls.

The display of Dairy Articles was excellent—of Vegetables, good. There was plenty of sorghum molasses, some of it very nice.

A new and commendable feature was the exhibition of grains and seeds. Levi Bartlett, Esq., formerly editor of the Boston Cultivator, and an agriculturalist who farms according to the book, exhibited samples of wheat which produced 28 bushels to 1 1-4 acres. This is a good yield for New Hampshire. Mrs. Nancy Barker of Manchester exhibited some millet seed.

The exhibition of flowers was meagre.—Either the ladies had not much spirit in the matter, or else the society held out no inducements for the exhibition of the beautiful products of nature. The show of fruits is small, and mostly confined to apples.

Among the marbles, of which there was a fair show, was to be seen a block of granite fresh from the quarry, which contains a large pebble—a stone weighing nearly an hundred pounds, imbedded in the clear granite, as if it were a kidney potato in a lump of dough.

The Address was delivered by Gen. Thos. K. Oliver of Lawrence, on Thursday; and was long, though very able.

On Friday, Mr. S. A. King of Philadelphia made a successful balloon ascension. He left Concord at 3.30, and landed at Tewksbury, Mass., at 5.40.

A resolution, directing the executive committee to inquire whether the society ought not to make some additional compensation to Col. Gale, the Chief Marshal last year, who was made a cripple for life while attending to his duties, was passed. He had been already paid $50; and was now voted $100 more.

There was a Plowing Match on Friday. There were five ox teams, and as many horse teams. Also, an exhibition of Mowing Machines; Manny's did best in the matted second crop of clover.

"No movements of horse-flesh worthy of notice were made. Indeed, the Society has not thought it best to encourage fast trotting to any great degree, as it detracts from other more important matters."

☞ The New York Independent, commenting on the defalcation of the Corresponding Secretary of the Sunday School Union at Philadelphia, says their card impeaches the wisdom and fidelity of the managers no less than the integrity of the Corresponding Secretary, since it shows that the Secretary was allowed to give notes for the Union in his official character without the formal authorization of the Board, and without any restraint whatever. "The Sunday School Union," it adds, "should wind up its affairs and go into liquidation, rather than subject itself in the remotest degree to the reproach of repudiating its debts."

"TALKING HORSE."—There is a general proclivity among all classes of people who can do so, to express themselves in the technical terms used by sporting men.—Even our staid and dignified friend the editor of Dwight's Boston Journal of Music, in his last paper speaks of "putting an organ through its paces"—referring to the splendid new instrument at Rev. T. Starr King's church. We don't know which side of the horse-racing-at-fairs question Dwight takes.

☞ The N. Y. Independent's list of failures this week is 122; but a larger number has surely taken place, as none, for instance, are given in Massachusetts out of Boston, while many are known.

☞ Bayard Taylor states that the fishermen on the coast of Norway are supplied with wood from the tropics, by the Gulf Stream. Think of Arctic fishers burning upon their hearths the palms of Hayti, the mahogany of Honduras, and the precious woods of the Amazon and the the Orinoco!

☞ Gov. Andrew Johnson has been elected United States Senator from Tennessee. The Santa Anna bribery revelations of Gen. Pillow do not appear to have answered the purpose intended.

MISSIONARY COMING.—The famous Parson Brownlow writes to the New York Times that he is coming North to enlighten our "benighted free soil population" upon the subject of slavery. He says he looks upon the cities and towns of New England and the Northwestern States as opening a wider and more inviting field, at this time, for missionary labors, than Hindostan, Siam, Ceylon, China or Western Africa! We do not know of any to oppose the Parson's coming, save the ——, who are very sensitive about clerical gentlemen interfering with politics.—*Lowell News.*

☞ The editor of the Nashua Telegraph announces that he has "resumed payment on all bills not over one dollar and a half"—some of his subscribers paying up having enabled him to do this.

☞ Mr. Wise did not make his expected balloon ascension from Great Falls, on Tuesday—doubtless because he lost his balloon at Bangor.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 3 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept15 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms, and as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks New and Fresh every week. And as this an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 16 Market Street. ALLEN & PAINE.

MOTHERS! MOTHERS!! MOTHERS!!!
AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. WINSLOW'S SOOTHING SYRUP for Children Teething. It has no equal on Earth. No mother who has ever tried MRS. WINSLOW'S SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is the old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 36 Market Street and by Druggists generally. july21&8 wly

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

General Agents in Boston, BURR, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & Co., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

And sold by Druggists throughout the United States and British Provinces.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'œuvre of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

SUPREME JUDICIAL COURT.

SATURDAY, Oct. 10.

John Brown, who was arraigned for breaking and entering a store in North Hampton, retracted his plea of not guilty, plead guilty, and was sentenced to five years' hard labor in the State Prison at Concord.

The jury on the case of Jeromiah Carter of Kingston, brought him in guilty of violating the Act for the Suppression of Intemperance.

Two other cases were pending against Carter. On these he retracted his plea of not guilty, and plead guilty to both indictments.

Wm. H. Moore was put on trial for stealing money from a fellow workman.—The jury brought in a verdict of guilty.

The Court adjourned to Monday morning at half past ten o'clock.

MORE BURGLARY.—On Friday night, the store of Rufus K. Oxford, on State street, was broken into, and $6 in change taken from a box. The papers and other articles were left in the greatest confusion. The bar used to secure the back window was wrenched from its socket and much bent, showing that the rascals had strong tools to work with. All the scamps are not in State Prison yet.

WESTON'S VARIETIES.—We are informed that this popular company, of which Prof. Kirbye is the manager, intend performing at the Temple on Tuesday evening, the 13th inst. All our exchanges speak in the most flattering terms of the performers. Prof. Kirbye, said to be the greatest general performer living, appears in an endless variety of scenes, consisting of ventriloquism, magic, feats of extraordinary strength, light and heavy balancing, comic and sentimental singing, &c. We copy the following from the Newburyport Herald of Saturday last.

Prof. Kirbye and Mdlle. Lucille, who have been entertaining our citizens for the past few evenings at the City Hall, have met with remarkable success and have no doubt gained the confidence and good will of the people who have attended their exhibitions. They came to us well recommended as artists, and have since proved themselves such to the entire satisfaction of every patron. This afternoon being the third and last leveo, every one who has not seen these wonderful performances, should avail themselves of this opportunity.

☞ Hon. Daniel Clark, U. S. Senator elect from this state, visited the Navy Yard on Thursday, and was received with the customary salute.

☞ The Adjourned Meeting of the Portsmouth Washington Total Abstinence Society, takes place at the Temple, this (Monday) evening, at half-past seven o'clock.

THE PROFIT OF GAMBLING.—The Newburyport Herald says: "It is sometimes argued that we should license liquor selling, though it does breed mischief, for its receipts into the public treasury, that would go to support the paupers it makes. The same argument is equally good in favor of licensing gambling, that the license money might pay for the prisons to hold the rogues it creates; or brothels, that the license money might support the illegitimate children that must be fathered by society. Every little while this summer, our police have pounced upon the gamblers, that till this year have been undisturbed in their villainous operations. A part of the fines paid by the black legged fraternity, goes into the city treasury. Thus *one* "shaking" gentleman has paid for the use of the city of Newburyport, within three months, nearly a hundred dollars: and if we mistake not, our worthy City Marshal will sweat them till they will find this to be rather an expensive place to carry on their operations. We wonder that some of the advocates of licensing rum shops to lessen taxes, don't set up for licensing these pickpockets to pay off a part of the city debt."

☞ The Strafford Conference of Congregational Churches met at Alton, Sept. 29. The thirty-one churches of the Conference were represented by seventeen ministers, and fifteen lay delegates.

The Narrative says:

While the cause of temperance has made progress in some places, for which we rejoice, we are constrained to feel that on the whole it has not advanced, but rather declined, and we greatly fear this fact may be urged as a reason for the repeal of our excellent prohibitory law. The law has shown its efficiency wherever it has been enforced, but temperance men have been inclined to let the law execute itself. There is need that systematic, vigorous, and persevering efforts be made to promote the cause of temperance, and we commend this cause to the attention of the ministry and the church.

KANSAS ELECTION.—*St. Louis, Oct.* 9.—The Quindaro Chindowan of the 7th says: As far as heard from the election has passed off quietly. In several places the polls were kept open until Tuesday evening. We have no official returns, but we give the reported vote in the following places:

Gum Springs—Democrats 117, Republicans 28.

Monticello—Dem. 42, Rep. 7.
Oxford—Dem. 33, Rep. 9.
Clatch—Dem. 41, Rep. 19.
Spring Hill—Rep. 12.
Lawrence—Dem. 5, Rep. 545.
Lecompton—Dem. 300, Rep. 100.
Centropolis Mine—Rep. 108.
Willow Springs—Dem. 5, Rep. 270.
Palmyra—Dem. 8, Rep. 198.
Lexington—Dem. 40, Rep. 26.
McQuirk—Dem. 6, Rep. 31.

Wyandotte gives 66 majority for Parrott, Republican candidate for Congress.

Easton—45 Republican majority.
Leavenworth—200 Republican majority.
Delaware—50 Democratic majority.
Kickapoo—450 Democratic majority.

In the latter precinct the troops voted at the instance of Walker.

Jefferson County is largely Republican, and Calhoun County doubtful.

Johnson County is conceded to the Democrats, but it is thought that Douglas Co. will give a sufficiently large Republican majority to carry the district.

THE PENNSYLVANIA LEGISLATURE.—*Harrisburg, Va. Oct.* 9.—The Senate last night passed to a second reading the first bill reported by the select committee, with the second and third sections of Mr. Brown's bill as the fifth section. The latter limits the bank dividends to 6 per cent, till the accumulation of the reserved fund is not less than 20 per cent. of the whole stock; after that the dividends not to exceed 9 per cent., and all excess to go to the State and reserved fund, to be invested in loans as security for the redemption of notes.

REDUCTION OF WAGES AND STRIKE AT SAXONVILLE.—The New England Worsted Company employ at their mills, in Saxonville, about four hundred hands. After the failure of the Treasurer, the managers were anxious to make such arrangements as would enable them to keep the mills running, whereby a large number of persons, dependent upon their daily labor for a living, would be retained during the coming winter. It was finally agreed, between the managers and overseers, that the mills should continue to run, and that a notice should be posted, stating that a reduction of wages would take place to the extent of twelve per cent. From fifty to one hundred of the hands, upon reading this notice, immediately quit work. The mills, however, still continue to run with their dimished force of operatives.—*Trav.*

Also, Hats, Caps, Boots, Shoes, Trunks, Valises, Carpet Bags and Umbrellas, and various other articles, such as are usually found in a Clothing Store.

In addition to the above, they have a large Stock of

BOYS' CLOTHING OF ALL KINDS,

All who are in want of *good* Clothing at *low prices*, will do us the favor to look at our large Stock, and they will be convinced that what we say is true.

MOSES & DOWNIE,
sept26 Nos. 33 & 37 Market Street.

Vulcanized Gutta Percha Clothing.

MOSES & DOWNIE,

SOLE Agents for the above Goods, have on hand a large Stock of the same, suitable for shore and sea wear.

These fabrics, since their first introduction to the public, (almost three years since,) have been fully tested, and the result has proved them to possess all the qualities requisite to make a perfect article. They have on hand numerous testimonials from gentlemen in the navy and merchant service, which they would be pleased to show any one who would favor them with a call. They have been supplying some of the officers of the Falmouth, who have tested the Rubber goods, and found them unfit for sea service.

IT IS NOT A DYE.

MRS. S. A. ALLEN'S

WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseased or of hair cut only, read the following and judge of the articles.

MRS. S.A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of bald fallings, &c., without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its effects," &c.

REV. LEWIS JUDSON, Fredericksburgh, Conn. "Withstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color." &c.

REV. J. P. TUSTIN, Amherst, Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth." &c.

REV. H. THACHER, 69 years of age, Fitchburg, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has exceeded my most sanguine expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obscured," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. J. C. SMITH, Prattsville, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. O. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatauqua Co., New York.—"I am satisfied and recommend it," &c.

REV. D. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York. "Recommends it."

☞ We might swell this list, but if not convinced, TRY IT.

We export these preparations to Europe even, and they are superseding all others there as well as in the United States.

It does not soil or stain. Sold by all the principle wholesale and retail merchants in the U. S., Cuba, or Canada.

FROM UTAH.—The Washington Union of Thursday has the following :—

A letter dated Fort Kearney, Sept. 5, received in this city yesterday, states that a party of returning Californians, who passed through Salt Lake on the 25th of July, report that the evening before they left that city the Mormons arrested Mr. Wilson, whom the late Surveyor General Burr left in charge of the office, and with a rope around his neck and a pistol at his breast, compelled him to answer several questions which they propounded about Bell Mogo and others. Mogo was connected with the Surveyor General's office.

The Mormons made Wilson promise to bring Mogo to them during the next day, before they released him. Mogo obtained information of these proceedings, and immediately quitted the city, leaving his wife behind, so precipitate was his retreat. They went in pursuit of Landon and the other clerk, but Landon escaped by jumping out of a second story window. He went that night somewhere south, and the report is that he was overtaken and killed. As these Californians made but brief stay, they were unable to ascertain what become of Wilson.

They also say that the Mormons were making preparations for a fight, and did not conceal their hostile intentions. Elder Kimball, in his harangue in the Tabernacle, laughed at the idea of sending United States troops to Utah, and said he could "take his wives (30 or 40 of them) and whip the 2500 troops, and come back and do a good day's work afterward." He further said that provisions for the army would come down the valley, but the troops would never enter Salt Lake City.

Two companies arrived at Fort Kearney on the 5th of September, en route for Salt Lake, and the Fifth and Tenth Regiments of Infantry were at that time at Fort Laramie, for the same destination.

The writer of the letter says that Col. Hoffman had seized five hundred kegs of powder in the Mormon trains.

CROPS IN OHIO—SPECULATION IN BREADSTUFFS.—We copy the following extract from a letter of a Correspondent of the New Hampshire Patriot, writing from Cincinnati:

Of the crops this season throughout the grea Mississippi valley it is almost unnecessary for me to speak. Every one who reads the papers has found out by this time the true condition of things. Never since civilization planted its foot upon Western soil, has a more bountiful crop rewarded the farmer's toil. Three counties alone in Ohio yield twenty-seven million bushels of corn! Four other counties produce more wheat than all New England. In the rich valleys of Indiana and Illinois, corn is now offered at *fifteen cents* per bushel, or five dollars per acre in the field. Barns are overflowing, and vast stacks of grain dot the prairies in every direction. The whole West is one glorious "Harvest Home," and now may it truly be said—"there is bread enough and to spare!" Flour is selling in the Cincinnati market at $4.25 to $4.40 per barrel, and good judges who know the market predict that $3.00 and $3.50 will be the ruling wholesale figure within four weeks. Perhaps your readers are not aware that the chief reason why flour continues high in the East is, that *speculators own or control all the great lines of transportation*, and always contrive to keep the market a little short. By this means prices are kept at exorbitant rates. A well directed combination of Eastern capital would break down this monopoly. New Hampshire pays annually thousands of dollars for flour, and a large per cent. is profit to New York and Baltimore capitalists. At the rate flour is now selling in this market, say $4.40—$5.75 or $6.00 should be price in Concord or any part of New Hampshire; for a barrel of flour can be transported from Cincinnati to Baltimore for 90 cents, by canal most of the distance. From Baltimore, by ship, to Boston, Portland or Portsmouth, the freight would be small on a large cargo. This matter is worth looking into, for money can be saved by a little care and calculation. Of course Western people like the idea, so long as they have the product to sell, and the Ohio farmer, standing idle half the year, makes more money than the New England lander who toils unceasingly upon his hard and rocky farm, and then pays a double price for the "staff of life."

GREAT ROBBERY.—Messrs. H. E. Dibblee & Co., silk merchants, of 25 Murray street, have for a couple of years past missed large quantities of valuable silks and satins from their store, to an amount finally of $30,000. Every endeavor to ascertain the cause of the loss has been unsuccessful till within a few days past, when suspicions were fastened upon the merchant who did business immediately over their store, named George E. Parmlee, a dealer in straw goods. The suspicions were conveyed to the police, and an investigation followed, which discovered the fact that Parmlee had, from time to time, by the aid of a ladder rope, and occupying the Sabbath day as a day for thieving, succeeded in thus stealing this property and shipping it to Philadelphia and Baltimore. The man was arrested and confessed to the above; he had taken about the amount named, of which $10,000 remained unsold in Philadelphia, and about $700 in his store in Murray street. He was committed in default of bail. Parmlee is 35 years old, unmarried, and was for several years a clerk in the house which he robbed, and while there stood high in the confidence of his employers, Messrs. Dibblee & Co. He went into business a little over three years ago, and, as will be seen, he commenced robbing them systematically in a year after he left them, and continued operations till he was discovered.—*N. Y. Day Book.*

THE EARTHQUAKE AT PUIRA, PERU, is thus mentioned in a letter dated August 30:

"At 7 o'clock on the morning of the 20th the most severe shock of an earthquake ever remembered was felt here, which has done damage to the amount of five hundred thousand dollars. The shock lasted about a minute and forty-five second, and every house in the town has suffered more or less. The police have had one hundred and twenty-two houses taken down that were in a dangerous state, and a number of the churches have been completely destroyed. The river of Puirs, which had been dry, suddenly rose; in other places the ground opened and jets of dark colored water were ejected. There is no record of any similar phenomenon having taken place. At Paita the effects of the earthquake were less severely felt."

LIBEL SUIT WITHDRAWN.—The libel suit of Erastus Brooks, one of the editors of the New York Express, against the Kennebec (Me.) Journal, on account of an article published soon after the Presidential election last fall, has been withdrawn—the editor of the latter paper making a fair retraction. "The interposition of mutual friends and of counsel on both sides" led to this sensible course.

A SULPHUR BANK.—About three miles from Clear Lake in Napa County, California, and near the borax lakes, is a sulphur bank, from twenty to thirty acres in extent, and supposed to be thirty feet thick, sufficiently pure, it is said, for the use of the Mint in San Francisco. The sulphur appears to be constantly forming from a dam, steam constantly rising over the whole surface.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, by purchasing tickets at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. Accompanying the purchase of a ticket in every ten must draw a prize. Tickets are $10; halves $5; quarters $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer, the prizes range from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞Over 50,000 numbers that are drawn from the wheel, with the amount of each prize, are printed to will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Nashville *Union and American*, Louisville *Courier*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. LOTTERIES.
The well-known Maryland Consolidated Lottery, Class A, for 1857, is now in. The managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the application comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞The drawn numbers of the Maryland Lotteries are published in the State Commissioner in American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
This celebrated Cooking Stove having been in the market about many years, is well known to need any recommendation from us, which we need only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.

Magee's Patent Ventilating Stove.
FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES,
SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required.
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the particular may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain to restoring natural health to proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are subject, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No 4531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A SIGN OF THE TIMES.—Of the rival routes between Concord, N. H., and Chicago, Ill., a distance of ten hundred and fifty-two miles, one boasts over the other of being ten minutes shortest! This is a fair specimen of American character; it is a true sign of the times; a key to much that is strange and mysterious in our financial operations. What amount of money has been sunk in constructing these rival routes! What amount is lost daily in running lightning trains on these routes! And what for? To save ten minutes of time, to go a thousand miles ten minutes quicker than your neighbor. And what is gained by saving these ten minutes? Nothing, absolutely nothing, but just the name. And what is lost? All that is worth reckoning in the stability of our financial institutions, the permanency of our commercial establishments, and the general credit of our country. To construct rival routes all over our country, an inordinate drain has been made on our capital, funds have been sunk in this form of national improvement, credit has been stretched till every fibre of confidence is broken, and the whole falls. And all this to save ten minutes in going a thousand miles! Will it pay? Is it worth what it has cost?—the failure of credit, the corruption of morals, and the introduction of habits of general extravagance? In our opinion, the bill now lying before us, announcing ten minutes the shortest route between Concord and Chicago, furnishes a key to American character which will solve many of our financial puzzles. It evinces a disposition to do a thing quicker than anybody else, no matter at what price of money or credit, and however little advantage may be gained from it. The result is, we have gone to ruin oftener and quicker than any other race under Heaven. We have beat—that's enough.—*Cincinnati Gazette.*

THE NEGRO SOLDIERS OF THE REVOLUTION. Gen. John Thomas, of the revolutionary army, wrote to John Adams, on the 24th of October, 1775:

"We have some negroes, but I look on them, in general equally serviceable with other men for fatigue; and in action, many of them have proved themselves brave. I would avoid all reflection or anything that may tend to give umbrage, but there is in this army, from the southward, a number called riflemen, who are as indifferent men as I ever served with.—These privates are mutinous and often deserting to the enemy, unwilling for duty of any kind, exceedingly vicious, and I think the army here would be as well without them as with them. But to do justice to their officers, they are, some of them, likely men."

Only eighty two years have passed, and the supreme court of the nation has declared that the descendants of these black soldiers of the revolution have no rights that the white men are bound to respect—and this decision is made in deference to the prejudices of the descendants of the "indifferent and mutinous men" described by Gen. Thomas—men raised in the bad school of a petty tyranny.

FIGHT ABOUT APPLES.—A very unpleasant affair occurred in Bedford, a few days since, between two very respecable and aged citizens of that town, neighbors and members of the same church. A dispute arose about the ownership of a certain apple tree, that is on or near the boundary line or farm of each. One attempted to gather the apples, and the other interfered. A kick followed, then a throwing into the ditch, then an assault with a pole, then a rough-and-tumble, and finally, the weaker one was on the ground begging for mercy. One of them was tried yesterday, for assault and battery, and fined. He turns around and complains of the other, who is to be tried this afternoon. So they go, on the old principle, "An eye for an eye, and a tooth for a tooth," regardless of the new dispensation. If we should give their names this community would stare.—*Manchester Mirror.*

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS,
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but other diseases) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring that balance between the fluids and solids. Such is its potency, that like some matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machine now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

TUESDAY, OCTOBER 13, 1857.

☞ The failure of great merchants, banks, and railroads, continue and increase. On Saturday, in New York, the East River Bank closed, but its *bills*, being secured, are current.

The Illinois Central and the Erie Railroads each made an assignment, the Michigan Central suspended, and there were other heavy failures, including Seymour & Co., paper dealers; J. H. Corliss & Co., a dry goods commission house; H. A. Colt, and John M. Genin, the famous hatter.

Sixteen hundred girls have been discharged by the cloak-making houses, during the past two weeks.

The Bank of Kanawha, Va., is under an injunction.

A telegraphic dispatch from Charleston, announces the suspension of the Bank of the State of South Carolina, a State institution.

With respect to the failure of the Harpers, in New York, it is said:

With bonds and mortgages on productive real estate in this city, for more than four times the amount asked for, and bills receivable for ten times the amount, and only asking to have their line of discount *restored* within $5000 of what it should be, and with the solemn assurance that without the aid asked they must suspend and discharge between six and eight hundred persons in their employ—they were coldly permitted to go, by the board, and thus compelled to bring distress and want among several thousand persons who were directly dependent upon them for employment!

SUSPENSION OF BUSINESS.—The extensive machine shop and locomotive works of William Mason & Co., at Taunton, have stopped, and all the hands employed, about 550 in number, have been discharged, on account of the pecuniary embarrassments connected with the failure of James, K. Mills, of Boston, who is the largest owner in these establishments. The Whittenton Mills, Taunton, a large cotton manufacturing establishment, of which William Lovering is agent, has also stopped running for the same reason, and the employees discharged. The Globe Print Works at Fall River are about stopping for a time.

WEARE BANK.—The Boston Courier says:

The Bills of the Weare Bank, N. H., are received at the Suffolk, and there has been *no day* when they were not redeemed there, as well as at its own banking house, in Hampton Falls.

VOLUNTARY ESSLAVEMENT.—Elizabeth Bickley, a free girl of color, aged about 22 years, voluntarily went into slavery at the present term of the Abingdon, Virginia, Circuit Court. She was bought by Capt. Samuel Skinner, Sheriff of that county.

This is the first instance of the kind we ever heard of, says the Abingdon, Virginia, Democrat, in this end of the State.—The woman is very intelligent, and was satisfied that a kind master was better able to provide for her than she was herself. This is a nut for Yankee philosophy to crack.

Yankee philosophy can't do it, until a few questions are answered: viz. 1. If a woman sells herself, who takes the money? 2. Is there any truth in the story? And 3. Is the woman drunk or crazy?

INTERESTING READING.—The Water Cure and Phrenological, Journals for October, are received from Fowler & Wells. They contain interesting and valuable reading. These, and Life Illustrated, a weekly paper published by the same house, form a useful library, of permanent value.

☞ At the N. H. State Fair, last week, George Clough of Concord had four Cape of Good Hope sheep, two ewes and two lambs. They are solid; the weight of their tails is ten pounds. The stock is considered excellent; their flesh is the choicest that can be procured for the table, but their fleece is not the best of wool.—Mr. Clough intends to cross the breed with native stock.

☞ We think there is some difference between a chap who "swells round," and don't *intend* to pay his bills; and another chap who tries but fails to raise funds.—That "Ward of San Francisco," was evidently a cheat from choice.

FIRE.—We learn from the Exeter News Letter that a house and barn took fire and were totally consumed on Thursday evening, between 6 and 7 o'clock, in the town of Lee, about three miles from Newmarket. It belonged to Mr. Davis. Some of our citizens returning from the State Fair at Concord, saw this fire and mentioned the fact, but no information could be obtained in regard to the matter.

A discontented family—Poverty, pride and laziness.

KANSAS ELECTION.—*St. Louis, Oct.* 10. Advices from Leavenworth to the 8th inst., state that Leavenworth county is the only one thus far heard from giving a Democratic majority. Donaphan county gives a Republican majority of 23; Atchison, a Republican majority of 44, and Douglas, a Republian majority of 1600. These returns are given as authentic. Topeka 190, and Calhoun 159.

Delaware and Kickapoo give Democratic majorities of 50 and 450. In the latter precinct the troops voted, at the instance of Gov. Walker.

P. M.—Later advices state that the majority for Parrott, the Republican candidate for Congress, over Ransom, the Democratic candidate, is from 5000 to 8000. According to estimate by free State men, the Council will stand 9 Republicans to 4 Democrats, and the House, 24 Republicans to 15 Democrats. Johnson county gives a Democratic majority of 250.

The reader will do well to bear two things in mind,—viz. that these returns are incomplete, and estimated; and that the term democrat, in these returns, means merely a pro-slavery man. The only issue in the contest, is slavery.—We can hardly believe, yet, that slavery has not prevailed.

HORSE-RACING.—Nothing will create more interest and excitement, most anywhere, than a trial of speed between good horses. Even many a staid gent, who wouldn't on any account lay a cent on such an event, or witness a thing of the sort where money was pending, will often put his valuable team at a risky rate of speed on the road, merely that you shan't pass him.

The Boston Journal tells a good story of a horse-loving gent who recently visited a race-course; and that night, in dreams, was there still, and witnessed over again a favorite nag of his come to the score a winner. His dream, which led him pleasantly thus far, now showed him that a blanket was wanted to cover the horse after the exercise of the heat. The driver apparently having none, our friend with alacrity offered his own, and in the excitement of the approach to the second heat, woke to a consciousness that the midnight breeze was disagreeably fanning his unprotected nether extremities, while he was carefully covering the foot board of his couch with his only bed blanket. His return to his sheets was like the rush of a winner on the home stretch.

☞ We have just received No. 2 (where is No. 1?) of Frank Leslie's New Family Magazine, which is an immense pamphlet of about 100 large pages, with 30 or 40 engravings, and a large amount of reading matter. The Gazette of Fashion is also joined with this work. Published by Frank Leslie, New York—one of the most enterprising and successful of publishers.

☞ Peterson's Magazine for November is just received, containing 46 articles, with 43 embellishments, C. J. Peterson, publisher, Philadelphia.—Edited by Mrs. Ann Stephens and the publisher.

HUNT'S MERCHANTS' MAGAZINE.—The Oct. No. of this excellent and always welcome magazine is received from the editor and publisher, Freeman Hunt, New York.

INSANITY ARISING FROM MORMONISM.—Mormonism bids fair to be the cause of many social evils. Two destitute women were found in the streets of St. Louis, last week, stark mad,—preaching and fighting by turns,—all on account of a desire to follow a Mormon apostle to the Salt Lake, and to realize his promises.

WASHINGTON NEWS.—*Washington, Oct.* 9.—(Herald correspondence.)—Private letters received here to-day from the South, by persons who sympathize with Walker's fillibustering movement, state that the recruiting business is progressing finely.—There are several hundred recruits already at New Orleans.

It is further stated that they apprehend no difficulty or hindrance in leaving any of the Southern ports, as most of the officers of the government sympathize with the movement.

The resignation of Edward N. Fuller, as Pension Agent at Portsmouth, N. H., was received to-day, by the Secretary of the Interior.

NEW ORLEANS, Oct. 10.—*Relics of the Central America.*—The ship Sultana, of New York, arrived here to-day, and reports passing on the 23d ult., off the coast of North Carolina, the corpses of four men, and a piece of wreck, supposed to belong to the Central America.

Monetary.—Money still tight. The decrease of specie in the banks for the week is $260,000. The decrease of deposits is but small.

THE LAST OF THE WASHINGTON FAMILY.—*Washington, Oct.* 11.—George Washington Parke Custis, the last surviving member of Washington's family, died at his residence, Arlington, Alexandria county, Va., yesterday.

DEATH OF JUDGE PREBLE.—*Portland, Oct.* 11.—Hon. Wm. Pitt Preble died last evening in this city, after three days' illness.

ANOTHER BALLOON ASCENSION.—We published last week, an interesting account of a very successful ride in the air, by Mr. John Wise—written at Great Falls, where he landed.

We now give Mr. Wise's narrative of another aerial voyage, made from the Maine State Fair, at Bangor, October 1st. He went "up like a rocket," but came down altogether too much "like a stick."

"My ascension to-day was rather unpropitious, though it went off handsomely from the ground prepared for it on Summer street. The day was squally and the inflation was accomplished in two hours—not without a good deal of trouble and anxiety on account of the boistrousness of the weather. At precisely twelve o'clock M., the hour announced for starting, the 'Young America' was released from her earthly trammels, and she darted upward like a winged steed, vibrating and gyrating tremendously for the first five minutes of ascension, owing to the great ascending power with which she started, and which was necessary in order to clear obstructions around the point of departure.

"After the clouds were surmounted, a long line of sea coast glittered among the heavenly tenements, and it was an enchanting scenery in that direction. To see the fleecy clouds and the ocean intermingled as it appeared to the aronaut when sailing above the level of the clouds, is a sight that cannot well be described; it must be seen to be appreciated.

"Upon taking a general observation 30 minutes after starting, I found the current waiting the air-ship rapidly eastward, and this out of the direction of Great Works, the place I had calculated to land at. By the time I had lowered into the current with which I started, the line of direction was into an uncleared and uninhabited country, and I made preparations to alight as near the bounds of civilization as possible. I could not intercept a single clearing, and the balloon was making rapid strides over the wilderness, and my next best calculation was to alight in some thinly wooded juniper bog, which was accomplished about five miles north-east of Gt. Works river. The grapnel took good hold and every thing promised a tolerable fair landing, and already the gas was fast exhausting; and upon looking at the time of day, I found the voyage was of an hour and five minutes duratiou; when all of a suddon a squall came howling through the trees, and snap went the side of the car.

The force of the wind ripped the grapnel rope through the side of the car, and the willow work flew in all directions, and such was the force of the wind that the balloon hauled the broken car over the tree tops, and occasionally jamming it against the body of trees so as to cause most terrific concussions with considerable wear and tear upon my apparel, and an occasional admonition that it were best for me to spring from the car to save broken bones. I stuck to the ship, however, until it had dragged me over a mile across tree tops and swamps full of underbrush, and finally through a pond or lake, dousing me several times under the water.

"This part of the voyage was as terrific as the earlier part was sublime, but I felt loth to part with my ship, and did not until it had dragged me across the pond, and was about dashing me headlong into a scraggy piece of dried woodland, where I concluded it was best to jump.

"At five minutes after 1 P. M., the 'Young America' left me in the midst of a wilderness, out of which I made my way with compass and chart. After travelling two hours, I made the stream of Great Works. This I followed down four or five miles, which brought me near Oldtown, where I arrived at six o'clock, and from whence I took the cars and arrived in Bangor at eight. JOHN WISE."

FATAL ACCIDENTS.—On Monday last, Robert Brooks, porter of the American Hotel at Burlington, Vt., attempted to spring upon the hotel coach, just as it was starting, but fell between the wheels, and one of them passed over his chest, injuring him so severely that he lived but a few hours. In the same town, the Saturday previous, a man named William Cayare, employed in the planing mill, while belting a wheel with a piece of wood, was struck with the wood across the abdomen, and died from the injury Sunday evening.

The Rev. William House, from Houseville, N. Y., was "Ordained to the work of the Gospel Ministry," and installed over the Church and Society, in the West Parish, (Presbyterian,) in Londonderry, N. H. Wednesday, Oct. 7th.

4 DAYS LATER FROM EUROPE.

The Atlantic brings four days later advices from Europe and a fortnight's later news from India.

The insurgents still held Delhi.

There had been many sharp encounters, in which the rebels were defeated. European reinforcements were arriving before Delhi, and the assault was looked for on Aug. 20th.

SPECIAL NOTICES.

The Celebrated Carminative cures all diseases of children, especially summer and fall complaints. "Bogus children" excepted.

MESSRS. EDITORS:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. B.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 3 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

A. GREGORY.

sept15

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

General Agents in Boston, BURR, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & CO., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'aeure of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

SUPREME JUDICIAL COURT.

MONDAY, Oct. 12.

The first of two indictments, against the Selectmen of Epping, for improperly placing names on check list, was put on trial, and occupied the day. Mr. Wells for the defence.

☞ We regret to learn that the Portsmouth Steam Factory is to run on short time, as all the other mills, everywhere, are doing. We understand that their stock of cotton will suffice only for running the full time about a week; but by shortening the day's work, the wheels will probably be kept in motion a fortnight at least.—The wages of the operatives have also been reduced 10 per cent. The mill we believe pays out about ten thousand dollars ($10,000) a month for labor; and the lack of this will be more or less felt by our people generally.

If we *had* a Stocking Factory here, *that* would doubtless have to suspend operations; but the business is now all in the hands of private individuals, most of whom *can't* well fail; but we believe this important though unobtrusive branch of domestic industry is not prospering so well as at some former periods.

MORE BURGLARY ATTEMPTED.—We understand that an attempt was made to break and enter the dwelling house of Mrs. Geo. H. Laighton, in Pleasant street, on Saturday night. The attempt was frustrated by Mrs. L. who demanded to know who was at the window and what he wanted. The burglar's reply was, that he belonged to the watch—and as he found the owner also watchful, he left.

It is well known that some accomplished thieves are in our city,—and it ought to be known by the store keepers and others whose premises have been broken open, that a certain groggery in our city is the rendezvous of thieves, pimps, and gamblers, and is frequented by few others. We have, however, no paid policemen who can afford to spend their time in watching such fellows, or in keeping surveillance over such places. Our City Marshal earns all he gets,—but his pay is a mere pittance.

☞ The Ballot says, of "our enterprising friend J. H. Thacher, druggist and apothecary, at the Good Samaritan Drug Store, corner of State and Pleasant street, that he is an excellent chemist, one of the most gentlemanly and accommodating men in trade, and keeps always on hand a general assortment of drugs and medicines, and a splendid stock of toilet and fancy articles." That's so.

DIGNITY IN CARRIAGES.—It was an amusing sight to see our city officials riding in carriages in the procession of Thursday last, while the officers of the Agricultural Society and the ex-President of the United States were content to go the short route on foot. The expense to the citizens, of this demonstration, is probably not far from a hundred dollars—an expense incurred, we understand, on the motion of Alderman Raynes, one of the greatest sticklers for democratic economy. The old adage in regard to "a beggar on horseback," applies well here.—*Ballot.*

We presume the ex-President and others mentioned walked because they chose to; and the City Government rode for the same reason. Eor ourselves, though not afraid to walk a couple of miles—we dislike to march in a procession in which there are also carriages or teams—the oxen and horses may run you down, and will certainly kick up dust enough to "choke a fellow," unless the streets are too damp to walk in comfort.

As to Alderman Raynes, he is amply able to speak for himself, and would probably prefer we should not notice this (which is not the first) rather uncourteous and ungentlemanly mention of his name, by the Ballot. With Mr. Raynes' politics we shall have nothing now to do; but we probably have as good an opportunity to judge as anybody, and we wish to say that he has proved himself a very efficient public servant, in various capacities—especially in School Committees, Common Council, and Board of Aldermen. Personally, he is a liberal and whole-souled gentleman; and we never before heard of his being "one of the sticklers" for undue economy. He is always among the first, for himself and in his official capacity, to encourage private and public enterprise in our city; and for such objects has contributed not a little, of influence, labor, and material aid.

☞ Signor Kirbye, the American Sampson, Ventriloquist and Magician; and Mdlle. Lucille; two of the greatest exhibitors living—should the weather prove favorable, will ride through all the principal streets of Portsmouth, at 10 o'clock, to-day, equipped in their beautiful oriental costumes—characteristic of the performances to be given at the Temple this (Tuesday) evening, Oct. 13th. Let everybody be on the look-out. †

WESTON'S VARIETIES.

The entertainment at the Temple this evening will undoubtedly be one of the best of the kind. The performances are spoken of in the highest terms of praise by the press, wherever they are witnessed. The Salem Register says "one thing favorable in their behalf is, they perform what they advertise, and to the entire satisfaction of all who attend." Prof. Kirbye, as a ventriloquist and athlete, is said to be without an equal; and Mdlle. Lucille, "the mysterious lady," creates considerable sensation among the curious. The Manchester American says, "we have, from personal observation, and plenty of other proof, convinced ourselves Prof. K. is without any equal, much less superior, in the wonderful characters he assumes."

Among the feats put down in the bill, Prof. Kirbye is to balance a heavy cart wheel on his chin, &c. The Prof. happening into Messrs. Sides' stable-yard, yesterday, was accosted by a pedlar, who was greasing the wheels of his heavy wagon, and challenged him to handle *that* wheel as he did others. The Prof. created no little amusement and astonishment by at once tossing it high above his head, and handling it as easily as a baby would a rattle, and a deal more dexterously.

There will be a performance to-morrow (Wednesday) afternoon, for the accommodation of ladies and children and others who cannot attend in the evening.

NAVAL.—We learn that W. P. Sanger, Esq., Engineer of the Bureau of Yards and Docks, on his annual tour of inspection, visited this Naval Station on Saturday, and made a minute examination of the works under the charge of the Engineer of the Yard. He expressed himself highly pleased with the progress of the work, and approved in every particular the operations of the past year and future projects. It is confidently expected that the extensive improvements upon the yard, proposed for the ensuing year, will receive the approbation of the Department and be urged for the favorable consideration of Congress.

The U. S. Surveying Steamer Bibb, Lt. Rodgers commanding, is at the Navy Yard. She has been engaged in taking deep sea soundings between this harbor and Newburyport, making her headquarters at this Station; and having completed the sound for the season, will soon leave for some Southern Station.

☞ Rev. Thomas Holmes, of the Independent Christian Society in this city, on Sunday morning administered the rite of baptism by immersion, at Noble's Island, to twelve applicants for admission to that Church.

Rev. Mr. Perkins, of the Free Will Baptist connexion, also baptized two individuals, at the same place, at noon on Sunday. The Free Will Baptists are holding meetings at the Temple, for a few Sabbaths.

☞ The Magee Coal Stove, advertised on the fourth page of this paper, is spoken of in the highest terms by those who have used it—and pronounced the best coal-burner ever invented.

☞ The beautiful and favorite song, Kitty Clyde, with brilliant variations, by Ch. Grove, is one of a lot of new piano pieces just received by Charles C. Harvey, at his Book and Music Store, Exchange Buildings.

☞ The Travellers' Railroad Guide from Boston to Portland, is a new book of over 200 pages, prepared by Joseph H. Bragdon, Esq. of Newburyport; containing lively sketches of every town and place on the route, and embellished with engravings of many public buildings and other objects of interest to the travoller. The information is exactly such as an intelligent tourist will esteem most valuable.

IT IS NOT A DYE.

MRS. S. A. ALLEN'S

WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseased or of hair, or scalp, read the following and judge of the articles.

MRS. S.A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of hair falling, &c., without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its effects," &c.

PRESIDENT J. H. EATON, L. L. D., Murfreesboro', Tenn. "Notwithstanding my great use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. S. MORLEY, Artichoke Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.

REV. M. THACHER, 90 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. PORTEUS, Stanwich, Conn. "It has exceeded my most sanguine expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is really efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. B. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatauqua Co., New York.—"I am satisfied and recommend it."

REV. D. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York. "Recommends it."

☞ We might swell this list, but if not convinced, TRY IT.

We export these preparations to Europe even, and they are supersedding all others there as well as in the United States.

It does not soil or stain. Sold by all the principle druggists and retail merchants in the U. S., Cuba, or Canada.

DEPOT, 355 BROOME ST., New York, where address all letters and inquiries.

For sale in Portsmouth by J. H. THACHER.

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags, Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youths' wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without charging any way to suit the purchaser. ☞ We find going the rounds of the newspaper press, the following paragraph from an impromptu speech delivered by Dr. Frank Fuller, of Portsmouth, New Hampshire, on board the steamer Neptune, during the recent excursion in Massachusetts Bay, gotten up in honor of the American Dental Convention, by the dentists of Boston.

"But, my brothers, aside from the genial and instructive communion upon professional topics, in which you have so earnestly engaged, you will return to your far distant homes, amid the rolling prairies of the West, or the broad savannas of the South, with hallowed and grateful remembrances of other joys and even keener pleasures. In your own homes, you will gather your friends about you, and tell them how you stood around the time-honored 'Liberty tree' on Boston's beautiful Common, and with choked utterance, speak of your emotions as you gathered together in Faneuil Hall—that cradle of Liberty, wherein the young goddess was rocked and nurtured until her supremacy was established, and every knee did homage to her sovereignty!—You will tell them of standing upon Bunker's Hill, beneath the very shadow of that granite finger which points ever to its familiar star—speaking, in language more impressive and eloquent than any human utterance, of the strife, the bloodshed, the agony, the victory! And of Massachusetts Bay, over whose placid depths you are now so gently gliding. And of the gallant band whose songs, more than two centuries ago,

——"the stars heard, and the sea,
While the sounding aisles of the dim woods rang
With the anthem of the free!"

And, amid these grateful recollections, you will not omit a passing tribute to the delicate courtesy, the bounteous liberality of your professional brethren in Boston and its vicinity. You will remember your deep indebtedness, during your visit to New England, to a Tucker, a Harwood, a Cummings, a Sheppard, a Wilson, a Hitchcock—to the host of noble-minded men who have done so much for the honor and elevation of our profession, and who have rendered Boston in deed, as well as in name, the 'Paradise of dentists.' You will remember the remark of my friend, Professor Oliver Wendell Holmes, that 'the tendency of the New England climate is to *narrow the faces* of its inhabitants.' It will be your pleasure to state that no climatic influence has proved sufficient to narrow the hearts of its people, and that the reproachful term '*aridæ natrix lessum*,' has lost its application; for you have found the 'dry nurse of lions' truly a 'cherishing mother' of noble men! And when they ask you as to the products of our sterile soil, you will tell them, that when God hung out his sign in granite profile, almost upon the highest point of land east of the Alleghanies, he did it as an assurance that in New England *he made men!*"

MURDER IN THE GROCERY.—On Friday night, at 10 o'clock, in Boston, Jerry Agin was killed by Thomas Mead, in the saloon, (i. e. groggery,) of Wm. Allen, corner of Court and Stoddard streets.—The Boston Courier gives the following particulars.

At half-past eight o'clock, Jeremiah and John Agin, brothers, were in "Allen's Saloon," now kept by one Burrows, at the notorious "Corner." John Mead was there also. A dispute arose between Jeremiah Agin and Mead; a quarrel followed, which was serious enough to require the interposition of the Police, who took the two men into custody, and conveyed them to the Third Police Station. The Lieutenant heard the complaint of the officer who made the arrest; but upon Mead's refusing to prefer any particular charge, both men were liberated.

The liberated disturbers of the peace returned to their favorite haunt; and a second quarrel was the result. This time it was Thomas Mead and Jeremiah Agin. It is pretty difficult to ascertain how it began. It is reported that "hard names" were called, and William Allen, the former owner of the saloon, states that he heard Thomas Mead, who was eating his supper in one of the stalls, cry out: "I'll have nobody choke me!" and John Agin told the officers that he saw "Tom Mead shoot his brother Jerry." Such is the statement of those who were present at the killing, which took place about half-past 9 o'clock.

Agin died instantly, without an utterance. The contents of the pistol took effect in the left shoulder of Agin. Mead, while on his way to the police station for the purpose of surrendering himself, was met by friends, upon whose advice he changed his purpose, got into a carriage, and secreted himself.

The dead Agin was a rogue of some distinction. He had served the State in the buildings at Charlestown and South Boston. Thomas Mead's name is familiar enough; but the Directory fails to give him a habitation.

Mead was arrested at 12 o'clock at East Cambridge.

A RAT SWIM.—Two boys playing in a barn at Detroit, found a rat in a tub of water, into which he had fallen while trying to drink, and after poking him under several times, left the tub—when a new actor appeared on the stage in the person of an enormous rat, and a sagacious one, for, after sundry frantic efforts to reach down and claw the sufferer out, he fairly turned tail, and setting his claws firmly into the board extended his caudal appendage into the water, thus forming a means of escape, which the rat in the water quickly availed himself of. He set his claws and teeth into it, and held on like grim death, while the old fellow started down the board by which he had ascended the tub, and tugged like a dray horse, until he brought his companion to the top, when they scampered off, seeming highly pleased with the result of the experiment.

DEATH OF MR. SINCLAIR, THE VOCALIST.—The Transcript makes the following extract from a private letter, dated London, Sept. 25th:

"I am sorry to tell you of the death of old Mr. Sinclair. He has been failing with gout, &c., for a long time, and just lasted long enough to know and rejoice at his daughter's success on the London boards. He died on the 22d. His death has been some time anticipated, which relieves, in a measure, the poignancy of the blow. His death proceeds immediately from exhaustion and age. He was 75 years old. He died tranquilly and without pain."

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interest of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme, one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes are from $50 to $20,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞ As the numbers are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Savannah *Republican*, Augusta *Chronicle*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.
Prizes paid in full—no percentage deducted from prizes at in other lotteries.
All communications strictly confidential. m1819

LOTTERIES.
The well-known Maryland Consolidated Lotteries, of which Messrs. Cohen & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. A ticket or fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the commission has come to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 Yes. Orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,
HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE,
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILIOS, CLARIONE, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal.
SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Magee's Patent Ventilating Stove.
FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give,
Any amount of Heat required,
and unlike all other Anth-scite Coal Burners, ventilate the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as from of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent. in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, he Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A MIRACLE WORKER.—The well known French missionary, Father Bridaine, was always poor, for the simple reason that he gave away everything he had.

One evening he asked for a night's lodging, of the curate of the village through which he passed, and the worthy man having only one bed, shared it with him. At daybreak Father Bridaine rose, according to custom, and went to say his prayers at a neighboring church. Returning from this sacred duty, he met a beggar who asked for alms. "Alas! my friend, I have nothing!" said the good priest, mechanically putting his hand in his breeches pocket, where to his astonishment he found something hard wrapped up in a paper, which he knew he had not left there. He hastily opened the paper, and seeing four crowns in it, cried out that it was a miracle!

He gave the money to the beggar, and hastened into church to return thanks to God. The curate soon after arrived there, and Father Bridaine related the miracle with the greatest unction; the curate turned pale, put his hand in his pocket, and in an instant perceived that Father Bridaine, in getting up in the dark, had taken the wrong pair of breeches; he had performed a miracle with the curate's crowns!

CORRECT RESOLUTIONS.—The following resolutions were passed at the late State Temperance Convention in Massachusetts, at Fitchburg.

Resolved, That while we gratefully acknowledge the blessing of God in the success that has attended the efforts put forth to suppress the use of alcoholic drinks as a beverage, from the beginning of the enterprise, we have great reason for gratitude for the present favorable condition of the cause in our own State.

Resolved, That the present prohibitory law of Massachusetts, so far from being a failure, has been productive of great good, by the actual curtailment and suppression of the traffic in many towns, and by the advantage ground of authority which it gives to the friends of temperance; and that now the the details of the practical workings of the law having been adjusted, and its constitutionality having been affirmed by the Courts, nothing is needed but diligence and energy to carry it into complete execution throughout the State, and to make it accomplish fully its original design.

Resolved, That towns and cities in which the prohibitory law has been faithfully enforced deserve our commendation; and that the authorities of Boston and other places in which the law has been neglected, deserve the decided condemnation of all good citizens; and that, as friends of temperance, it is our duty and determination to use our utmost influence to secure the election of such municipal officers only, as shall be faithful in the enforcement of the law.

Resolved, That the temperance enterprise is greatly indebted to the religious and secular press for their faithful inculcation of true temperance sentiment; and that we commend such papers, as well as those specially devoted to the subject, to public patronage.

Resolved, That the thorough and faithful indoctrination of their respective congregations by the clergy of the State, in the great moral principles of the cause, is as indispensable now, as it was in the first stages of the reform, to its general and abiding triumph.

Resolved, That we hail with approval, the revival of Washingtonian Total Abstinence Societies, Bands of Hope, and the establishment of "Homes for the Fallen," and all similar efforts to aid in the cause.

Resolved, That Peter Sinclair, Esq., of Scotland, by his faithful addresses, particularly to the children, has contributed greatly to a revival of true temperance zeal in our State; and that while we present to him our hearty thanks for his labors among us, we also express our deepest interest in the great temperance movement initiated by him in his own land, whereby so many thousands of British children and youth have become the pledged friends and advocates of temperance.

Resolved, That we hear with delight of the progress of the temperance principle in Great Britain and Canada, and that with our friends in those and other places, we will labor to make the blessings of temperance co-extensive with ever-spreading Christianity.

RESISTANCE TO LAW IN MISSOURI.—The Holly Springs Democrat contains the proceedings of a public meeting held at Byhalia, Miss., for the purpose of resisting the enforcement of certain acts, past at the last Legislature, prohibiting the circulation of bank bills under the denomination of $5, and the punishment of slaves with more than thirty-nine lashes for any one offence. They denounced the first as "inconvenient, unnecessary and intolerable;" and the second as "abusive of power, insulting and injurious to the south." They also determined to disregard both the laws, and resist by force any attempt to punish their violation, "throwing the responsibility of what may follow resistance, upon the Legislature, who are the aggressors."

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a resource for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRY INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every form of inflammation (but no other disease) is subdued by it as easily as fire is extinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adhesion to the point of a quill dipped into a solution of it, to affect the entire system.
☞ It is a chronic cabas, the enlightened community, and not the discoverer, must be the judge.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of unrivalled excellence.
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of Iron from which they are made, to which may be attributed their true strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

REV. N. MEDBERY,
CITY MISSIONARY.
RESIDENCE—31 State Street. OFFICE—29 State st.
Office hours from 10 to 12 A. M.

Morning Chronicle.

WEDNESDAY, OCTOBER 14, 1857.

☞ Last Monday, in New York, was a blue Monday.—The Grocers' bank suspended. The Evening Post of that day, says:

"The feeling among our merchants is one of great discouragement, but it is decidedly in favor of the Banks maintaining specie payment.

Among the failures reported to-day are Bowers and Beekman, L. O. Wilson & Co., and Hill, Dana & Co., of New York, and Doane, King & Co., of St. Louis.

We understand that a strong effort is making by the Albany bankers, since the failure of Corning & Co., to compel the New York city banks to suspend, and that the Governor has expressed his willingness to call an extra session of the legislature immediately, if necessary, to meet such an emergency."

AUGUSTA, Oct. 12.—The Southwestern Railroad Bank and the Bank of South Carolina suspended this morning. There is a run upon all the banks in Charleston.

CLEVELAND, (OHIO,) Oct. 2.—The Cuyahoga Steam Furnace Company has assigned. Their assets show $100,000 over liabilities. The Furnace employed 200 men.

NEW ORLEANS, Oct. 12.—The failure of Messrs. Corning & Co. of New York, did not affect the Southern Bank of this city. Rumors are afloat this morning of several failures, but they are not yet announced. Business is unsettled.

CHICAGO, Oct. 12.—Messrs. Wadsworth & Co., Bankers, of this city, suspended today. Their assets are as three to one of their liabilities.

The business of the country, generally, seems to be paralysed. Over importation and over trading, stimulated by *British* free trade—not *American*—and by a commercial system which, with a tariff discriminating against us, has done its work, and the country is now, where she was in 1837, only more so, as to finances. There is bread corn enough here, now, however, as there was *not* then:

The Albany Journal says:

The avenues of trade are lifeless. River craft are idle. You can walk miles along the Canal and not meet a boat. Boatmen are begging at this their "busy time of year." Not one barrel of flour or bushel of grain comes to market, where three have come heretofore. Factories are closed. Wheel and spindle have stopped. Looms stand silent. The hammer rusts, and the fire has gone out under the forge. Hard-handed men, willing and able to work, spend their enforced idleness in looking gloomily at the coming winter, and wondering where they are to get their bread. Out in the country, barns are piled full of heaps and heaps of grain. Corn houses overflow with golden ears. Cattle feast and fatten on luxurious abundance. But the farmer sits despondent by his October fire. He has food for the world, to sell, but the world does not come to buy.

In Congress, in 1842, the Harrison Whig party passed a protective tariff, James Buchanan voting with them, and *turning the scale!*

But in '46, the British Free Trade System was revived, and under this the bubble has been blown up, and blown up——till it has burst. And whoever lives a a few years, will see new movements in legislation, for bankrupt laws and protective tariffs: With what success we know not. But certain it is, that excessive importations of trashy gewgaws and foreign trinkets cost money and lead to poverty.

FAILURE OF NEW YORK BANKS.—A dispatch from New York, which has been shown to us, says that the Ocean, Marine, Irving, North River and Merchants' Exchange Banks have suspended payment.—There is a heavy run on the Bank of the Republic.—*Boston Journal.*

Twelve failures of merchants and jobbers, &c., are reported in New York on Tuesday.

☞ The hard times have reached Turkey. No less than fourteen merchants have been declared insolvent at Constantinople. Nearly all of them are Greeks who have been speculating excessively in corn.

☞ The Amoskeag Veterans, of Manchester, N. H., have voted not to make their contemplated excursion to Newport, R. I., for the present, in consequence of the commercial crisis. A sensible decision.

☞ We have received from the publishers at Philadelphia, a beautiful steel likeness of the late lamented Dr. Kane, whose memory will live in the hearts of the American people, long after all who regret his loss from personal knowledge, shall have followed him on that last voyage which all must make, and from which none may hope to return.

We are also indebted to a Portsmouth lady visiting in Philadelphia, for a sprig of evergreen from Dr. Kane's tomb.

One hundred and ninety-seven vessels were in sight of Portland, one day last week, catching mackerel.

☞ Frost had not made its appearance in Lenawee, Oct. 3.

For the Chronicle.

SIGHTS IN PHILADELPHIA.

PHILADELPHIA, Oct. 6, 1857.

Editors of the Chronicle:—Having spent three weeks in the Quaker City, I have thought it might be pleasant to take you and your readers, in imagination, sight-seeing with me. First, let us at the Mint, take a squint. It is a fine building, of marble, with large pillars in front, the small entrance giving one the idea of a prison; let us walk in. The conductor is polite, particularly if you tell him you are *Yankees*. Here we see gold, silver and copper in all its stages of being made into coin, and it seems if Uncle Sam would open the doors and distribute it equally there would be no need of the panic which has been and still is existing in this and other cities. However, as he is disposed to do no such thing, we can only look at the money, and pass on. In the second story we find a cabinet of coins which have been used for many centuries, some as early as 600 B. C.

Now let us walk down Chestnut street to Old Independence Hall. Here we stand on the spot where our forefathers stood when independence was declared. We can spend some time in looking at the portraits of the noble men of '76, which decorate the walls. Here is a grand statue of Washington when President, a desk of Franklin, a piece of the stone step on which the Secretary stood when he read the Declaration of Independence to the people, and last but not least the old bell that rang out the merry peal. A singular history is connected with this Old Bell. I will give it to you as taken from Watson's Annals. "This Bell was imported from England, in 1762, for the State House, but having met with some accident in the trial-ringing after it was landed, it lost its tones received in the fatherland and had to be conformed to ours by a recasting. This was done under the discretion of Isaac Norris, Esq., then Speaker of the Colonial Assembly, and to him we are probably indebted for the remarkable motto so indicative of its future use. 'Proclaim liberty throughout all the land, and unto all the inhabitants thereof.' That it was adopted from scripture (Lev. 25, 10) may to many be still more impressive, as being also the voice of God—that great Arbiter by whose signal providence we afterwards attained to that 'Liberty' and self-government which bids fair to emancipate our whole continent, and in time to influence and meliorate the condition of the subjects of arbitrary government throughout the civilized world." The Bell is now cracked and unfit for use.

Let us now take one of those convenient coaches which are never full, and visit Fairmount. This is truly a romantic place; the grounds are beautifully laid out, and the foliage is as green as in midsummer. On the one side of you is the Schuylkill in all its beauty, on the other the basin, (partly natural, partly artificial,) which supplies six hundred thousand with the pure crystal water. On the grounds the city has erected a very beautiful gothic monument enclosing a marble bust of Frederic Graff, projector of these noble water works. Here are many beautiful fountains, spouting their water fifty feet into the air; also a large hall connected with the buildings; we will pass through it, and gaze at the foam tumbling over the dam, (which was built by a Yankee, and has never been out of order) for the purpose of running the huge wheels which throw the water into the reservoir to supply the city. The force of the water is so great that in many parts of the city only the hose is used upon a Hydrant to extinguish fires. Judging from the Firemens' display, Philadelphia has a very efficient department, although we often hear of mobs and riots among them.

Now let us take the little steamer and go up the Schuylkill river about four miles, to Laurel Hill. The scenery is very beautiful; one would hardly realize it to be autumn, so gently has the frost-king dealt with the foliage. Here we are, at the end of our trip; now we'll take a stroll up the hill, and visit the Cemetery. The first object that arrests our attention on entering, is a brown stone house or sepulchre. Here, of the same materials, is a most perfect statue of Sir Walter Scott, sitting on a tomb-stone, conversing with Old Mortality, the old horse standing by with his head hung down, as if in a listening attitude to the silent conversation. I was riveted to the spot. I did not want to leave it, it seemed like a lesson I should remember while I live. But I must hasten on through the silent path, here and there is a most exquisite monument, erected to a Mother, Sister, Brother, &c., by some loved one, with flowers twined and most sacredly tended. No careless foot or ruthless hand is permitted here, every thing is kept with most scrupulous care. (I could but wish that this could be said of our own little Cemetery, where our loved ones are laid—but it cannot be.) We were led on until we reached the tomb of the late lamented Dr. Kane.

Here on the banks of the river, in a place grandly wild, was hewn out of a craggy rock the last resting place of all that was mortal of him whose memory is still fresh in the hearts of his countrymen. Not a word or a letter to designate who was laid there, (and we could not have found it if we had not had a guide,) but a simple granite front with iron door was all that human hands had done for it; the rest was nature left to revel on, in all its wildness: befitting place, for the remains of the great explorer.

I could not resist the temptation of bringing away with me some evergreen which grew on the Tomb, (a piece of which I send you.) The dusky shades of night are drawing over us, and we must leave this sacred spot, not we trust without some lessons of good.

Let us begin another day's ramble by visiting the College erected by the munificence of Stephen Girard. One can hardly give a description of this magnificent building, with its out-buildings and grounds. The main building is that of a Greek temple, having eight columns on each end, and eleven on each side, counting the corner columns both ways, making in all, thirty-four. The order of architecture is Grecian Corinthian. The columns are six feet in diameter, and fifty-five in height; the cost of each, $12,944; the weight of each, 103 tons. There are four out-buildings, all of which, including the main one, are built of white marble, inside and out; fire proof, nothing combustible, except the doors and window frames. The reverberation of sound in the vestibules of the main building are awfully sublime; caused by their arch—formed ceilings, this being the express direction of the will of the founder. Everything is on the most convenient and liberal plan.—Orphans are admitted, fed, clothed, and educated entirely by the institution. There are at present, three hundred and sixty; all between the ages of six and sixteen.—Their education is commenced with primary branches, and finished by all the higher English, as well as Spanish and French. The discipline of the institution is almost entirely admonition, deprivation of recreation, and seclusion. A steward, two physicians, and a dentist have charge of their respective departments, and are permanently located within the institution. Strangers (except Clergymen) are permitted to visit the College every day of the week. The following is a clause in the will: "That no ecclesiastic, Missionary, or minister, of any sect whatever, shall hold, or exercise, any station, or duty in said College; nor shall any such person, ever be admitted, for any purpose, or as a visitor, within the premises appropriated to the purpose of said College;" which is strictly adhered to. The remains of Stephen Girard are placed in a white marble sarcophagus in the lower vestibule, his full length statue in front. One of the upper rooms is appropriated for the safe keeping of his books, plate and effects generally. Religious services are held by the Teachers, every morning and on Sundays.

Churches of all denominations are numerous here, there being two hundred and ninety-nine, (299.) The houses have a very neat and uniform appearance, being mostly of brick with marble foundation and steps; close white shutters, defying burglars. There are many beautiful Parks or Squares, in all parts of the city, with fine trees, inhabited by black and grey Squirrels and Pea fowls.—On one Park, I counted fifteen deer, so tame that they would eat from your hands.

* * *

RECORD.—Michael Minner, residing in Philadelphia, went up stairs to the second story room of his house, and taking a fowling piece, placed the muzzle in his mouth, and by the use of the ramrod, discharged the gun. The load entered his head, completely blowing out his brains, and scattering them over the room. He was a drinking man.—A young man named White, who attended a wedding party in Lancaster county, Pa., drank freely and was found dead on the premises the next morning.—The Salem Register states that on Tuesday evening, Patrick Jenks, a currier, aged about 30 years, was drowned in the North river, near Carltonville. He fell from the railroad bridge while intoxicated.

NEW YORK, Oct. 12.—The Fall River steamer Empire State, which left here at 5 o'clock this evening, ran on the rocks at Hurl Gate. She had a large number of passengers, including one hundred and fifty ladies, all of whom were saved.

Two other steamers in New York Harbor went on rocks in the fog.

A GREAT YIELD.—Mr. Isaac Haradon of Amherst, has raised from one potato, half a bushel of potatoes, some of which weighed three pounds, the whole weighing 49½ lbs. The potato planted, came from California.

☞ The Mormons held a conference on Sunday, in New York city, the last they intend holding. The Saints are going to Utah, leaving the wicked Gentiles to shift for themselves.

SPECIAL NOTICES.

The Celebrated Carminative cures all diseases of children, especially summer and fall complaints. "Bogus children" excepted.

MESSRS. EDITORS:—The "Exchange" Cook Stove, sold by Mr. Blaisdell, will be found an excellent article. All who have used them, pronounce them without an equal. They are designed for coal, but will do good service even with wood. B.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

sept16 A. GREGORY.

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are noted in particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are guaranteed not to crack or break.

We receive our Silks new and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street. ALLEN & PAINE.

MOTHERS! MOTHERS!! MOTHERS!!!

DON'T fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 86 Market Street and by Druggists generally. july21d&wly

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver disease of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will do all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

General Agents in Boston, BURR, FOSTER & Co., No. 1 Cornhill; and GEO. C. GOODWIN & CO., Boston.

Sold in Portsmouth by JOS. HAVEN THACHER, Druggist.

And sold by Druggists throughout the United States and British Provinces.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'œuvre of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

SUPREME JUDICIAL COURT.

PORTSMOUTH, Oct. 13.

The case of the State *vs.* Selectmen of Epping, was laid aside, on account of the illness of a witness; and Austin Duffee was put on trial for stealing a horse, wagon and harness. The case was submitted without argument; and the jury returned a verdict, Not Guilty.

The case, Joel Bean, E. C. Bean, and John G. Furber, for assault on Wentworth of Newington, was then put on trial.

NOT STOPPED YET.—The Clerk of the Portsmouth Steam Factory informs us that he has heard no report of the Mill's stopping, except what he saw in the Morning Chronicle. The short time of working, and the reduced rate of wages, are both to take place in about two weeks;—but the mill is intended to run on. We are glad to correct the error—and the workmen, no doubt, have more cause for gladness than we.—The reduction in pay, of 10 per cent, applies to all grades, from the agent and overseers to the smallest boys.

☞ "Weston's Varieties" were received by a good audience, at the Temple, last evening,—who were well entertained.—Prof. Kirbye performed various feats of strength, impossible to most men; and his Ventriloquism was first rate. Middle. Lucille astonished everybody by her indescribable powers of vision of some sort. The Comic Singing was well received.

They perform again this evening, with change of programme.

☞ The ladies and children will have a glorious opportunity of seeing the wonderful performances of Prof. Kirbye and Mdlle. Lucille, this afternoon at 3 o'clock. All schools of the city are invited and expected to attend, as well as others who cannot well be present at the evening levees. The afternoon performances are unlike the evening representations, being more particularly adapted to a juvenile audience. All children belonging to any school in this city, may procure tickets of their teachers this morning, or at the door of the Temple this afternoon, at the reduced price of 5 cents.

This evening there will be a grand performance complimentary to the gallant Fire Department of our city, and the Engine companies will be present in full force. The price of admission will be fifteen cents, as usual, unless a deduction be made previous to the opening of the doors.

WASHINGTON TOTAL ABSTINENCE SOCIETY.—At the adjourned meeting of this Society, held in the Temple on Monday evening, the following officers were chosen for the current year:

T. H. Miller, President.
Wm. P. Harvey, Vice Pres.
F. W. Rogers, Sec. & Treas:

Hampti Kenney, Wm. C. Hatch, John Durgin, Horatio Tuckerman, John H. Slater, *Executive Committee.*

☞ Captain George F. Pearson of this city, has been ordered to the command of the steam-frigate Powhattan. Her destination is supposed to be for the Pacific.

CHANGE OF SERVICES.—Rev. Wm. House has lately been ordained pastor of an old presbyterian parish in Londonderry, N. H. A correspondent of the Concord Statesman informs us that Mr. House, who came from Princeton Seminary, "has introduced a change in church service, which wakes up the ideas of some of the old Scotch Irish who were wont to attend upon the ministrations of Dr. Morrison, Dr. Dana, Mr. Hayes, and Mr. Adams. The change consists in dispensing with the usual forenoon sermon, and substituting in place thereof a Sabbath School, the minister closing the services with remarks explanatory of the lesson. This method is practised in New Jersey and some parts of Pennsylvania, and its alleged advantages over the old system are, that it interests and instructs the young, and allows the minister time to prepare *one good* sermon a week, in lieu of *two poor* ones. The success of this plan remains to be seen."

☞ A woman named Eliza Blakely, living at Troy, N. Y., was found dead in her bed, on Saturday morning. The Albany Knickerbocker says—"the cause of her death is unknown. Her body presents a sickening appearance—being covered with marks from head to foot—showing the sufferings she had undergone from the beatings of her inhuman husband. The neighbors say they were quarrelling continually, and that both were intoxicated more than half the time."

The Detroit Tribune says a person worth several thousand dollars, who attempted to commit suicide in that city a short time since, purchased his arsenic at a drug store. They asked a shilling for the amount, but he actually beat them down to ten cents.

WASHINGTON, Oct. 13.—Tribune correspondence.)—A draft for twenty-four thousand dollars, drawn by the Spanish Minister and endorsed by General Cass, was protested on Saturday.

The surplus in the Treasury is reduced to thirteen millions of dollars. The receipts have nearly ceased.

A Treasury order may soon be expected, suspending the redemption of stocks for the present.

Senator Gwin has had a long interview with Secretary Cass, and urged the necessity of promptly suppressing fillibusterism. Mr. Cass replied that such was the determination of the government.

The Central American questions are all settled. The *de facto* government of Nicaragua is recognized, and Mr. Irissarie is to be received as minister.

Orders have been given to the commander of the Gulf squadron to arrest fillibustering expeditions wherever found; and Lord Napier has ordered Capt. Erksine, commanding the British squadron, to capture all fillibusters should they escape our squadron, and deliver them to the American commander.

KANSAS ELECTION.—*St. Louis, October* 12.—No official returns have yet been received from Kansas, but we have additional reports of the majorities in the various counties, which place beyond doubt the success of the free State party in the late election. Parrott is elected to Congress, and the free State men have a majority in both branches of the Legislature.

One of the best commentaries on this election (if the above reports turn out to be true) is found in the following extracts from a letter in the Traveller, dated Lawrence, K. T., Oct. 2.

Mr. Ransom, the slavery candidate for Congress, came to Lawrence on the 1st, and spoke in the evening.

"His speech was one of the fossilized remains of stump speeches in the former century, and he undertook to tell a Kansas audience what the Democratic party had been believed in ever since Noah's flood.—He gave a history of federalism—of a national bank—of a tariff system—of Washington's, Madison's and Jefferson's position—then coming down to the present age, said Douglas and Keitt were "great and good men"—and then brought out the startling fact that these principles were the only ones in issue in the canvass now going on in Kansas. Well, such an indignity to our living history is beneath serious comment. He then defended the slave system, &c."

ARREST OF EXTENSIVE THIEVES. — The sheriff of Montpelier, Vt., in conjunction with the police of Manchester, N. H., have arrested in the latter place two thieves whose transactions were not at all limited. Their names are George Elliott and Frank Delorens. They confessed to stealing great quantities of honey, and bee hives, flour, pistols, spy-glasses, clothes, and a variety of merchandise. They implicated Thomas Lafon and another man, both of whom are in custody. Beside the stolen articles found in their possession, were keys fitting the doors and vaults of the Montpelier Bank.

A WARNING TO BOYS.—Joseph Hardy was arraigned before the Newburyport Police Court, on Saturday last, for wantonly breaking the limbs from a young elm tree, near the Eastern depot, and sentenced to pay a fine of $15 and costs of court, amounting to $21.64. On another complaint for drunkenness he was fined $2 and costs. This lad, just in from sea and paid off, concluded to have a drunk. 'Tis another illustration of the proverb, that "a fool and his money are soon parted."

The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOHN MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

ADMITTANCE FREE!

REMOVAL.

E. Green & Co., Merchant Tailors,

HAVE just made great improvement in their CLOTHING ESTABLISHMENT.

It gives them great pleasure to announce their thankfulness to the people of this city and neighboring towns, for their kind patronage; through which, and their own facility of selling cheaper than any other establishment, we were enabled not only to increase our Stock to a great extent, but to accommodate our increased and increasing custom, we have obtained the large and commodious store,

No. 54 Market st., cor. of Hanover St.

opposite the Union Store. Said Store is more than double the size of our former establishment; we assure all who may favor us with their custom a courteous treatment and the value for their money. All who are in want of clothing, are invited to call and see whether our statement is true.

A variety of

Trunks, Valises, Carpet Bags,
Oil Suits, &c., &c.

As the articles we have for sale are too numerous to detail, we will say in short, every article belonging to Gents' and Youth's wear, can be found at our CLOTHING HOUSE; together with an assortment of Woolen Goods, of which we will make garments to order, or sell by the yard, and cut it for them without making, any way to suit the purchaser. Morning Chronicle.

For the Chronicle.

THE DRUNKARD'S HOME.

———The storm was hushed—
Long had it raged, and spent its chilling force
On that dilapidated dwelling, where,
In other days, joy, peace and plenty reigned;
But now th' abode of wretchedness and woe,
The drunkard's home. His wife and child
In utter loneliness and want, are there.
He, faraway, in haunts of vice and crime,
Has squandered the last cent that should have filled
His home with all the good that need requires.

The clouds had vanished from the azure vault,
Unveiling there the host of glittering stars.
The moon's mild light, redoubled by reflected rays
From banks of drifted snow, fell brightly shone,
Through those uncurtained windows, richly dressed,
As with an icy shroud of purest white.
No other light now cheered th' unfurnish'd room
Nor coal, nor wood, the vacant grate supplies,
Nor crumb of food the hungry mice invites.
But num'rous piles of snow, as driv'n through
The open casing, undisturbed remain.
Silence now reigned, save when a frost-drawn nail,
With crackling sound, th' impressive stillness broke.

The emaciated babe in vain had sought
To draw its wonted food from nature's fount;
The famished mother this no longer yields;
Its cry—its feeble moan—its plaintive sigh—
Is heard no more. Its quiv'ring lip is still.
The faithful mother strives to keep it warm,
And draws it closer to her aching breast.—
But all in vain, its pulse no longer beats;
Its feeble breath has ceased; life is extinct.

One deep drawn sigh escapes the mother's lips;
Then feeling that the last strong cord that bound
Her soul to earth, is severed, as ripe fruit
Is freely parted from the parent branch,
She breathes one silent, fervent prayer for him,
The object of her early—constant love.
"Father in Heaven, wilt thou his wrongs forgive?
O! turn him from his wand'ring evil ways,
And make him know and do thy holy will."
Then, like the Publican of old, she adds,
"Thy mercy, Lord, to me, a sinner, grant."

In calm serenity, her mind at peace
With others and herself, she sinks to sleep;
While o'er her unprotected limbs, the frost
In silence creeps, and palsies every nerve.
Still she sleeps on—and sleeps the sleep of death.
Farewell, fond mother, with thine infant charge;
Thy trials now are o'er; thy duty done;
No more with trembling heart shalt thou await
His long deferred, irregular return;
Nor feel again the pangs of pinching want;
Nor shall thine ear be pained with pining cries
Of one more dear than even life itself,
Without ability to give the aid
Which need, yea, stern necessity required.
But if thy spirit be allowed to roam
Mid scenes of mortal wo, angelic guide,
Then aid to lead him back to virtue's path,
To duty, and to God. A. F.

HARD LUCK.—Mr. Daniel Langland, at Newburyport, had an acre of onions this season, of which the maggots left only thirty bushels. These he pulled one day this week and left upon the field over night. What was his surprise to find in the morning, that some miserable thief had carried them all off. The hand was hired, and he, a poor man, is left without anything either from land rent or labor.—*Herald.*

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes range from $50 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Picayune*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Dey Book*. Write your address plainly, and direct to SWAN & CO., Augusta, Georgia.
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. ml1y

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to impartiality and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $30. No tickets are, however, sent unless the money for the same accompanies the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:
IMPROVED EMPIRE STATE.
This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.
THE WHITE MOUNTAIN IMPROVED,
being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.
THE REPUBLIC.
This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.
All sizes on hand, and every Stove warranted.
Also on hand all the different kinds of the most approved patterns; among which are the
BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.
Repairing Pieces of all kinds on hand.
The attention of all those who are about purchasing or exchanging Stoves, is invited, for we are determined not to be under-sold.
Our stock of
PARLOR STOVES
is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the
ILION, VILLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.,
OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Offices, Hall, Shop and Store Stoves of different Patterns.
The attention of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.
Remember the place to buy cheap is at
No. 61 Market Street.
FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING
PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.
WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give
Any amount of Heat required,
and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the cause of its produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.
These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them,
For Offices and Stores as well as the Parlor.
The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, equalling in use about 15 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,
THE FIRE MAY BE CONTINUED THROUGH
THE ENTIRE SEASON,
without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THIS combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed, as healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. they are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by sending One Dollar in a letter, *prepaid,* to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

DRUNKEN BOYS.—We learn from the Newburyport Herald, that on Saturday last, three boys, aged 15, 14, and 11 years, obtained rum near the foot of Winter street, and taking the liquor out back of the town, all drank to intoxication. One boy became dead drunk, so as to have very little consciousness for hours, and was taken up by one of the citizens, who being unable to restore him to self-possession, handed him over to the police, and all were then arrested. This case is to be investigated. "It is a burning shame that such an outrage should be perpetrated in our midst, and there is no prison too dark or dreary for the scoundrel who would sell rum to such children."

The Herald asks:

Shall we forever have tippling shops by the way sides, pest holes upon the public streets, that shall undo all the work of our schools and churches, and catching the little children when they run out to play, send them back helplessly drunk and debauched to their mother's arms?

We have boys of our own, and we know something of what parents might feel.—When ours go to the streets, thoughtless of the ways of the world, we say to such reprobate rumsellers, send them home in their coffins rather, and we'll thank you; but God forgive us, if we would let the villains go unpunished that should send them home in the condition of those boys on Saturday! We ask the city fathers, and the officers of the law, and all fathers, and all mothers, and all who care for humanity at all, to see that the strong arm of the law is outstretched in its power to protect us against such outrages in future.

We have seen drunken boys in Portsmouth; and the man who furnished the liquor went unwhipt of human justice—but the divine justice slumbereth not.

Now for the sequel. The Newburyport Herald of Tuesday says:—"Quite a sensation was created in most of the churches in this city on Sunday last, by a note, signed by a dozen heads of families, calling the attention of the clergy to the fact which we gave yesterday—the intoxication of four boys on one day—and asking the prayers of all God's people to save the rising generation from drunkenness. The request for prayers was granted, and in addition several of the ministers commented upon the matter, pointing out the dangers that beset the young from the use of spirituous liquors; and one of them followed with two sermons, another with one, upon the same topic. We are glad to see such an awakening in this matter. The voice of nine-tenths of the people is—"let this traffic, outside of the authorized agents, stop and stop at once; and let the agents comply with the letter and spirit of the law, or lose their licenses." That's the talk. Don't let it die out.

AN OLD MAN ROBBED IN FALMOUTH, ME.—Mr. William Blair, of Falmouth, an old man about 70 years of age, has been in the habit, for twenty years past, of saving all the silver coin which came into his possession, and placing it in a tin trunk which he kept locked up in his chest. A few days since he found the chest broken open and his savings of twenty years gone.

On Saturday the police of Portland arrested Leonard Allen, at his house in Falmouth, also Albert Ricker of Portland, as the guilty parties. Allen, when arrested, acknowledged that he stole the money, giving it to Ricker to get it exchanged for bills and telling him how he obtained it.—Ricker acknowledges receiving the money, but denies that he knew, or that Allen told him it was dishonestly obtained. The amount taken, Allen says, was $152, which has about all been gambled away, the only amount found upon them being $12, in Ricker's possession.—*Port. Argus.*

Elizabeth Barrett Browing thus describes a love scene, in which it is supposed she speaks her own experience:—

First time he kissed me, but he only kissed
The fingers of this hand wherewith I write;
And, ever since, it grew more clear and white,
Slow to world-greeting, quick with its "Oh list!"
When the angels speak. A ring of amethyst
I could not wear here plainer to my sight
Than that first kiss. The second passed in height
The first, and sought the forehead; and half missed,
Half falling on my hair. Oh, beyond meed!
That way the crysm of love, which love's own crown
With sanctifying sweetness did precede.
The third upon my lips was folded down
In perfect purple state! Since when, indeed,
I have been proud, and said 'My love, my own.'

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: REDUCE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every form of inflammation (but no other disease) is subdued, by its so easily as fire is extinguished by water. Is it asked, how it does this?—effully by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely that a single drop, to the point of a quill dipped into a solution of it, to affect the entire system.
If its universal use, the enlightened community, and not the discoverer, must be the judge.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their great strength. They are everywhere considered far superior to the hand-made spikes of common English iron, and inferior to nothing of the kind yet introduced to the public.

THURSDAY, OCTOBER 15, 1857.

THE SUSPENSION of the Specie Payments by the Banks in New Hampshire, as a consequence of a similar suspension in Boston, is an event which was by no means unexpected by those who understand aught of the laws of trade. It gives us pleasure to state that the condition of our Banks, individually and collectively, is good,—and their resources abundant. Over-trading has not been pushed so far among us, as elsewhere.

By a statement of their condition on the first Monday of this month, it appears that the whole liabilities of the banks in New Hampshire, (circulation and deposits,) amount to only $4,000,000; while their assets (debts due them, deposits in other banks, bills of other banks, specie, and real estate owned by them,) amount to $9,500,000; giving a surplus of assets over liabilities of $5,500,000.—Their whole capital stock is $5,000,000; and they therefore have $500,000 in assets above all their liabilities to the public and their whole stock. Their circulation is but a trifle over $3,000,000, which is but three-fifths of their capital stock, and less than one-third of their assets. The stockholders are individually liable to the amount of their stock, in many of the banks; and those where they are not, are sound and strong, except the Exeter Bank.

Our own State and City Bills should circulate among us in preference to others, as we know them better.

Suspension is a measure of temporary relief. It cancels no man's debts,—it renounces no obligations, it only postpones them;—enabling the debtor who is also a creditor, to collect and pay over without ruinous losses.

As the first consequence of the suspension, by this time general over the country,—flour, grain, provisions, &c., will begin to move again from the producer toward the consumer. Things will not go quite so fast as they have been going, but they will go steadier, as soon as they "get the hang of it."

BOSTON BANKS.—The Advertiser of Wednesday morning says:—

Our own banks yesterday afternoon, united in a proposition to the banks of New York, to make a liberal increase of loans and discounts, with the understanding that *specie payment should be maintained.* But before this proposition could reach New York, the banks there had fallen.

This, of course, occasioned a reaction in Boston, and all the Banks there, suspended by agreement, on Wednesday morning.

The Country Banks will follow suit, and the course of business will begin to run in the new channels, to conform to the present state of things.

☞ By the official returns published Wednesday morning it appears that the Massachusetts Bank had on Monday $349,496 in specie, to $127,186 circulation.—Inquiry being made at the Massachusetts Bank in regard to its suspension, the reply was, "Say to the public we are redeeming our bills and we are going to redeem them."

NEW YORK BANKS.

On Tuesday, there was a severe run for specie on the New York City Banks,—and in the evening a general suspension took place, by rule of a general meeting of bank officers, as follows;

A meeting of the Associated City Banks was held on Tuesday evening Oct. 13, at which a large majority of the banks were represented.

On motion of Mr. Knapp, seconded by Mr. Durham, the following Preamble and Resolutions were adopted:

Whereas, In view of the excitement prevailing in this community, and the fact of the actual suspension of some of the Banks of this city.

Resolved, That it is expedient that the Banks of this city suspend specie payments to-morrow.

On motion of Mr. Leveredge.

Resolved, that a committee of three be appointed to proceed to Albany and to request the Governor to convene the Legislature, to consider the necessity of enacting some law to give relief in the present financial emergency.

Messrs. Tileston, Durham and Knapp were constituted such committee.

On motion of Mr. Gallatin—

Resolved, That the most energetic exertions shall be made for an early resumption of specie payments, and that it be recommended to the banks to make no dividends to their stockholders until the resumption of specie payments.

On motion, *Resolved*, That the proceedings of this meeting be published in the morning papers.

THOMAS TILESTON, Chairman.
R. S. GARLEY, Secretary.

BANK SUSPENSIONS IN HARTFORD.—*Hartford, Oct.* 14.—At a meeting of the bank officers this morning, it was voted that the Hartford, Phenix, City, State, Farmers' and Mechanics' Banks, suspend specie payments.

The Connecticut River Bank has not suspended. There is no excitement.

N. H. STATE FAIR.—The editor of the Manchester Mirror, who is better posted in sporting matters than any other editor in the State, says,—"we have seen no criticism of the exhibition of horses, and not much could be expected, where the premiums were so small."—"There was but little trotting worthy of much mention. The best we noticed, was made by 'Draco,' in 2:53.—However, there were those there capable of making better time."

On Friday, a purse of $50, was made up for the fastest trotting horse. "Lady Langley" and "Nat Baker" came to the work, and Nat beat handsomely without skip or break. Thus ended the Fair.

It is difficult to judge of the number of people at a Fair, and the receipts are the best criterion. The receipts were small, between $3,300 and $3,400. At Manchester, the receipts have varied from $5,300 to $6,300, never below the former sum, we believe. The receipts at Concord, were about the same as at the Fair at Meredith Bridge. When the last Fair was at Manchester, the receipts were $5,832 88.

THE AERIAL VOYAGER.—Mr. King, who made the balloon ascension from the State Fair, at Concord, gives a graphic account of his journey. On ascending to the height of a mile, he found the air comfortable without an overcoat, and so transparent that he never before enjoyed so magnificent a view. On the north were the White Hills, westward the Green Mountains, east and south-east the blue line of the ocean, while to the south-west he could see the undulating surface of the Connecticut. He passed down the west side of the Merrimack till reaching Hooksett; he then crossed the river, and in passing over Manchester, descended so low that he distinctly heard the voices of several who called to him.

Passing on to Londonderry, a farmer standing in his orchard, invited him to alight and take a peck of apples, which he politely declined. Fearing he might run against the Pelham hills, he threw out ballast and went up to the height of nearly 9,000 feet, giving him a full view of Lowell, Lawrence, Haverhill, and other towns of Massachusetts. Lowell appeared darker than the other towns, probably from his looking upon the shaded side of the houses. As the sun was near setting, he opened the valve and gradually descended, alighting in a field about two miles from the Lowell Post-Office. Quite a number reached the field in time to assist him. Of the thirty voyages made by Mr. King, he regards this as the most successful.

☞ The celebrated, not to say notorious, Lola Montez has been lecturing in Boston, on various interesting topics—to large audiences. She gave a lecture on Tuesday evening at the Melodeon, on "Rome and Civilization." It was a vigorous, instructive and most able production. The "Mother of Harlots" was scathed and flaggellated in a manner that was as severe as it was truthful. Mad. Montez was passing some pretty severe criticisms upon the Church, when a man, or boor, in the gallery, arose and shouted out, "That's a lie—you are a liar." Nothing daunted, the gallant lecturess turned the insult into an illustration of the argument she was enforcing. The audience enjoyed the shot as much as the lout must have felt it.

PENNSYLVANIA.—The Election in Pennsylvania took place on Tuesday. Governor Packer, of the Democratic party, is re-elected by an increased majority. The vote is comparatively small.

The Pennsylvania Legislature, on the *same day*, took the back track, i. e. the House of Representatives reconsidered its vote rejecting the banks' relief bill: the bill passed both houses and was signed by the Governor, and the Legislature adjourned *sine die.*

A DREARY VOYAGE.—It is a remarkable fact that the three survivors of the Central America, who were brought into New York by the Bremen brig Laura, had drifted on their frail support *nearly six hundred miles* from the spot where the steamer sunk before they were picked up—a dreary voyage, the terrors of which, with a protracted and agonizing death staring them in the face, no one but themselves can realize. A Mr. Grant, from New York, who was picked up from the wreck of the Central America, after such terrible suffering, was on board the Arctic when that ship went down.

RACE BETWEEN LANCET AND FLORA TEMPLE.—A race between Flora Temple and Lancet took place on the Hartford Trotting Park on Saturday, mile heats, best three in five, purse $1000. Lancet won the first, third and fourth heats, and took the purse. Time:—2 24¼, 2 25, 2 28.—Flora took the second heat in 2 29.

CALUMNY REFUTED.—The London Missionary Society, which has had a fine opportunity to examine the workings of West India emancipation, makes the following declaration in its last annual Report:—

"In the West Indies the old and oft-repeated calumny is refuted, that starvation is the only corrective for negro indolence, and the whip the only effectual stimulus to exertion. There we behold our former slaves, by honest industry, acquiring in many instances the possessions of the men by whom they were regarded but as goods and chattels; and we see them expending their toils, not as their owners often did, in the gratification of low vices, but for the support of their Christian teachers, and in securing for their children the blessings of instruction."

MISUSE OF PARTY NAMES.—Our friends the Republicans call the election of the free State delegate to Congress from Kansas a "Republican triumph." Mr. Parrott, just elected to Congress by the Kansas free State party, is a Democrat, and never has avowed himself anything else. He recently said to Gov. Walker, "I claim to be a Democrat, not less than yourself; but I am a free State Democrat."—*Boston Traveller.*

Exactly so, responds Uncle Toby: a free State Democrat is just about the right kind of a democrat. A pro-slavery democrat seems to be a contradiction in terms.

HON. NEAL DOW.—We are informed by the English papers that Mr. Dow, after a tour on the continent, has returned to England; that he speaks on the 14th inst. in the Free Trade Hall, Manchester, at the annual meeting of the United Kingdom Alliance; that on the 16th, the Working Men of Manchester and Salford give him a Farewell Tea Party, in the Corn Exchange; and that he expects to leave Liverpool on the 26th—and to arrive in Boston about the 6th of Nov.

☞ Three months ago, the chimney of a fine residence in Portland was found to be full of honey; but as it was hot weather, it was deemed best not to "take" the immense hive then. On opening the chimney a few days since, to secure the rich harvest, not a bit was found—the bees had removed the whole, and were just carrying off the last bits of comb! Better "have taken it cold," eh?

Hon. Josiah Quincy, Jr., being called up at the dinner of the Norfolk County Agricultural Fair, said:

"That he was glad he was announced as 'Quincy, Jr.' He had often been mistaken for his venerable father—so often, that his father had come to say, as a standing joke, that 'he wondered why people would mistake Alexander the coppersmith for Alexander the Great.'"

THE EARTHQUAKE AT ST. LOUIS, MO., on the 8th of October, has been announced by telegraph. The Republican of the 9th says:—

Yesterday morning the city was visited by one of those mighty convulsions of nature, which set the world to thinking. Two distinct shocks of an earthquake were sensibly felt from one end of our city to the extremest verge. We have not heard of any great amount of actual damage done. Since the year 1811 no such poweful shock has been experienced here."

CONCORD MATTERS.—The Concord correspondent of the Manchester Mirror intimates that it is not now lawful to impose a fine for drunkenness, but it must be imprisonment in a house of correction or jail. He says:

One thing you will notice in your correspondent's reports from this city, for many weeks past, and you will find it so for many weeks to come—a total absence of all prosecutions of men for drunkenness;—and this meets the entire approbation of temperance men while the opponents of temperance are dissatisfied. Confinement punishes the offender most, while often a pecuniary fine punishes his family mainly; but in no place where offenders against the law for the suppression of intemperance, are allowed to go unpunished, should unfortunate men be prosecuted for being found intoxicated.

The same writer censures the conduct of some town liquor agents, and says:

Some of the towns in Merrimack county behave well in this matter, among which are towns in the part of the county nearest Manchester, such as Bow, Hooksett, Dunbarton and Pembroke, two of which are Republican and two Democratic; and I refer to them to say, the fault of appointing bad agents is not to be charged wholly to any one party, nor is the credit of acting well to be engrossed by any one party.—Bad influences exist in all parties upon this matter, and so do good influences.

MRS. CUNNINGHAM'S CASE.—*New York, Oct.* 13.—Mrs. Cunningham did not appear in Court this morning, when the baby case came up. Her counsel denied all knowledge of her whereabouts.

The partners of one of the business houses in Boston have an aggregate of thirty-one children. If these children are as expensive and unproductive as some that we know of, no wonder the firm suspended.

HISTORY OF INDIA, IN SHORT METRE.—The Albany Journal says:

"India is a country that has never belonged to its natives. Two thousand years ago Alexander and his Greeks led dusky captives in golden chains from there to Athens. After him it became the prey of Parthian bows and Scythian spears.—Then came Mahommed and his Persians from Ghuznee, to teach, by scimetar, the new theology, 'Allah is Allah, and Mahommed is the prophet.' Then the Affghans drove out the Persians. Then the Tartars drove out the Affghans. Then came Timour, the terrible Tartar, and the long and princely line of great Mogula—Baber and Akbar, Jehangire and Aurengzobe. The Mogul empire got, like the British, too big to hold together. Down went the throne at Delhi, and up sprung a crop of viceroys, nizams, kings, shahs, rajahs, newaubs and nabobs, all over the provinces. About this time H. B. M. East India Company came to trade, and stayed to rule. By cajoling one prince, threatening another, invading a third and 'protecting' a fourth, they got the whole concern into the hands of John Bull, and the lion and the unicorn. If the Sepoys succeed in securing a native Hindoo dynasty now, it will be the first they ever had."

UNCLE TOM.—The Charleston Courier denies the story that "Rev. Samuel Green, of Cambridge, Dorchester Co., Md., a minister in the Methodist Episcopal Church, has been sent to the State Prison for ten years, for having in his possession a copy of Uncle Tom's Cabin"—the editor adding:—"Uncle Tom's Cabin is read at the South by whoever chooses to read it—not secretly, but openly."

We saw a sheep on the fair ground yesterday that had not been sheared in three years, with wool on over a foot in length. A man with hair and whiskers still longer stood looking at the sheep. They seemed to be mutually admiring the excellent taste of each other.—*Buffalo Republican.*

NEW YORK, Oct. 12.—A collision occurred on the North River this morning between the steamers Metamora and Commodore. Eight lives were lost.

REV. E. L. Magoon, D. D., late of the Olive street church, New York, has accepted a call to the pastorate of the First Baptist church in Albany.

☞ The only place in this city where an Ambrotype can be obtained, is at Davis' Ambrotype Gallery, No. 8 Daniel Street, as they have the Patent, and all infringements will be prosecuted. sept9

☞ Probably most persons are familiar with the story of a little dog,—who, when the moon was shining brightly, used to run out and bark at her; but all the while the moon kept right on shining. Just so I KEEP RIGHT ON SHINING; or in other words,—keep right on making the various kinds of Pictures in the Heliographic or Photographic art.

A. GREGORY.
sept16

☞ Our friend in his illumination says nothing about Ambrotype, and does not seem to have the slightest idea that his "shining" is decidedly gassy. Don Quixotte's monomania never reached so high a point as that; but as we have as much as we can do by daylight, we do not make pictures by moon or gas-light, and our friends will govern themselves accordingly.

As regards the Ambrotype, we are determined to stop the sale of a spurious article, to the injury of our business, the deception of the public, and the consequent injurious impressions against the Ambrotype. For this reason, we offer $25 reward for an Ambrotype made in this place, other than at our Rooms. And as the word Ambrotype was coined for and patented with the Picture, we offer the same reward [$25] for any picture made or sold as an Ambrotype. Evidence sufficient to convict in the U. S. courts will be required in the last case; in the other, the Picture itself is all the evidence we want. DAVIS BROTHERS.

WHO THAT IS TROUBLED

With any of those disagreeable complaints, such as Jaundice, Dyspepsia, or Liver diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr. Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers, ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us, half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

WOOD'S HAIR RESTORATIVE.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the chef d'œuvre of the sculptor and the painter, and no lady, and indeed no gentleman of modern times is unmindful of this exquisite shield and lovely ornament of the face. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed such it always had been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become grey in early life, and bald before we reach the full grace of womanhood or the full stature of manhood.—Then it is that however much we may venerate the grey locks and reverence the wisdom of bald head among the honored remnants of the generation of three score and ten, we know that our grey hairs are cause more to lament than beautiful; while our bald heads are neither the one nor the other, but, on the contrary, are quite the reverse of both and impose upon us many social and sanitary disadvantages and discomforts.

Intelligence having this morning been received from New York and Boston, that the Banks in those cities have suspended specie payments: delegates from the several Banks in Portsmouth convened and unanimously adopted the following Resolutions:

Resolved, That the suspension of the New York and Boston Banks, compel the Banks in Portsmouth to cease for the present to pay specie for their liabilities.

Resolved, That the business of the Banks in this City will be conducted as heretofore, with the exception of the suspension of specie payments.

Resolved, That we will use our exertions to resume specie payments at as early a day as possible.

SUPREME JUDICIAL COURT.

PORTSMOUTH, Oct. 14.

The trial of the case, Bean & al. for assault on Wentworth, occupied the day till past 4 P.M., when it was given to the jury.

WM. H. Moore, for stealing money, was sentenced to 3 years in the State Prison.

☞ In the Supreme Judicial Court, on motion of Albert R. Hatch, Esq., Edwin N. Mathes of this city, having been duly examined, was admitted to practice as attorney.

UNCLE TOBY NOT ON STILTS.—The Ballot puts "Uncle Toby on stilts," in a paragraph about the Cattle Show procession. But unluckily, (not for Uncle T. but for the paragraph,) Uncle Toby happened to be, like and with ex-President Pierce, trudging along in the dust among the footmen of the procession. Not only so, he often walks half a dozen miles a day,—and sometimes a whole dozen: but he never goes on stilts.

The Troy Times says Rev. Reuben Gregg, formerly pastor of the North Troy M. E. Church, has been arrested, charged with the seduction of a young lady at his new station in Washington county. The seduction was accomplished while the wife of Mr. Gregg was on a visit to her friends, when he had engaged the services of the young lady as housekeeper. She is but 17 years of age, and had always borne a highly respectable name. Mr. Gregg was arrested while in attendance at a camp meeting in Sandy Hill. He gave bonds for the support of an expected heir, and for his appearance to stand trial for the charge of seduction. He has been dismissed from the church of which he was pastor, and will probably be expelled from the ministry, at the next meeting of the Troy Conference.

A MYSTERIOUS CASE UNRAVELLED.—The body of a young man named Sage, who disappeared very mysteriously at Middletown, Ct., about a year ago, has recently been found at mouth of the Connecticut river. From the New Haven Palladium, we learn that—

"Sage was last seen going to the barn, near which lived a laboring man, who had been accused several times by Sage of stealing his father's grain. Suspicion fell upon the laborer, and he was arrested, but it could not be proved that he committed the murder and he was acquitted. Many circumstances, however, pointed towards him as the guilty person; Sage was not seen afterwards, and a hole was found in the ice just opposite the barn, which led to the supposition that his body was thrown in there.

The mystery is now cleared up in a most surprising manner. A sailor has just returned to Middletown, and testifies that he saw the laborer, who was suspected, murder young Sage with a flail. He says that the man's wife was also with him, and that they pursued him and spared his life only on promise of secrecy. He was just about to sail on a voyage, from which he has now returned to unburthen his conscience, and give the guilty murderer to the hands of justice. He has been arrested."

A despatch dated Middletown, 10th, says:—

The name of the prisoner arrested for the murder of the boy Sage, in Cromwell, last winter, is Patrick Nugent. The circumstances of the case are such as to leave no doubt of his guilt. The examination was adjourned to Tuesday next.

RUSSIAN SERFDOM.—It is stated that the Emperor of Russia, before leaving St. Petersburg for his tour to meet the Emperors of France and Austria, approved the draft of a project for the partial abolition of serfdom; and on his return, the project will become law, and a ukase be published, directing owners to arrange for the liberation of serfs.

THE OXYGENATED BITTERS have no equal as a tonic medicine. They cure nervous debility, sick headache, acid stomach, waterbrash, loss of appetite, &c., all of which proceed from a weakened or deranged state of the stomach.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and to every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

WORLD'S HAIR RESTORER.

GRAY-HAIRED, bald, or persons with diseases of hair, or scalp, read the following and judge of the articles.

MRS. S. A. ALLEN'S ZYLOBALSAMUM,

Or World's Hair Dressing, is essential to use with the Restorer, and is the best Hair Dressing for old or young, extant, being often efficacious in cases of hair falling, &c., without the Restorer.

REV. H. V. DEGEN, Editor of the Guide to Holiness. "We can testify to its effects," &c.

FIELDING BAKER, L. D. D. "Murfreesboro', Tenn. "Notwithstanding irregular use, the falling off of hair ceased, and my grey locks are restored to the original color," &c.

REV. S. B. MORLEY, Attleboro' Mass. "It has changed the "Crown of Glory," belonging to old men, to the original hue of youth," &c.

REV. M. THALHEIMER 60 years of age, Pitcher, Chenango County, New York. "My hair is now restored; it is nothing like a dye," &c.

REV. D. T. WOOD, Middletown, New York.—"My own hair and that of another of my family, has greatly thickened, where almost bald," &c.

REV. JAMES McKEE, New York, recommends it, &c.

REV. W. FORTEUS, Stanwich, Conn. "It has not my most sanguine expectations," &c.

REV. J. F. GRISWOLD, Washington, N. H.—"It is usually efficacious in restoring the hair," &c.

REV. G. M. SPRATT, Lewisburgh, Penn. "We can and do cheerfully recommend it," &c.

REV. J. P. TUSTIN, Charleston, South Carolina. "The white hair has become obviated," &c.

REV. AMOS BLANCHARD, Meriden, N. H. "We think very highly of your preparation," &c.

REV. R. C. SMITH, Prattsburgh, N. Y. "I was surprised to find my hair turn as when I was young," &c.

REV. C. M. CLINCK, Lewisburgh, Penn. "It has stopped my hair falling and caused a new growth," &c.

REV. A. FRINK, Chatauque Co., New York.—"I am satisfied and recommend it."

REV. D. C. MORRIS, Cross River, New York.—"It is the best preparation extant."

REV. WILLIAM CUTTER, Editor Mother's Magazine, New York. "Recommends it," &c.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tone as clear and as pure as the flute, action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or Rows of Keys, the lower one running an octave higher than the other, and may be used separately, and thus got in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallettek Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this; one is MORE SUCCESSFUL AT THE PATENT OFFICE, than any other; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay here, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. They were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure (or them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AGENCY 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the course of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MANN,
Commissioner of Patents.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color or hue, if it could have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scurf, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD.—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from decay, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours.
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the most test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

Morning Chronicle.

FROM INDIA.—The accounts are distressingly interesting.

From Delhi intelligence comes down to August 12, at which time the city was still in the hands of the insurgents. A good deal of skirmishing had taken place, the rebels being invariably defeated, but with considerable loss to the British.

Gen. Nicholson arrived before Delhi on the 8th, in advance of his force, which was expected between the 13th and 15th, when the number of the besiegers would amount to 11,000 men. Further reinforcements were looked for early in September, increasing the army to 15,000. It was expected that the assault would take place on the 20th of August.

The accounts in regard to General Havelock, and the position of affairs at Cawnpore, are conflicting. According to one statement the General, after marching a second time towards Lucknow and defeating the enemy in two engagements, found the rebels to the number of 50,000 strongly entrenched at Lucknow, and had to fall back on Cawnpore, where, reduced to only nine hundred followers, he was expecting an attack from the insurgents.

Per contra, the Trieste correspondent of the London Morning Post, telegraphs that General Neill had attacked and defeated a large force near Cawnpore, and that Gen. Havelock had succeeded in reaching Lucknow, the garrison at which place had been in a most precarious position.

Agra dates are to Aug. 11. All in the fort were well and amply provided with provisions, but the force was very weak and calling urgently for relief. The whole Christian population was within the fort.

Bithoor was re-occupied by 4000 mutineers, but on the 16th Gen. Havelock attacked and carried the position. The 8th Native Infantry at Hazarabach mutinied on the 30th of June and liberated all the prisoners. Most of the Europeans escaped to Bagoda, but there is every reason to believe that Major Oakes was killed.

Calcutta was becoming crowded with fugitives from all parts of Bengal. There had been symptoms of disaffection in the 12th Bombay Infantry, forming a part of the Rajahpoota's field force. They refused to give up a mutinous trooper, and formed a square around him. He then fired at Brigadier Mocan, when three or four of the European artillery dashed into the square and cut him down. A portion of the infantry were disarmed.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the ignorant, and everything is fair to 800 or 900; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—*New Orleans Delta, Mobile Register, Charleston Mercury, Savannah Republican, Atlanta Intelligencer,* and New York Weekly *Day Book.* Write your address plainly, and direct to SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

LOTTERIES.

The well-known MARYLAND Consolidated Lotteries, of R. E. LEE & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to see superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to come after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same accompanies the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

STOVES.

Frank Jones, No. 61 Market St.,

HAVING received his Winter Stock of Stoves, is now prepared to furnish them to his customers and the public generally, at such prices as cannot fail to suit the most economical, among which are the following:

IMPROVED EMPIRE STATE,

This celebrated Cooking Stove having been in the market many years, is too well known to need any recommendation from us, we would only say that we have received a large Stock of different sizes, to which we invite the attention of purchasers.

THE WHITE MOUNTAIN IMPROVED,

being among the first class Cooking Stoves, is a very heavy, durable, and economical Cook Stove, and a good operator with either wood or coal, and warranted to give satisfaction in every particular.

THE REPUBLIC.

This Stove has been in the market a few years, and those who have used it, speak in the highest terms of its good qualities.

All sizes on hand, and every Stove warranted.

Also on hand all the different kinds of the most approved patterns; among which are the

BAY STATE, TROY, STAR, AMERICAN, BANNER, NIAGARA, PORTLAND, AURORA, &c.

Repairing Pieces of all kinds on hand.

The attention of all those who are about purchasing a Cooking Stove, is invited, for we are determined not to be under-sold.

Our stock of

PARLOR STOVES

is complete, comprising the most desirable patterns in the market for either wood or coal—among which are the

ILION, VIOLA, LADY FRANKLIN, FAVORITE, RUBY, &c. &c.

OVEN PARLORS in great variety for wood or coal. SHEET IRON STOVES of all sizes, with or without ovens. Also, Office, Hall, Shop and Store Stoves of different Patterns.

Those attending of all who are in want of good Stoves at a low price, is invited, for we are determined to sell lower than any other establishment in the vicinity.

Remember the place to buy cheap is at

No. 61 Market Street.

FRANK JONES.

Magee's Patent Ventilating Stove.

FOR WARMING AND VENTILATING

PARLORS, OFFICES, HALLS, STORES, SCHOOL HOUSES, &c.

WHICH for economy, purity of air, and ease of management, has no equal. It can be regulated so as to give

Any amount of Heat required,

and unlike all other Anthracite Coal Burners, ventilates the apartments quite as thoroughly, as a wood fire or Franklin, producing a current of Air, at once moist, pure and agreeable, and as none of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them.

For Offices and Stores as well as the Parlor.

The Inventor challenges the world to produce an article by which so much Pure Warm Air can be generated, from so small an amount of fuel, requiring but about 16 pounds of Anthracite Coal, to warm an ordinary sized parlor for 24 hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal. The coal is all used, and no clinkers made, consequently, sifting coal is dispensed with.—When this Stove is properly managed,

THE FIRE MAY BE CONFINED TO THROUGH THE ENTIRE SEASON,

without once going out. Added to all these qualifications, the purchaser may reasonably expect to save from 30 to 50 per cent, in fuel expense.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain for restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring the system into proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. A all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid,* to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE DRUNKARD'S RETURN.

A sequel to the "Drunkard's Home."

From scenes of dissipation and debauch,
Th' loathsome drunk'rd finds a choiceless bed
Mid dogs and filth, upon the bar-room floor,
Where he snores on, unconscious of the cold,
Till by the keeper roused, and bid depart;
While he had money, he was welcome there,
Might lounge, and sing his senseless vulgar songs,
Or reckless take in his Maker's name,
And belch out oaths and curses unreproved;
But not so now that his last dime is spent.
With bloated visage, aching head, and limbs
Stiffened and trembling, he gets slowly up,
And calls out roughly for another dram
To quench his raging thirst. With insolence
He now is ordered quick to leave the place.
Then comes a flood of hoist'rous, vulgar oaths,
As each the other charges with abuse.
At length, to end the strife, and clear the room
Of an unwelcome guest, the keeper, who
Refused to trust the wife in her distress,
Consents to give the drunkard what he claims,
Another drink, provided he will leave
The House; regardless of the keen cold blast
Which fiercely drives the lately fallen snow
Into still greater drifts.
The cup now drained,
With slow, unsteady, faltering step, he leaves
That sink of vice, and wends his weary way
Through the unbroken snow, to that lone house
Where he had left his long-neglected wife
And only child, to suffer all the ills
That poverty and destitution bring.
And when arrived, exhausted and benumb'd,
He knocks, and shakes the door, and then calls out,
"What, still asleep? Wake up, and let me in."
No voice replies. No sound denotes approach.
Again he shouts, "Get up, I say, get up!
The door unbar, or I will break it down."
The words ring through the empty room as though
No occupant were there. But he enraged
Bursts in the crazy door, and to the bed
Directs his steps, to rouse his sleeping wife,
When lo! he finds a corpse.—Aghast he stands,
And trembles as the rudely shaken leaf.
Then, by the appalling spectacle restored
To instant sober consciousness, the truth
In overwhelming force bursts on his mind.—
His wife and child have perished by neglect.—
Placing his hand upon that gentle brow,
He finds it cold as ice. Then seeks the child,
And likewise finds it dead. Quick from the room
He turns, and to the nearest neighbor hastes,
And states, in briefest words, the shocking truth;
When, overwhelmed with sorrow and remorse,
He sinks exhausted to the floor; while they
Repair unto the place, and find it even so.—
* * * * *
The inquest then is held.—the verdict given,
"Perished with cold, and for the want of all
That life sustains." F.

Jefferson Co., Ala.

STRANGE REVERSAL OF FORTUNE.—Miss Cora Withers of New York married in defiance of the wishes of her family, and was cut off from them. As Madame de Wilhorst she went upon the stage, achieved success, and prospered. Until recently, negociations have been progressing in regard to her appearance in Paris. They have been broken off, says the Courrier des Etats Unis, in consequence of her husband having inherited a fortune. About the same time this news was received, the father of Madame became a sufferer by the financial troubles of the times—singularly reversing their positions.—*Boston Courier.*

PAYING DEBTS WITH WHEAT.—A Chicago merchant had $8000 to pay in New York, and could procure no exchange.—After much contriving and brain-scratching, he proposed to send the full amount in Western produce. The terms were at once accepted, and both parties will be gainers by the operation as well as the public. The one will save a suspension, perhaps; the other will realize a profit;—while the produce will be thrown into market, instead of being locked up in Chicago.

A PERFECT SUBSTITUTE FOR THE
LANCET, LEECHES AND BLISTERS,
INSTEAD of being a pleasure for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whether in its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 29, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.
For further information, address the Patentee,
JAMES A. WOODBURY,
Mass. No. 69 Sudbury street, Boston, Jan. 3, 1857.—1 yr

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.
For particulars and samples, apply to
BURDEN BROS. & CO.,
80 and 82 Pearl st., Boston, Mass.

SUSPENSION,—WHAT?—AND WHY?

Many persons who are not conversant with Banking, seem puzzled to know what the suspension is, what effect it has, and why one bank needs to suspend because another does. Many more do not understand how the Boston Banks could be so affected by the suspension of those in New York, so as to suspend in like manner.

The last named difficult question is easily answered. Says the Transcript :—"Under the present state of public feeling, and the embarrassment produced by N. Y. banks, the Boston banks being unable to draw balances from them in coin, and being subject to drafts from the New York Banks for coin, deemed it advisable to suspend specie payment for the present."
